Librarian of Congress, at Washington, D. C.

INTRODUCTORY.

The publishers have great pleasure in presenting this, the ~~second volume~~ of the Alpena City and County Directory to their patrons and the public, feeling confident that it will most fully meet the requirements of the business community, nothing having been omitted on their part to secure the utmost accuracy and completeness.

The work contains 305 pages, of which the first 40 are devoted to a sketch of the city and miscellaneous information relating to the city and county in general, with lists of churches, schools, city and county officers, institutions, newspapers, incorporated companies, secret societies, a street and avenue guide, etc, etc; succeeding this are 173 pages containing an alphabetically arranged directory of all the inhabitants of the city, followed by a list of all persons engaged in business compiled and arranged under the heading to which each belongs, occupying 28 pages.

The remaining pages contain name, township and post-office address of all farmers, and postal address of all store-keepers, lawyers, physicians, clergymen, etc, in Alpena county.

The publishers desire to express to the business and professional men of Alpena their acknowledgment of the generous support accorded this work and, in conclusion, would say, that in the future, they will be as unremitting in their endeavors to please, as they have been in the past, and that no pains or expense will be spared to make the Alpena City and County Directory a complete epitome of information relating to the interests and progress of the prosperous community it represents. Volume three will be issued in the near future, wherein will be given all the new street numbers; the work of renumbering the city not being completed in time for this edition.

ALPENA.

(Compiled by Wm. Boulton, and published as a supplement to the *Alpena Argus* July 27, 1887.)

The city of Alpena was incorporated in 1871. It contains sections 21, 22 and 28, fractional sections 23, 26 and 27, west fractional half of section 24, south half of sections 14, 15 and 16, and southwest quarter of section 13, of town 31 north, range 8 east. It has a frontage on the bay of about three miles, and is nearly divided in two equal parts by Thunder Bay River. In the city limits are nearly 4,000 acres. The ground is as a rule, but a few feet above the level of the bay, but is free from marshes or swamps. About three sections have been platted into lots, and on these are the greater part of residences, business places and public buildings. The larger portion of the lots contain about one-fifth of an acre. Beautiful residences and fine lawns are numerous, and many of the streets are lined with maple trees, which, in several places, forms a leafy arch over the sidewalks. Nearly all the streets have plank sidewalks, and a greater proportion of the lots have good gardens on them. Fruit trees are numerous. The streets are well drained, many miles of tile having been laid.

When the city was organized in 1871, it contained less than 3,000 souls, and the present population will reach upwards of 10,000—the State census showing 9,210 in 1884.

Alpena city is situated on both sides of the river, from the mouth, and extends along it for about two miles, and over a mile on each side. Thirteen of the lumber and shingle mills

Real Estate. O. L. PARTRIDGE, HOSPITAL BLOCK.

18

R. L. POLK & CO.'S

are situated on the river, of which ten can be reached by vessels. Three of the mills are situated on the bay shore, and they each have secure harbors, made for vessels and for booming logs, by driving piles and filling in with mill refuse. These docks readily resist what waves come off the lake, and speak volumes for Thunder Bay as a sheltered harbor. The bay shore and the river give Alpena facilities for at least five miles of wharfage. There is not much current in the river, in the city, owing to the dam, and thus vessels and steamers are readily moved from one wharf to another. It is no uncommon sight to see from twenty to thirty vessels and steamers in the river at one time.

It is distant from Detroit by water 250 miles, from Bay City 150, and from Mackinac 100 miles. By rail the distance to Detroit is 253 miles, and to Bay City 145.

LUMBER INDUSTRIES.

Lumber was the principal means of building up Alpena city and county, and is yet the chief industry, and will continue to be for some years to come. The manufacture of logs into lumber has done wonders for this county. It created the city; it nurtured it during its infancy; it protects it now in its childhood, and it will care for it until it has become fully grown and well able to take care of itself. Lumber has built the streets, the residences, brick blocks, and cleared the farms. Last year the various lumber mills sawed 102,000,000 feet of lumber, and there appears to be no doubt but that the lumbering industry will continue in its present strength for at least ten years. The use of railroads to transport logs has worked a revolution in the business. Valuable and large tracts of pine lands that were too far distant from the streams to be lumbered, are now, by means of the railroad, placed at the disposal of the lumberman, who can cut his logs when he

Organs and Planos. } **—GLOBE HOTEL BLOCK.—**

B. KRAMER, The Nobby Tailor

ALPENA CITY DIRECTORY.

19

wants them, winter or summer, and have them taken to his mill whenever he needs them. This log railroad system therefore makes available to the Alpena mills an enormous tract of pine land that at one time was believed would never come to this city. The first to operate log railroads among the Alpena lumbermen was the firm of Fletcher, Pack & Co., who, some years ago built a short line through their pineries at the head waters of the Upper South Branch. This was removed about a year ago to the Hubbard Lake region, where the company have now some 13 miles of railroad built through pineries belonging to them and other Alpena lumbermen. Their logs, however, were not brought to this city by rail, but were put into the streams reached, and then driven to the mills in this city. Last winter the Comstock Bros. started the work of hauling logs direct from their pineries on the southwest of Hubbard Lake, by log railway cars, and thus bringing them to their mill boom, in the heart of the city. The distance was at least 50 miles, and the D., B. C. & A. R. R. was used to transport the logs. Some 12,000,000 feet of logs have so far been brought for the Comstock Bros., and about 1,000,000 feet for the Messrs. Churchill. The railway of Fletcher, Pack & Co. hauls about 1,000,000 feet of logs per week.

