CITY

DIRECTORY

1893-94.

COMPRISING

AN ALPHABETICALLY ARRANGED LIST OF BUSINESS FIRMS AND PRIVATE CITIZENS; A CLASSIFIED LIST OF ALL TRADES, PROFESSIONS AND PURSUITS—A MISCELLANEOUS DIRECTORY OF CITY AND COUNTY OFFICERS, TERMS OF COURT, STREETS AND AVENUES, PUBLIC BUILDINGS, SCHOOLS, CHURCHES, BANKS, SECRET AND BENEVOLENT SOCIETIES, ETC., ETC.

SOLD ONLY BY SUBSCRIPTION.

VOLUME V.

R. L. POLK & CO., PUBLISHERS,

40 TO 44 LARNED STREET WEST, DETROIT, MICH.

For List of Publications see page 248.

Entered according to Act of Congress, in the year 1893, by R. L. POLK & Co., in the Office of the Librarian of Congress, at Washington, D. C.

INTRODUCTORY.

The fifth volume of the ALPENA CITY DIRECTORY is presented to the public with the belief that the result attained must reflect credit upon the thorough system and faithful efforts of the publishers; no class of work requires more diligence and carefulness than the compilation of such information as the directory contains, a letter or figure misplaced often rendering it unserviceable; with these facts in view the work has been prosecuted with a determination to make it a complete and reliable representative of the city with all its various institutions and organizations, its incorporated companies, societies, churches, schools, banks, etc., its business firms and private citizens. It is the purpose of the publishers that the directory shall keep pace with the development of the population and resources of the city, and with each succeeding issue improvements and additions will be made.

The first 40 pages are devoted to useful miscellaneous information relating to the city and county in general, comprising a street and avenue guide, lists of city and county officers, fire department, churches, schools, banks, railroads, incorporated institutions, miscellaneous institutions and societies, newspapers, secret and benevolent societies, etc. Succeeding these, are 175 pages containing an alphabetically arranged directory of all the inhabitants of the city, followed by 33 pages containing a list of all persons engaged in business or the professions, classified under their respective callings.

This edition of the Alpena City Directory shows 5,403 names, which, with the multiplier of three persons to one directory name—the lowest used in any city in the United States—gives a total population of 16,206. Sincere thanks are tendered to those who, by their patronage and support, materially aided and encouraged the publishers in their work, and also to those who kindly assisted in collecting the information required in the preparation of this volume; and, in conclusion, the publishers would say, that in due time the sixth volume of the Alpena City Directory will be issued, and that nothing shall be wanting on their part to maintain the high standard already attained, and they confidently hope to meet with the recognition the work deserves.

ALPENA CITY DIRECTORY.

1893-94.

MISCELLANEOUS DEPARTMENT.

STREETS AND AVENUES.

EXPLANATION.

An order was passed by the City Council authorizing the numbering of all streets of the city, and designating Chisholm street a dividing line for all streets crossing it, or running North and South, and Second street for all streets running East and West. The system adopted is the same as used in Philadelphia and other large cities, known as the "decimal" system—one hundred numbers being allowed for each block. In cases where vacant lots, etc., occur, the usual numbers have been allotted them. On referring to the following guide, it will be noticed that the names of all streets and avenues follow each other in strictly alphabetical order without regard to location :

Adams, from Long Lake av east to Huron, between Bolton and Monroe.

Albert, from Taylor north, between Beebe and Huron.

O. L. Partridge, Real Estate Agent, 116 E. CHISHOLM.

14

The story of Picturesque Mackinac has caused thousands of strangers to visit our Northern Lakes. Its truthful pictures by both pen and pencil excite wonder and admiration. The original design, embracing both illustrative and typographical features, has recently been much improved, and the revised edition, now in press,

A copy of the work will be forwarded on receipt of 5 cents in stamps to pay postage.

A synopsis of the book, under title of "Millionaire Voyages on Northern Seas," containing additional routes and rates, mailed free of charge, on application.

will certainly prove the most powerful exponent of the Great Lakes ever published, while as a tourist guide it is unrivalled, as it both interests and instructs. Address E. B. WHITCOMB, DETROIT, MICH.

