Girl Scouts**COOKIE SALE**

The Girl Scout cookie sale is on, with delivery dates set for April 19 and May 3. This year the results of the sale will go to pay off as much as possible of the indebtedness on the Girl Scout cabin which was so happily used last spring and this fall. Even during vacation the girls are working hard taking orders for they want to equal last year's record.

PLAN GARDENS NOW

Obeys that urge to have your own garden, whether you have acres or just one sunny window, is the advice of Miss Marie Gaudette, of New York City, nature study adviser on the Girl Scout national staff.

"Girl Scouts, who are interested in gardening, have learned that one of the fundamental rules of successful gardening is to 'know your soil,'" she continued. "They are advised to send a sample of soil to their own state department of agriculture for analysis, to learn whether it needs more sand, or more

lime, for instance.

"Knowing their own soil, following the directions in seed catalogues, in many communities working as junior members of garden clubs, Girl Scouts are learning the joy of watching things grow. They are learning early in life how to satisfy that very definite need that is so urgently felt in these first spring days.

"Last year 15,169 Girl Scouts qualified for the various proficiency badges that are included in our nature group. Of this number 895 Girl Scouts earned the Gardener's Badge."

Musician Badge Workers

Those who are working for the musician badge are to call Mrs. Ernest Warner, Wilmette 4973, before all requirements are finished in order to do some examination work.

Troop 9

On Thursday, April 7, Troop 9 celebrated its birthday, being one year old. We asked our mothers to come to our tea. A committee of Nancy Toel, Barbara McNeill, Mary Anne Hall and Nadine Warner planned the refreshments of punch and cake and decorated the table. At this time Mary Lou Hughes was invested.—Violet Ward, Scribe.

Camp Fire

After the business meeting of April 4, led by our president Charlotte McConnell, we worked on land marks along the North Shore. The most well-known are the Chicago water tower, Fort Dearborn, and the many trees that the Indians used as trail markers. Miss Carroll showed us a map of old Chicago. To end our meeting we sang our closing song.—Fannie Hayson, scribe.