It is thus evident that an enormous tract of land is compelled to contribute to Alpena's permanent position among the cities of the State, and a region, too, that was once believed to be of no benefit to the city. Before many months pass another railroad will be extended from the city to the vast pineries west and northwest of Alpena, and the countless thousands of feet of pine will be hauled from there to the mills here. These facts show that the lumbering industry will last much longer than was believed some years ago. Then, again, lands that were lumbered twenty years ago, have grown a second crop of logs, and some of these tracts

FIELD & GRAY STATIONERY AND WALL PAPER
Second Street.

G.A. SHANNON Fine and Medium Furniture. THE LEADING UNDERTAKER.

20

R. L. POLK & CO.'S

were re-lumbered last winter. In addition, Alpena lumbermen own immense tracts of pine land in the Georgian Bay region, and the logs there can readily, cheaply and safely be towed to Alpena, to be sawed into lumber. The following will show the products derived from sawing pine logs during the season of 1886, giving the amount of lumber, lath and shingles manufactured by each mill, but not including several small country mills:

Total shingles manufactured.....33,310,000

Besides the above, there was also exported last year 500,000 railway ties, posts and telegraph poles, and a large amount of lime, fish, wool, venison, deer hides, etc.

During the 27 years, ending with 1886, Alpena mills manufactured 2,118,215,000 feet of lumber. This year a new lumber mill has been erected, making sixteen mills in the city.

There are also immense tracts of land heavily timbered with good hemlock, excellent birdseye maple, beech, red and white birch of fine quality, basswood, ash, and other valuable timbers, which will at no far distant day, attract attention, and be sought by the lumber manufacturers, to be placed upon the market for consumption. The supply of cedar is enormous.

OTHER INDUSTRIES.

Alpena people have begun to turn their attention to other industries besides that of lumber. Last year Fletcher, Pack & Co., with commendable enterprise, erected a large sulphite wood pulp works, on Fletcher street—the first built in America. Over \$100,000 was expended on the works. The process in short, consists of cutting spruce, jack pine and other woods into short pieces, removing the bark, and then boiling the wood in a powerful acid—made on the premises. The boiled wood is then mixed with water and pounded, forming a kind of a semi-liquid substance. It is then drawn from a vat by an endless wooden belt, squeezed between rollers, and forms a long sheet of paper pulp, about five feet wide, thick as wrapping paper, and enough rolled up to form

Blank Books E. C. NASON, **Legal Blanks**
Centennial Block.

Stair Building and all FINISHING WORK. Go to LUTHER & FOLKERTS, ft. Chisholm St.

22

R. L. POLK & CO.'S

a roll convenient to handle. It is then shipped to the paper mills. The pulp is a superior article, with plenty of fibre, and the firm find a ready sale for the pulp. The capacity of the factory is 10 tons per day, and will be increased to double before another year. This new industry has already proved of great benefit to the city. It gives steady employment to about 40 men, and it has made valuable tracts of land timbered with spruce, balsam and jack pine, which timber previously was of no value. Now such timbered lands are worth as much as hardwood lands. Hemlock also makes good fibred pulp.

The other industries of Alpena consist of the foundries of Warren & Macdonald and Crippen & Son; the planing mills of R. Montrose, Luther & Folkerts, and that of Brebner & Johnston—there also being in connection with the latter, a flouring mill with a capacity of about 20 barrels per day. There are two breweries, that of Beck & Co. and that of A. Leins. The two have a capacity of 125 barrels of beer per day. First-class lime is made at the quarries of W. H. Phelps and O. Fox, about one and a half miles from the heart of the city, where is also quarried some of the finest building stone in Michigan. The foundries are capable of making large machinery castings, including cylinders, pulleys weighing over a ton, and such work.

In the carriage and wagon making business there are Robert Napper, Moffat & McGinnis, Wm Eccles, G. W. Gordon and others.

There are two cigar manufacturing establishments, that of J. Levyn and that of A. L. Maser. Many thousands of cigars are made, including some very choice brands.

In the city there are 83 brick stores and nine other brick buildings, comprising a church, hotel, gas works, water works, court house, lumber office, school house and two banks—pri-

23

vate residences not included. This year there will be completed the new county jail, built of Alpena stone, with iron cells, and the cost will be over \$10,000.

Until 1885 all the streets were in bad condition for hauling loads over. For many years the custom was to cover the sand with sawdust, but the sawdust soon rotted, and then another layer of sawdust was needed. The citizens at last became tired of that method of making streets, and in 1885 a contract was let to pave parts of Second, Dock and Fletcher streets with cedar block pavement. During that year cedar block pavement was laid as follows: On Second street, 1,128 feet long; on Dock street, 614 feet; on Fletcher street, 463 feet—total length of pavement for 1885 being 2,205 feet, containing 8,976 square yards, and cost \$7,848.