I N presenting this little pamphlet, the writer assumes that the public, or at least that portion of it that goes from home during the summer months, is well educated to the efficacy of vacations, and will not waste the limited space at his command by useless homilies on that over-written subject. Instead, it is intended to tell, in a fair and impassible manner, of the delights of a lake trip, and, by means of practical descriptions and detailed information of the company's routes, aid the prospective tourist in his selections.

Travel on the water may truthfully be called the acme of delight, pleasing, as it does, more generally than any other source of amusement, the extremes of all classes and temperaments. Again, while it gently stimulates that zest for adventure, so inherent in every American bosom, it accomplishes its main purpose by overcoming the weariness or ennui occasioned by the hot weather and enabling humanity to make the most out of a short resting spell. It is hard to determine from which conditions these results spring; the new and novel life, whereby the over-wrought brain is diverted in spite of itself to insignificant matters involving little or no mental exertion, the life-giving ozone distilled by the tremendous expanse of air and water penetrated, the constant unrolling of those grand beauties of nature so beneficial to every temperament, or the enforced absence from all suggestions of business or household; they can invariably be depended on to do their work, however.

The invalid, especially if suffering from hay-fever or bronchial affections, may be equally certain of beneficial results. Mackinac and Petoskey are so celebrated as sanitariums for these maladies that we shall not sound their praises here. It is not so well known, but assuredly a fact, that the wonderful purity of atmosphere to which these resorts owe their reputa-

tion, gives to the lake voyage the same curative properties, and the sufferer may embark with certainty of being so benefited in the outset that his trip will be thoroughly enjoyable.

SOLID COMFORT EN ROUTE

I S an expression full of meaning to the experienced traveler; suggesting that a pleasant journey may have much to do with subsequent enjoyments. The company has considered it so, and always shapes its policy so as to anticipate every want of its patrons. Started in 1850 with the parent route between Detroit and Cleveland, its capital now exceeds a million dollars, and it owns a fleet of

MIDNIGHT ON LAKE ERIE.

five steamers, the largest, swiftest and most luxurious on fresh waters. The company builds none but steel vessels of the strongest pattern, thus securing, with the addition of sufficient watertight compartments, practical indestructibility.

While all the newest marine ideas of real merit are invariably made use of, the policy of the management is well defined in the uniformity of general design. The steamers are roomy side-wheelers, propelled by the Clyde patterned feathering wheels, thereby developing a marvelous speed without the slightest jar or noise. Their forward and after saloons, of solid mahogany, are magnificently appointed and tastefully decorated, and their rooms and parlors replete with wire and hair mattresses, Pullman blankets, electric lights, etc. The lower saloons are devoted to dining halls, which entirely separate the culinary departments from the main cabins. The cuisine, which is equal to that of any first-class hotel, includes all the luxuries of the season, and the price charged barely meets the outlay. In fact, it may not be egotistical to say that the Detroit and Cleveland Steam Navigation Co. offers to persons of fastidious tastes the only solid satisfaction to be found in inland travel.

THE LAKE ERIE DIVISION.

BETWEEN Detroit and Cleveland may be called the main stem of the company's lines. Operated between two large cities, a sufficiently steady patronage is received to warrant the best of service, and to this end two mammoth sister ships have just been built. Their extraordinary size and grandeur has placed the route in the front rank of that comparatively small array of trunk lines to which travelers of experience look forward with pleasant anticipations. We may describe the new City of Detroit, the latest addition, as being 300 feet long by 72 feet wide and 16 feet molded depth, with hull divided into nine water-tight compartments. The boilers are four in number, and carry 110 lbs. of steam. The engine is a compound beam of 2700 horse-power. The grand saloon is of solid mahogany, and contains a double tier of state-rooms connected by a broad gallery. It is 240 feet in length, and its dome rises 20 feet overhead. There are over 140 state-rooms and parlors, each lighted by an electric lamp. The City of Cleveland is similar in every respect. A steamer leaves either city late in the evening and arrives at her destination long before breakfast, making connections with all arriving and departing trains, and forming by far the shortest and cheapest as well as the most delightful route between many far distant cities. Steady travelers, usually confined to the hot, dusty, noisy rail car, always avail themselves of the charming quiet, cool fresh air and luxury of a full night's rest afforded by this water route. The Sunday night trips, from June to September, are very popular and have proved a great convenience.

