## MAKING UP TIME

More than eight hundred hours have been spent on make-up tests for "Juarez" to date.

## November Strong in Building Field

November continued the strong building activity around the Great Lakes region. The contracts awarded during the month more than doubled the volume recorded in November, 1937.

T. O. Morgan, Chicago district manager of the Dodge Reports division of F. W. Dodge corporation, commented, "The contract awards of recent months have reduced the gap between this year's building record and last year's in Indiana, northern Illinois, eastern Wisconsin and Iowa. The November performance was particularly helpful.

## Will Exceed 1937 Record

"December residential work will undoubtedly push the 1938 contract level of this classification beyond the final figure of 1937," Morgan continued.

November contracts for residential building in the four-state area amounted to \$9,891,000 and raised the total for the eleven months to \$75,043,000.

In 1937, November residential contracts were recorded at \$5,222,000 and the eleven months accumulation was \$75,829,000.

Non-residential contracts awarded in November made a substantial reduction in this year's lag.

## Total Passes \$100,000,000

Contracts valued at \$20,169,000 moved the total for the January-through-November period to \$100,664,000. Last year, the November contracts amounted to \$8,517,000 and the total for the eleven months was \$133,702,000.

In a grouping of residential and non-residential contracts, the four-state building total for November was \$30,060,000. That is far ahead of the same month, last year, when the contracts totaled \$13,739,000.

All 1938 building contracts, awarded up to November 30 reached \$175,707,000 in a year-end drive to overcome the corresponding 1937 figure, \$209,531,000.
