Wilmette Woman Directs French Club Performance

Under the direction of Mrs. Olga C. Russo, 2022 Beechwood avenue, Wilmette, a cast of twelve has been rehearsing for the last two months "L' Institute de Beaute," the three-act play by Capus which will be given by the French Club of Evanston when the organization meets Monday, April 11, at 2:30 o'clock at the home of Mrs. Harley Clarke, 2603 Sheridan road, Evanston. Mrs. Russo has also rearranged parts of the play for production purposes.

The story concerns a young man who gives up a sound business in order to follow his inclination for writing poetry. His practical wife seeks financial independence in the management of a beauty salon, while the poet becomes tired of his role as the husband of a successful business woman, and gradually becomes estranged from her. In this situation he forsakes his mediocre poetry to return to the security of his business.

Those in the cast are Mrs. Milos Franklyn Lewis, Mrs. Alice Sully, Miss Vida Woley, Mrs. Ronald Webster, Mrs. Homer Park, Mrs. Van Rysselberg, Miss Dorothy Purcell, Alexander Long, Allan Lee, James E. King, and Mrs. Van Rysselberg.

"I.E.S." Lamp Need Not Be a Puzzler

According to Mr. H. C. Reynolds, district superintendent of the Public Service company, one of the most frequent questions asked of Miss Bjorklund and Miss Scholl, home lighting advisors, who are now calling on Wilmette and Kenilworth housewives, is, "what is an I. E. S. lamp." It is a lamp which carries the approval of the Illuminating Engineering society.

A certain professor of electrical engineering one day visited his niece, a freshman at a leading university. The atrocious lighting by which the girls in her dormitory were obliged to study shocked him, and upon further investigation he discovered that equally poor lighting was handicapping students throughout the country. This condition was not only injuring young eyes, but, as scientific research has proven, was endangering students' health and general welfare.

The professor, a member of the Illuminating Engineering society, a nonprofit service organization occupying somewhat the same position in the electrical world that the American Medical association occupies in medical circles, became interested in developing lighting equipment which would give both a good quality and a good quantity of light. The net result was a set of specifications and fifty-four rigid requirements which a lamp, manufactured by any concern, must meet before it can bear an I. E. S. certification tag.
