## BRIDE'S CHOICE

No wonder so many brides of this spring are choosing the new Royal Doulton "Warwick" for their basic china! It is not only beautiful but its 18th century floral design combines successfully with other patterns.

A new glassware called "Georgian" is also of charming 18th century design and goes perfectly with the "Warwick" china.

Both china and stemware are among a number of handsome medium-priced patterns that the Blue Parrot is featuring this season.
