**Former Wilmette Girl  
Enters Oregon Convent**

Word was received this week from Seattle, Wa. that Miss Winifred Josephine Barry, formerly of 1537 Central avenue, Wilmette, has entered the Order of the Holy Names of Jesus and Mary at Oswego, Ore.

Miss Barry had attended St. Francis Xavier school for four years, the Howard school for two years, and had her first year of high school at Mallinckrodt, before moving with her family to Seattle. She had just completed her first year at the University of Washington where she majored in science and art, before entering the Novitiate.

Miss Barry is the second daughter of Mr. and Mrs. Frank T. Barry and a sister of Betty and Helen.

Mrs. Laurence Hecht of Barrington is visiting her parents, Mr. and Mrs. Edward L. Koenig, 1028 Elmwood avenue.

of the addition was filled with gloom but not with rooms—and crowded New Trier carried on bravely.

**Get Federal Aid**

Assurance, however, that New Trier would not have to linger in the shadow of a melancholy shell came in September, 1933, when the federal public works administration (Harold L. Ickes administrator) awarded \$141,000 for the completion of the addition begun in 1931. The federal public works administration made an outright grant of \$40,000. The balance, some what in excess of \$100,000, represented the amount of high school bonds to be absorbed by the government at 4 per cent interest.

So it was then work on the interior of the addition began in February, 1934, progressing until the present, when Mr. Biesemeier is exultantly watching and guiding the workers in applying the finishing touches.

**Helps New Trier Grow**

Besides serving as head of the school's manual education department, he has figured prominently in the struggle for a "bigger life" for New Trier students. Since coming to that school in 1912, he has been supervising engineer for the additions made in 1922 and 1926, as well as for the gymnasium built in 1927. The 1931-1934 addition project marks his biggest engineering gesture for the sake of New Trier elbow room.

According to Mr. Biesemeier, the first building of the present New Trier High school unit was erected in 1900. Additions were made in 1907 and 1912. It begins to look as if New Trier is growing—what with a total of six additions, including the gymnasium.