In 1886, cedar block pavement was laid thus: On Dock street, 791 feet in length; River street, 461½ feet; Third street, 321 feet; Chisholm street, 461½; Water street, 414½ feet—total pavement laid in 1886, being 2,450 feet in length, containing 10,616 square yards, and costing \$7,440.54. The pavement is 40 feet wide on the principal streets and 24 feet wide on other streets. About one mile of crushed stone pavement was also laid in 1886.

This year Chisholm street has been paved with cedar blocks, from Third to Tenth street, a distance of 2,772 feet, and the contractor is now at work paving First street from Water to Chisholm street, and then up that street to Second, a distance of about 1,188 feet. Alpena city has therefore cedar block pavement on her streets 8,615 feet in length. Her streets are lighted by electric lights, and the Alpena City Water Company furnishes both citizens and city with water. The water company has two set of pumps. At the dam, run by water power, are two of Holly's rotary pumps, and one Dixon duplex pump. The three pumps have each a capacity

Crissman & Crissman, General Hardware and STOVES. DOCK ST., NEAR FLETCHER.

WATCHMAKERS. FRANCIS & RICHARDSON, OPERA HOUSE BLOCK, 24 STREET.

24

R. L. POLK & CO.'S

of 1,000 gallons per minute. The rotaries are used for fire purposes, and pump water from the river. The contract with the city requires that the works shall have a capacity to throw eight streams of water perpendicularly to a height of 80 feet, all streams going at same time, and each through a one inch nozzle. For domestic purposes water is pumped from Thunder Bay by a different set of pumps, run by steam power, and last year the company erected a fine brick building on the bay shore, in which are four water pumps, with a pumping capacity of 1,500,000 gallons of water per 24 hours. Water pipes are laid in most of the streets, and water is furnished for domestic use at reasonable rates.

In 1886 the Alpena Gas Company erected gas works on State street capable of furnishing 30,000 cubic feet of gas per day. Some three miles of iron pipes have been laid in the streets, and many residences and business places are lighted with gas. About 3,000,000 cubic feet of gas has already been manufactured. The capital stock is \$60,000.

The electric light works were started in 1884. The system used is the Brush arc light, and at present 77 lights are used on the streets and in the business places.

The Western Union Telegraph Company have a line running to Alpena, and there is a telephone exchange with 117 patrons.

The assessed valuation of the city this year is \$3,498,125, and the only debt is \$10,000 in bonds, issued for building the fine steel truss swing bridge across Thunder Bay river from Second street to Dock street.

For amusement purposes there are the Opera House, the Rink, Culligan Hall, Arbeiter Hall, and other places.

The Opera House, when the changes now being made are completed, will be one of the finest in the state. Its seating capacity will be about 1,000. The parquet and dress circle,

BEACH & ALGER. LUMBERMEN'S SUPPLIES.

ALPENA CITY DIRECTORY.

25

of horseshoe shape, will have opera chairs, each row being several inches higher than the one in front. The gallery extends around one end and part of the sides. The room will be lighted with gas, and there will be abundant scenery.

The Alpena City Hospital is an institution which has been of benefit to many. It insures against sickness or accident at a low price, and has proved a boon to men working in the mills and lumber camps.

SCHOOLS.

The city and townships are well supplied with schools, and the facilities for obtaining a good education are not excelled by any city in the State. In the city there are the central school and seven ward schools. The regular attendance at the city schools, for the month ending May 29, 1887, was: Primary, 741; Grammar, 202; High school, 55—total 998, and are distributed among the following schools: Central, 257; Lockwood, 211; Baldwin, 89; Garfield, 36; Cass, 62; Franklin, 104; Jefferson, 140; Obed Smith, 99. Pupils graduating from the High school are admitted to the State Normal without further examination. To conduct the schools requires a superintendent, a principal for the High school, a teacher of the commercial class, and 24 other teachers.

The Catholic societies support two large schools, containing several hundred scholars.

CHURCHES.

Alpena is abundantly supplied with churches. Two of them, Trinity on Washington avenue, and St. Bernard's on Chisholm street, are magnificent structures, built of dressed stone taken from Alpena quarries. The former is Episcopalian, and the latter Catholic. Each of them cost over \$40,000. The Congregationalists have a fine wooden church on Second street, between Washington avenue and Lockwood

School Books and Supplies At Centennial Book Store.

LOTS FOR SALE. O. L. PARTRIDGE, Hospital Block.

26

R. L. POLK & CO.'S

street. The M. E. church, on Chisholm street, is of brick, and on the same street is St. Ann's belonging to the French Catholics. The Baptists have a roomy church at corner of Third and Lockwood streets. The Presbyterian church is on Washington avenue, between Second and Third streets. The Polish Catholic church is on Dock street, and the other churches are the Norwegian, on Dunbar street, and the German, on Second street. The churches are well attended, and large sums of money are contributed every year for their support.

CAUTION.