Passengers intending to continue their voyage on the steamers of the Lake Huron Division may so plan their departure from Cleveland as to make direct connections at Detroit, or have a day for sight-seeing. The Tuesday or Thursday

MOONLIGHT ON THE LAKE.

SEE'S EYE VIEW LAKE HURON DIVISION, DETROIT AND CLEVELAND STEAM NAVIGATION COMPANY.

A LUMBER PORT.

steamer from Cleveland finds the other almost ready to depart, while the Friday or Sunday steamer will necessitate a stay in Detroit till evening. In either case the Lake Huron steamer will be found at the Company's dock on the arrival of the Lake Erie steamer, and passengers may at once transfer to and take breakfast on the former, which they can make their home.

Passengers arriving in Detroit by rail or otherwise, on Tuesday and Thursday evenings, and intending to take the Lake Huron steamer the next morning, may at once proceed on board and occupy their state-rooms free of extra charge, thus becoming settled down and in a position to enjoy, as a spectator, the exciting scenes incident to departure the next day.

THE LAKE HURON DIVISION

EXTENDS from Detroit to Mackinac Island on the Straits of Mackinac, a distance of 350 miles, mostly through Lake Huron. From Detroit to Port Huron, at the foot of the lake, the scenery is most charming, embracing the headwaters of the Detroit River, the placid Lake St. Clair, the far-famed Government ship canal, the famous St. Clair Flats fishing and shooting ground and the majestic St. Clair River. From Port Huron, all suggestion of land disappears on the starboard bow, and only shows faintly on the port or American side. Occasionally, when the steamer approaches a way port, the passengers have time to gather some ideas of the characteristics and occupations of the inhabitants of this purely lumber region, but for the most part of the twenty-four hours spent on Lake Huron, they will experience the sensation of being in midlake.

Considerable interest attaches to many way ports because of their note as camping or resorting spots. At St. Clair or Port Huron clubs are constantly located from July to September, and at Oscoda, Alpena, Cheboygan and St. Ignace bodies of hardy men may frequently be seen embarking or debarking. Those leaving the steamer are making for some inland lake or stream; the others need naught but the trophies of their skill to tell of their whereabouts during the preceding two weeks. In fact, the whole of the country surrounding Mackinac offers endless attractions to the adventurous. Well-stocked rivers and lakes abound, and the interminable forest is still overrun with furred and feathered creatures.

After touching at Mackinac, the steamers cross to the freight terminus of the route at St. Ignace. This occupies from four to six hours, and those who wish to return at once can, without laying over, see considerable of the main points of interest at the famous National Park, if they engage one of the charioteers for a drive.

This delightful round trip of 920 miles from Cleveland or 700 miles from Detroit occupies $4\frac{1}{2}$ days from the former or $2\frac{1}{4}$ days from the latter point. It costs but a trifle more than \$4.00 per day all told, and at that price is most emphatically within the reach of all. You cannot go anywhere and compass so much enjoyment and solid comfort by the way. A summer trip should be planned to get all the quiet and fresh

ARCH ROCK, FROM THE BEACH.

air possible. Such complete relief is only found by taking a water trip, where the scenery is varied and attractive, and there is ample time for a good look at every interesting object.

THE COST OF A ROUND TRIP

CANNOT be intelligently shown without some explanation. By the company's advanced system, meals and berths are not included in the price of a ticket, and patrons are at liberty to provide for themselves if they so desire. Berths are in rooms, and cost \$1.00 for the upper or \$1.50 for the lower, on each steamer, no matter if the trip be one or two nights. The whole room accommodates three persons and costs \$2.50. Meals cost 50 cents each and may be estimated by the time card. These expenses are invariable, except for children under five, when the meals are 25 cents. Our table of costs is not guaranteed, but the figures are more likely to fall below than rise above the estimate.

