This business of spelling words wrong out in public seems to be contagious. Not counting the misspelled words in this family publication, reference is made to the "Abbottsford" and "Abbottsford" signs in Winnetka and Kenilworth (see last week's issue), and to the example of WPA orthography shown above. One of the signs which mark WPA labors in Wilmette streets, this particular cement block is located in the pavement of Eighth street just south of the Lake avenue intersection. It has not been ascertained whether "relayed" means "relaid" or "delayed."

Report Strong Upward Trend in Building Field

The strong upward trend of residential building in northern Illinois, Indiana, Iowa and eastern Wisconsin during the first half of the year was emphasized by a margin of more than \$26,500,000 over the corresponding 1938 total, according to T. O. Morgan, the district manager of Dodge Reports. The non-residential building situation is considerably better than last year with a gain of nearly \$15,000,000. Heavy engineering construction has shown another large increase.

The upswing in residential building was distributed among dormitories, apartment buildings, one-family houses, for the owners' occupancy and for sale or rent, and two-family houses.

A grouping of all types of residential contracts awarded throughout the four-state area totaled \$59,147,000. On June 30, 1938, the total for this classification was \$32,537,000.

Non-residential building developed a dollar volume which was just short of the residential during the six months, moving to \$57,406,000 from last year's corresponding \$42,579,000. Dodge Reports finds that large gains were established by manufacturing, educational, public and social building. Commercial building held the 1938 contract level.

The Dodge Reports summary concludes by grouping all types of building and engineering contracts awarded for work and materials during the first half of the year in the four-state area. The total now stands at \$183,158,000, a spectacular rise over last year's \$120,337,000.

Lose Weight Safely

If you want to take off ugly fat easily and pleasantly all you have to do is—

First... eat sensibly, which means you avoid over-eating. Second... mix 3/4 of a glass of Welch's Grape Juice with 1/4 of a glass of water and drink before meals and at bedtime. Thus you reduce caloric intake considerably. But you do not suffer a hungry moment. There are no strenuous exercises or taking drugs. Yet!—in a test conducted by Dr. Darnau with this method among a group of intelligent and cooperative people who followed directions implicitly, an average weight loss of seven pounds was registered per month. This remarkable method is just as beneficial and effective for overweight men as it is for overweight women. There is only one thing to watch. Eat sensibly, which means you avoid over-eating; and be sure to use Welch's Grape Juice—always made from the pick of the grape crop; always full strength; always pure.

Irene Rich, lovely star of the screen and radio, now past 40, weighs the same as she did at 16.