Pay no money in advance to Itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting moneys in advance. **BEFORE SIGNING AN ORDER, SEE THAT IT HAS THE NAME OF R. L. POLK & CO. PRINTED THEREON.** We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertisements or subscriptions.

FACTORY, OFFICE AND SALESROOM, Nos. 98, 100, 102 Randolph St., DETROIT, MICH.

OREGON

The great, new and flourishing State of Oregon offers to the immigrant more substantial inducements for settlement than any of the Eastern States, and to ignorance of its vast resources, the productive quality of its soil and its mild, delightful climate may be attributed the fact that so much of its area is still without cultivation. It is being rapidly filled up now, and a decade hence the value of its land and products will have more than doubled.

Washington Territory

Lying next to Oregon, is also one of the most prolific sections in the Great Northwest, and it is a matter of no small significance that its yield of Wheat, Barley, Flax and Hops for 1885 was nearly double what it was in 1884, and that the products brought a much higher price.

Oregon and Washington are the only two sections in the United States which produced full crops for 1885. See Government statistics.

It Will Pay Every Progressive Farmer

To examine into the advantages of Oregon and Washington, and even if you have no thought of changing your home you should write to one of the undersigned for information, as you should not be ignorant of what this section can produce.

The **Oregon Railway & Navigation Company** furnishes facilities for reaching all portions of the country, and offers special low rates to immigrants. Write to

GEN. T. R. TANNATT,

General Land Agent,

or

A. L. MAXWELL,

Acting Gen'l Pass. and Ticket Agent,

FARMINGTON, W. T.

PORTLAND, OREGON.

AS WELL AS ALL OTHER PRINCIPAL POINTS IN THE

GREAT NORTHWEST

The Lines of this Company are in Operation to

ASSINNIBOINE, MONT.,

And has a very large force of men working on extension to GREAT FALLS, HELENA, and BUTTE, MONTANA, which will be opened for business this fall (1887), making a total of 3,000 miles.

This has opened many new towns, which afford opportunities for the establishment of business enterprises of all kinds. The country abounds in pure water, an abundance of fuel, and timber along the streams. THE COMPANY still has some excellent farming lands adjacent to its lines in Minnesota, and there is a large amount of Government land along our new line in Dakota and Montana, which is yet available for settlement.

THE BEAUTIFUL PARK REGION OF MINNESOTA

Is the popular resort for gunning and fishing—Alexandria, Osakis, Ashby and Minnetonka Beach, Minn., being the principal points.

SOLID TRAINS to Winnipeg, Manitoba, and thence via the
MANITOBA-PACIFIC ROUTE TO PACIFIC COAST.

CAUTION.

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting moneys in advance. **BEFORE SIGNING AN ORDER, SEE THAT IT HAS THE NAME OF R. L. POLK & CO. PRINTED THEREON.** We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertisements or subscriptions.

ACATION is a cessation of work, and a diversion of the mind into new and pleasant channels.

While it may seem like idleness to loiter around at the seashore, the country farm or among the mountains, it is a repairing and oiling of the machinery, necessary to the better accomplishment of work.

If you can find rest and recreation during the sultry months, you gain thereby. A water trip best quiets the nerves,

rests the body and diverts the mind. We leave carping cares behind as soon as afloat, we cut loose and drift away from worries and anxieties of office, study, workshop and household, are interested in the changing scenes and in the enjoyment of solid comfort, float lazily and dream. We revel in the freedom, the dolce far niente, the pure, bracing air, the beauties of sky and sea, watch with fascination the leaping spray at the steamer's bow, fall to noting the ever-changing billows, and enter into projects for amusement started by others, or, originate them ourselves with the zest of a child.

On board a steamer we live a new, novel and fresh life, such as is never experienced on land. To those who enjoy great Nature's work, we would say:

Mackinac Island is among the grandest and most romantic of spots. Visitors are voluble with story and legend of every bold cliff and cave and fallen rock around the island, and many a pencil, brush and camera are brought to bear on the wonders found. Every section of the country sends visitors annually. The invalid is attracted by the wonderful purity of the atmosphere, the climate being noted as a sanitarium for hay fever and bronchial affections. Great numbers visit this region to escape from or get relief of these maladies; many experience an improvement on entering Lake Huron. No other resort possesses such entertaining features. The surrounding country offers endless attractions to the adventurous. Gamey fish lurk in all the inland lakes and rivers with which the State of Michigan abounds. Its forests are the hiding places of furred and feathered creatures, which afford fine sport.