	FROM CLEVELAND.	FROM DETROIT.
Transportation	\$ 9.00	\$ 7.00
Meals	5.00	4.00
An upper berth for the trip	4.00	2.00
Total with upper berth	\$18.00	\$13.00
Extra for a lower berth	2.00	1.00
Total with lower berth	\$20.00	\$14.00
Two persons in one room	38.00	27.00
Third person, add transportation and meals	14.00	11.00
Total cost, three persons in one room	\$52.00	\$38.00

Only the transportation is purchased in a through ticket. Meals and berths are arranged for exclusively by the company.

MACKINAC ISLAND.

THE rockgirt, fairy isle, sitting like an emerald gem in the clear, pellucid wave, rises majestically from the crystal waters, which cover but cannot conceal the glistening, white pebbly depths beneath. It is the central point of the three great lakes. It knows no land breeze, hence the winds are always cool and refreshing; they never cease flowing. Its area is over two thousand acres, of which the national park and military reservation comprise about nine hundred. The natural scenery is unsurpassed. Nature seems to have exhausted herself in the manifold objects of interest which meet the eye in every direction. The lover of Mother Earth will hardly grow weary of wandering through its shaded glens, and climbing over its rugged rocks, each day bringing to light some new object of beauty and interest. Longfellow, in his poem of "Hiawatha," has put into English verse some of its wild Indian legends, which people every rock and glen with spectral habitants. If the poetic muses are ever to have a new Parnassus in America, they should certainly fix on Mackinac Island. Hygeia, too, should place her temple here, for it is one of the purest, dryest, clearest and most healthful of atmospheres.

Nothing can exceed the beauty of this island. It is a mass of calcareous rock, rising from the bed of Lake Huron, and reaching a height of more than three hundred feet above the water. Some of its cliffs shoot up perpendicularly, and tower in pinnacles like half ruined gothic steeples. The island shows unmistakable evidence of the water having once been two hundred and fifty feet above its present line. It is a mooted question whether the lake has fallen from its original level, or the island has been lifted up. It is cavernous in places, and in these the ancient Indians were wont to place their dead. Portions of the beach are level and well adapted for landings.

THE DETROIT AND CLEVELAND STEAM NAVIGATION COMPANY'S NEW STEEL STEAMER CITY OF CLEVELAND.

The harbor at the south end is a little gem. In it, vessels can anchor and be sure of a holding, and around it the little old-fashioned French town nestles in primitive style, while above frowns the fort, its white walls gleaming in the sun. This village is a perfect curiosity in itself. Situated at the foot of the bluff, its two streets extend for a distance of a mile along the beach. The buildings are a ridiculous mixture of the modern and antique. Some were brought from Old Mackinaw when the town

A STREET IN OLD MACKINAW.

and fort were removed from that point after the massacre of June 4, 1763. Many of the fences are of the original palisade style. The whole area of the island is one labyrinth of curious glens and valleys. Old fields appear in spots which were formerly cultivated by Indians. In some of them are circles of gathered stones, as if the Druids themselves had dwelt there. The island was formerly covered with a dense growth of rock maple, oak, iron wood, etc., and there are still parts of this ancient forest left, but all the southern limits exhibit a young growth. There are walks and winding paths of the most romantic character among its hills and precipices. From the eminences overlooking the lake can be seen magnificent views of almost illimitable extent, and as the observer gazes from the rocky battlements of the fort upon the surrounding waters, there steals upon him a sense of security which seems a complete bulwark against the host of Summer annoyances.

The late Dr. Drake says: "The island is the most important summer resort to which we can direct the attention of the infirm or the fashionable. As a health resort it is unsurpassed. Its cool, dry air and the living streams of pure water which gush from the lime rock precipices, are just what are needed to bring back the glow of health to the faded cheek, and send the warm currents of life dancing through the system, superseding all necessity for nauseating iron, sulphur and epsom salts."

