

Student Club to Sponsor Lecture by Lowell Thomas

Noted News Commentator to Talk Next Tuesday Evening at New Trier High School

Lowell Thomas will speak on Tuesday evening of next week at New Trier Township High school, Indian Hill. Mr. Thomas' talk is being sponsored by the Tri-Ship club, organization of the boys at the high school, of which Donald Frisbie, instructor in social studies, is the faculty sponsor.

Mr. Thomas, who has been broadcasting the day-by-day adventures of mankind without interruption for the past eight years, has had a varied and adventurous career. He was born in Ohio in 1892, reared in a Colorado gold camp and has lived all over the world. As a young man he was a gold miner and cow puncher. Then he turned to newspaper work as a reporter and editor. After attending and receiving degrees from four universities, he became a of the faculty of Princeton university.

During the World war he was attached to all of the Allied armies all the way from the North sea to the Persian gulf, and later was the first to bring back an eye-witness account of the German revolution.

Until he started broadcasting in 1930, he was chiefly known as the discoverer and biographer of Lawrence of Arabia, as the biographer of "Count Luckner, the Sea Devil," and as historian of man's first flight around the world.

Led Expeditions

As a speaker—before his radio days—he probably appeared in person before more people than any other man in the history of the platform.

As a traveler he has led expeditions into the far north, into the tropics, and across remote sections of Central Asia.

He is the most widely known of screen commentators, and for the past five years has been the voice of Twentieth Century-Fox Movietone.

For eight years now he has been the leading radio news commentator. By short wave and by broad wave his broadcasts circle the world.