Mackinac Island is reached by the Detroit and Cleveland Steam Navigation Company, by the pleasant lake route, with a splendid line of palatial iron steamers, the largest, swiftest and most luxurious on fresh water, forming the only comfortable route to this island resort. These floating palaces were recently built especially for the summer tourists' travel. The forward and after saloons, in mahogany and walnut respectively, are magnificently appointed and tastefully decorated, and their elegant rooms and parlors are replete with modern improvements. The lower saloons are devoted to dining halls, which entirely separate the culinary departments from the main saloons, a desirable feature only possible on these large side-wheel steamers. Their bill of fare, which is equal to that of any first-class hotel, includes all the luxuries of the season, and the price charged barely meets the outlay. Berths are in rooms, an upper, single width, and a lower, double width, in each, are furnished with wire and hair mattresses and Pullman blankets. These steamers have water tight compartments, and their feathering paddles give unusual speed, without jar or noise. This water trip cannot be excelled anywhere, and the round trip affords a daylight view of all the route. No more comfortable place can be found outside of one's own home in which to spend the sultry days, than on board these splendidly appointed steamers. The changing scenes and fresh, bracing air, will benefit many who vainly seek relief at physicians' hands, and physicians urgently recommend this particular trip.

You will make no mistake if you go a little out of your way in order to reach

ACKINAC ISLAND, the rock girt, fairy isle, sitting like an emerald gem in the clear, pellucid wave, rises gradually and majestically from the crystal waters, which cover but cannot conceal the glistening, white pebbly depths beneath. It is the central point of the three great lakes. It knows no land breeze, hence the winds are always cool and refreshing, and seem incessantly tossing balls at each other.

They no sooner cease blowing from Lake Michigan than they come from Lake Huron, and Lake Superior is never behind in the contest. Mackinac Island contains two thousand two hundred and twenty-one acres, of which the national park comprises eight hundred and twenty-one, and the military reservation one hundred and three acres. The natural scenery is unsurpassed. Nature seems to have exhausted herself in the manifold objects of interest which meet the eye in every direction. The lover of Mother Earth will hardly grow weary of wandering through its shaded glens, and climbing over its rugged rocks, each day bringing to light some new object of beauty and interest. Longfellow, in his poem of "Hiawatha" has put into English verse some of its wild Indian legends, which people every rock and glen with spectral habitants. Hiawatha is the Mena-bosho of the Algonquins, and the Island of Mackinac was considered his birthplace.

If the poetic muses are ever to have a new Parnassus in America, they should certainly fix on Mackinac Island. Hygeia, too, should place her temple here, for it is one of the purest, dryest, clearest and most healthful of atmospheres. The Island shows unmistakable evidence of the water having once been two hundred and fifty feet above its present line. It is a mooted question whether the lake has fallen from its original level, or the island has, from some cause, been lifted up. Springs of water, clear and cold, may be found at the base of the high cliffs, and scattered through other localities.

Mackinac village is a perfect curiosity in itself. Situated at the foot of the bluff, upon the brow of which stands the fort, it extends for a distance of a mile along the beach. The buildings are a mixture of the modern and antique, some of which were brought from Old Mackinaw when the town and fort were removed from that point after the massacre of June 4, 1763. Many of the fences are of the original palisade style.

Schoolcraft, who visited it in 1820, says: "Nothing can exceed the beauty of this island." It is a mass of calcareous rock, rising from the bed of Lake Huron, and reaching a height of more than three hundred feet above the water. Some of its cliffs shoot up perpendicularly, and tower in pinnacles like half ruined gothic steeples. It is cavernous in some places, and in these caverns the ancient Indians were wont to place their dead. Portions of the beach are level, and well adapted to landing from boats. The harbor at the south end is a little gem. In it, vessels can anchor and be sure of a holding, and around it, the little old fashioned French town nestles in primitive style, while above frowns the fort, its white walls gleaming in the sun. The whole area of the island is one labyrinth of curious glens and valleys. Old fields appear in spots which were formerly cultivated by Indians. In some of them are circles of gathered stones, as if the Druids themselves had dwelt there. The soil, though rough, is fertile. The Island was formerly covered with a dense growth of rock maple, oak, iron wood, etc., and there are still parts of this ancient forest left, but all the southern limits exhibit a young growth. There are walks and winding paths of the most romantic character among its hills and precipices. From the eminences overlooking the lake can be seen magnificent views of almost illimitable extent.

The Palatial Steamers belonging to the Detroit & Cleveland Steam Navigation Co

Map Straits of Mackinac.

Bird's Eye View of the famous Mackinac Region, showing the Water Routes to Potosi, Sault Ste. Marie and Lake Superior, and the D., M. & M. R. R. to Marquette and Lake Superior. Good Fishing and Hunting.

This Night Line by water is a Short Cut between the Cities of Cleveland and Detroit.

Miss Woolson's writings have thrown a weird witchery about Mackinac, and it has been to her a favorite spot for the locale of her romances. In answer to a letter asking for information, as to the number of times she had written of this place, Miss Woolson says: "I have often alluded to Mackinac in my sketches and stories. The second sketch I wrote (then beginning) was about Mackinac, it was called 'Fairy Island,' and was purely descriptive. There was, later, a short story of mine in the 'Galaxy,' called 'Flower of the Snow,' whose scene was Mackinac. But these were tentative merely. The first real description I gave of the island in print were two short stories, one called 'The Old Agency,' the other 'Jeanette,' both published in 'Scribner's Magazines,' now the 'Century.' Twice then, in my novel 'Anne' the island appears again; it is the scene of the first quarter of that story."

