

## Going to Olympic Games? Make Your Reservations Early!

American travelers planning to attend the Olympic Games in Helsinki (Helsingfors), Finland, from July 20 to August 4, 1940, must purchase their tickets for all events and must arrange for housing accommodations before September 15, 1939, according to advices re-

ceived from abroad by the American Olympics committee.

"While the committee is making every effort to have this date postponed until the Spring of 1940, the number of tickets allotted the United States is limited, and Americans who can will find it advisable to make reservations as soon as possible," states Douglas Malcolm of the American Express Travel Service. In conjunction with the Games, the Travel Service this week announced a series of European tours for American visitors to Helsinki.

The tours are offered in cooperation with the Gdynia America line and the United States lines. They allow visits to Europe either in advance of or following the Games, and several include the famous Passion Play, staged every ten years at Oberammergau.

## Art, Science Centers Sponsor Chicago Tours

The Chicago Museum Tours committee, in cooperation with various transportation systems into Chicago, is sponsoring three kinds of tours of all the museums in Chicago.

Two one-day tours and one two-day tour have been planned and the itineraries printed.

A handsome fully illustrated booklet is now available explaining the great advantages to visitors who join these tours. For a very moderate sum on the two-day tour the visitors receive meals and hotel, all transportation in Chicago from depot to depot by modern motor coaches, and the service of a guide-lecturer in each museum—in fact all expenses for two days. These parties are based on a group of fifty persons or more.

The various institutions cooperating fully on this plan are: The Art Institute, The Field Museum of Natural History, The Adler Planetarium, Shedd Aquarium, Oriental Institute of the University of Chicago, Museum of Science and Industry, The Chicago Historical Society, The Chicago Academy of Sciences, and the Chicago Park district.

Among the famous points of interest to be visited are: The Fort Dearborn Replica, Soldier Field, Buckingham Fountain in full color display, Garfield Park Conservatory, Grant Park concert, until Labor Day, The Japanese Gardens, the Lincoln Park Zoo and others.

The officers of the committee are: Fred G. Heuchling, Chicago Park district, chairman; John A. Maloney, Museum of Science and Industry, treasurer, and Lester B. Bridgman, The Art Institute of Chicago, secretary.