Indeed, Mackinac might well be the scene of romances yet unwritten, not only on account of its unique and beautiful situation, but because of its native inhabitants, in whose strongly marked characteristics there is yet unmined material for the book-makers. Here are to be found people who were born on the island, have seen their three score and ten, and never yet stepped foot upon the mainland, those who taught the Indians in the old days of the mission, and the fashionable lounge of to-day. It is full of contrasts and surprises, and has long been called the "Wonderful Isle" from the fascination it seems to hold for all who have ever lived on its shores. One of the most enthusiastic admirers of the place whom we ever met, is an old gentleman now living in Chicago, who was a resident of Mackinac in the old mission days. Since that time he has seen the vast west grow from a wilderness to a mighty empire; he has seen Chicago spring from a smaller post than Mackinac now is, to the proud proportions of the western metropolis; he has been a potent factor in its growth, but he has never lost his affection for Mackinac, nor his desire to visit it often. He could not be persuaded to part with a portion of the land which he owns there, were it not to share the happiness of its possession with others. The island is as important from a sanitary point of view, as it is attractive and beautiful from the aesthetic.

Happily Disappointed.—Grandma's advice to lone females. An old lady from Cleveland relates her experience of a trip up the lakes, through the columns of the Leader.

"I may not be telling your readers anything new in relating some of the incidents of my trip to Mackinac, but there are too few Cleveland people who seem to have found out what an elegant place we have in this beautiful island to which we may flee for comfort and recreation. I must plead guilty to my own ignorance until unexpectedly, (for I had started Tuesday evening with the intention of going in a different direction), I found myself safely on board the steamer City of Detroit, together with two young lady friends, who had hardly recovered from the 'set back' to our original plans. We had every attention from the officers of this magnificent steamer, and in the morning at 10 o'clock (Wednesday) we left Detroit, passing up the river with its beautiful scenery, across Lake St. Clair and through the canal into St. Clair river to Port Huron, where we launched out on the broad bosom of Lake Huron, and as there was nothing to be seen from the decks but unlimited green waters, on one hand, and a faint suggestion of land on the other, I gave some attention to the internal arrangements of the floating palace, on which it was our good fortune to find ourselves, and I have no apology to make for thus designating our good boat. It is no stretch of fancy, but a veritable fact, as your readers who have seen it will testify. There is nothing to be desired, or even remotely wished for, in the elegant appointments, and as regards the table, it is fully up to the standard of any first-class city hotel. As night comes on, we retire to the cozy state rooms; there is every inducement to enjoy a grateful rest and balmy sleep. Among my fellow voyagers were a party of over forty gentlemen and ladies, from Pittsburg, on a camping trip to Alpena, also a party of twenty or more young people from Bucyrus, O., intending to camp on the island. The grand old island is full of interest, but in our short stay only a hurried glance over the whole could be made. Our government has indeed chosen a lovely spot for a national park. Our three days' stay was soon over, and again the City of Mackinac steamed up to the dock, and we bade farewell to the island and soon found ourselves back in Cleveland. I hope that any lone females who may be at a loss where to go for a pleasant trip, will trust themselves to do likewise, and, in the care of Captain McKay and Steward Thorn, of the City of Mackinac, will derive as much pleasure as our little party, and in so doing, remember

GRANDMA."

It has been operated successfully for Thirty-Six years by the Det. & Cleve. St. Nav. Co.

Arch Rock, Mackinac Island.

The Charm of a Trip to Mackinac, and the benefits of Fresh Air begin to tell

Notes from my Scrap Book.—"A straight trip to the Strait, where I pined for more pine," wrote the man of the 'Hoosier,' forced to retreat from the merciless rays of a hoosier sun, which cooked his brain and dulled his faculties. He thanked his lucky stars that he came via Detroit, that he was permitted such comfort as was afforded by the City of Mackinac. No dust; no noise, no rattle or jar, no cramping seats, and no brakeman calling stations in unintelligible Greek; only a smooth, yet perceptible gliding onward of a huge floating palace; his delight was unbounded. He finally solved the Mackinac resort problem, as did his hoosier friends who read the front page of his well written sheets. Another scribe from Hoosierdom, he of the 'Wasp,' followed closely with his head lines very black and well displayed and his piracy on Mackinac had its desired effect: 'MACK-IN-AWE, or the Wasp man talks a little about MACK- and how he came to be IN-AWE.' His talk was, about Mack's big reputation, Mack's historical scenes, the wonderful events which had taken place on Mack. His pen pictures of panoramic scenes were vivid, for illustrations he referred to 'Picturesque Mackinac,' and finally, becoming weary of so much sight seeing, retired to the cabins, and fell to studying the characteristics of others. He found the usual variety viz: the real or pretended family of wealth, who held themselves aloof and managed to have things a little better than others. There was the old man whose love for travel and feminine society had not yet abated; the commercial man, the solidest man on board, dreadful flow of spirits, led conversation, told great yarns, knew more * * * luggage? reduced to the vanishing point, eat? tells people 'its a cold day when he gets left,' violates all laws, last to retire, never ill, he was there. So was the young man, hail-fellow-well-met, among the roughs on the lower deck, maintained his standing with the aristocracy in the cabin, great favorite, clothes for every occasion, chums with a fellow equipped as if going to a lawn tennis party, who talks in a loud and familiar way about the ins and outs of water travel, etc. There was the vulgar woman, who dresses up on Sunday, and the man who comes on deck with embroidered slippers, and, as usual, the one who by carelessness lost his baggage, flies at everybody and fails to describe the property, or explain the circumstances which will lead to its quick recovery."

This Island Summer Resort is made famous from the magnificence of its scenery, its historic and military associations and Indian legends, while its grand and massive rocks, its smooth beaches of glittering sands, washed by the waves of the great unsalted seas, afford never-ending objects of interest. There are natural drives to many historic spots which teem with story of Indian and British warfare. Among the scenes of beauty and grandeur are Lover's Leap, Arch Rock, Sugar Loaf, Devil's Kitchen, etc.; and from the summit of the Island the eye rests with pleasure upon the fairest expanse of forest, fort, village and wave. Living streams of pure, cold water gush from the rocky precipices, and to those desiring grand scenery, pure air, abundance of simple, health-giving pleasures, and with mind refreshed and body invigorated, to return to the daily pursuits of business life, with pleasant recollections of a summer well spent, the Island of Mackinac pre-eminently offers special inducements. The great Straits of Mackinac, attractive in themselves are dotted with islands, and stretch their glittering waters into the dim distance. Many short excursions to other interesting spots help to make one's stay delightful. The longer and most attractive of these is up the Soo river to Sault Ste. Marie, on the morning steamers. By taking the Detroit and Cleveland Steam Navigation Company's steamers from Cleveland, Tuesday or Thursday evenings, and from Detroit Wednesday or Friday mornings, passengers for Sault Ste. Marie have the advantage of a daylight trip through river St. Clair to Port Huron the first day, also over the picturesque portion of the route from Alpena to Mackinac Island the second day, a shorter or longer visit to the island as desired, then a daylight trip up Soo river, leaving the island at a seasonable hour in the morning. This is a pleasant combination not afforded by any other line. There is much to interest at Sault Ste. Marie; old Fort Brady, the famous ship canal, and shooting the rapids in an Indian canoe are exciting experiences. Steamers of both American and Canadian lines pass through this canal en route to Lake Superior, which afford a choice of routes, via either the north or south shore.

Through Tickets at excursion rates can be obtained at principal railroad ticket offices.

Stop Over privileges are granted at Detroit, also to visit the celebrated Mineral Spring and Oakland Hotel at St. Clair, (north bound only.)

On you as soon as the Palatial Steamers of the Det. & Cleve. St. Nay. Co. get under way.

Sugar Loaf Rock, Mackinac Island.

The beauties of our Northern Lakes which nearly surround the State of Michigan, and

These steamers stop at the island both ways, giving those who wish to return on the same trip, from four to six hours in which to view the curiosities and wonders, or, you can return by one of them every thirty-six hours. Tickets for transportation can be procured from any ticket agent. Round trip tickets are good for the season. The round trip occupies four and one-half days from Cleveland, or two and three-quarters days from Detroit. The few landings made en route are just sufficient to interest without being tedious. Some of your neighbors have certainly made this trip. Enquire about it.

The Cost from Cleveland—This item has received our thoughtful consideration, and is the least possible to insure complete comfort, tickets covering transportation being only \$4.50 one way, or \$7.00 round trip; (half fare for children between five and twelve years of age.) Meals are 50 cents each; the same for children over three years old; under that age 25 cents, and for the first table. The running time, Cleveland to Mackinac, includes five meals at 50 cents each, or \$2.50 each way. Some passengers bring their own lunch. An upper berth of single width is \$2.00, a lower berth of double width \$3.00. Each room will accommodate three persons, by two occupying the lower berth. Put the items together, say for

This delightful trip by water of 940 miles in the round trip, occupies 4½ days, costing only \$16.00 to \$18.00, or about \$3.75 per day. You cannot go anywhere and compass so much enjoyment and solid comfort by the way. By rail, you reach Mackinac a few hours earlier possibly, which is all that can be said in its favor, and is of the least consequence when seeking pleasure, rest and recreation. It is certainly hot and dusty, you are cramped for room, and the little strength you start with is likely to be used up, especially is this the case with ladies and children. A summer trip should be planned to get all the quiet and fresh air possible. Why do you leave home at all? Simply to reverse the excitement of business cares, the bustle, hurry and rush. Such complete relief is only found by taking a water trip, the scenery is varied and attractive, and there is ample time for a good look at every interesting object. One way by steamer would be better than all rail. The outside expenses by rail will pay the cost by water. Have you taken this view of the matter?

Steamers City of Cleveland and City of Detroit, which form the Lake Erie Division with a nightly service (Sundays excepted) leave Cleveland at 8.30 P. M., arrive at Detroit the following morning at 5.30 o'clock. Returning, leave Detroit at 10.00 P. M., arrive Cleveland 5.30 o'clock, standard time. The fare between the two cities is \$2.25 single trip, which is one-half of rail fare, or \$4.00 round trip. Upper berths are \$1.00, lower berths, \$1.50. Among the advanced steps taken by this Company is that of not including the cost of berths in the ticket fare, which happily disposes of the vexatious question, how to best care for the comfort of our patrons. Commercial travelers, usually confined to the hot, dusty, noisy rail car, avail themselves of the charming quiet, cool fresh air and the luxury of a full night's rest afforded by this night line by water.

Passengers can time it to make close connections at Detroit with steamers City of Mackinac and City of Alpena, which form the Lake Huron Division, and leave every Wednesday and Friday mornings at 10 o'clock, Monday and Saturday nights at 10.00 o'clock for Mackinac and principal Lake Huron ports. The quickest trip and closest connection is made by taking Lake Erie steamers Tuesday or Thursday evening from Cleveland. Breakfast on board before reaching the Company's wharf.

The elegance and comfort of the Det. & Cleve. St. Nav. Co's steamers are all without a rival.

The Detroit & Cleveland Steam Navigation Company have adopted the

DETROIT, with a population of 220,000, is the oldest city of the west, and the commercial metropolis of Michigan. It is essentially a manufacturing city, and its peculiar advantages will eventually render it the Birmingham of the Northwest. It challenges comparison as being the handsomest city in the Union. In addition to its acquired beauties, it is extravagantly favored by Nature. The dwellings are mostly detached, with plenty of intervening space, the broad streets and prevalence of shade trees give the place a village air, and contribute much to its attractiveness for residences. As a healthful city it is without a peer. The beautiful river, $\frac{1}{2}$ of a mile wide, affords the city a water front miles in extent, gives immediate escape from heat, dust and noise, and time need not hang heavy as there are a dozen popular, healthful and beautiful resorts within one to three hours' ride by steamer. There are eighteen islands, many of which are attractive for excursion parties and residences.

Just above the city, Belle Isle park, containing 700 acres, is a favorite resort. Detroit is a complete and most desirable summer resort, combining all the requirements of a popular watering place, and the luxuries of a city home. The river is the pride of its residents, and the surprise and delight of tourists, who pronounce it the most beautiful stream in the world. Through it passes the vast tonnage of the lakes, which exceeds that of our foreign commerce. Our artist cleverly illustrates the character and activity of its shipping. Early settlers found on its shores homes more attractive than their wildest dreams had pictured.

The Cost from Detroit—Transportation is \$3.00 single, or \$5.00 round trip. The running time includes four meals at 50 cents, or \$2.00 each way. An upper berth of single width is \$1.00, a lower berth of double width is \$1.50 for the trip.

Put these items together, say for

	Single Trip.	Round Trip.
Transportation	\$ 3 00	\$ 5 00
4 meals at 50 cents each	2 00	4 00
An upper berth for the trip	1 00	2 00
Total with upper berth	\$ 6 00	\$ 11 00
Extra for a lower berth	50	1 00
Total with lower berth	\$ 6 50	\$ 12 00
Two persons in one room (\$6.00 and \$6.50)	12 50	23 00 or \$11 50 each.
Three persons in one room, add transportation and meals only for the extra person	5 00	9 00
Total cost Detroit to Mackinac	\$ 17 50	\$32 00 or \$10 67 each.

for three persons occupying but one room. A single individual desiring to occupy a room by himself, can arrange for it at an advance of the above prices. Meals and berths are arranged for exclusively, by the company.

This delightful trip from Detroit to Mackinac by water, a distance of 740 miles in the round trip, occupying 2 $\frac{1}{2}$ days, costing only \$11.00 or \$12.00, or about \$4.00 per day, is within the reach of a large number who make a practice of leaving home for a short time during the summer months.

It is not expensive by steamer.

These steamers being side-wheelers and large, afford the utmost comfort.

Parties who intend taking the Wednesday or Friday morning steamer, and arrive in Detroit Tuesday or Thursday evening, will be accommodated with rooms for those nights without extra charge, if applied for early in the evening at the General Passenger Office.

Common sense plan of making Separate Charges for Meals and Berths.

Mackinac Village, as seen from the Gun Platform of the Fort.

By the completion of the New Steel Steamer City of Cleveland the Detroit and Cleveland Steam Navigation Company now offer Commercial Travelers and Tourists a fleet of four large side-wheel passenger steamers, which surpass in speed, elegance and comfort any past attempts in fresh water navigation. The meals which this Company furnish at fifty cents as an advertising feature can be duplicated at first-class hotels only, but at double the cost. These steamers run on Lakes Erie and Huron, between Cleveland, Detroit, Port Huron and St. Ignace, stopping at the Famous Summer Resorts of St. Clair Mineral Springs (Oakland Hotel) and Mackinac Island.

Steamer City of Cleveland Size, 20 x 34 inches. 14 Colors; price, 25 cents, (postage and packing included.)

Connecting with Lakes Michigan and Superior Steamers for Petoskey, Chicago, Milwaukee, Sault Ste. Marie, Duluth, and all ports and Summer Resorts of the Great Lakes. Any ticket agent in the United States and Canada can give information and furnish tickets at Excursion rates.