At watering places generally, all the features of the surrounding scenery are soon familiarized to the eye, which then merely wanders over the commingled throngs of coquettes, dandies, dancers and idlers, and soon returns to inspect the real or fancied infirmities of its possessor. A visit to Mackinac reverses all this. Its natural beauties and historic associations, together with the innumerable lesser attractions which cluster round about, serve to furnish visitors with so much entertainment and variety for either the robust or weakly ones, that ennui which eventually is felt at most resorts need not be experienced here. You eat with a new relish, and sleep like a child.

MACKINAC VILLAGE, AS SEEN FROM THE GUN PLATFORM OF THE FORT.

You row, or ramble, scarcely able to keep your buoyancy within bounds. Dr. Mills, once post surgeon at Mackinac, says: "No better place can be found for sickly girls and puny boys, for worn-out men and women. From the hour of entering Lake Huron, your feelings will indicate that you have passed beyond the reign of miasma, fever, dyspepsia, blue devils and duns, and you look back upon the whole of them with gay indifference, or a feeling of good-natured contempt, as every turn of the steamer's wheel carries you farther into the temperate and genial climate of the lakes, and away from your perplexities. Under these influences real diseases may abate, and the imaginary ones be forgotten, and this salutary mental excitement will not soon die away, for the historic associations, not less than the surrounding scenery, are well fitted to maintain it." Dr. Mann says: "A few whiffs of the air would make your lungs give a hygienic laugh. Children are crazy with animal spirits, and eat in such a way as to demonstrate the paradox that the quantity contained may be greater than the container." These extracts will no

doubt meet with a hearty response from thousands who have visited Mackinac.

Dr. Hammond, the famous physician, says: "I have no hesitation in saying that it is the best summer resort of which I have any knowledge, for persons whose nervous systems are run down, or who desire to be built up and strengthened."

HOTEL ACCOMMODATION

IS a very satisfactory problem at Mackinac. There are innumerable hostleries of every grade of price and corresponding service. If the tourist wishes to study the ancient features of the island from their stronghold, he will put up at the John Jacob Astor House. This was originally the headquarters of the American Fur Company, and a glance at its low ceilings, scored by heavy timbers, its ancient fireplaces, its clumsy iron door locks, and its old storing vaults will satisfy any lover of antiquities, even before he has been invited by the genial proprietor to inspect the account books of four score years ago. The Mission House, at the extreme easterly point of the island, is another relic of ye olden time. Commanding one of the best views on the island, it is very popular with those loving quiet repose.

The place of all places for the fashionable resorters is Plank's Grand Hotel, situated on a commanding eminence at the western end of the island, and facing the straits. This hotel is the largest summer resort in the West, accommodating as it does upwards of 1,000 guests, and representing a capital of \$300,000. Its rates are from \$4.00 to \$5.00 per day, and the season extends from July 1st to September 20th. This tremendous building is 650 feet in length and five stories in height. Its architecture is of the "Old Colonial" style, the distinctive feature being a colonnaded portico, 30 feet wide, upon which the windows of every floor open. The interior is well arranged and fully equal to every demand of the most fastidious taste. The lower floor is occupied exclusively by the dining-hall, drawing-room and private parlors, with the large rotunda office in the center. The dining-hall is a mammoth apartment, capable of seating 600 people. It occupies the space of two stories, the vaulted ceiling being 27 feet overhead. The guest rooms are large, light and airy. Each front suite is provided with a private balcony. The hotel is lighted by gas and electricity, heated by steam, and provided with elevator and electric call and fire alarm bells. It is also supplied with barber shop, bath-rooms, steam laundry and a first-class livery. A metropolitan orchestra is in constant attendance. The grounds have been made very attractive and a casino constructed for indoor sports. The hotel is under the management of Mr. J. O. Plank.

with fast extending suburbs almost touching, are Petoskey, Bay View, Wequetonsing, Harbor Springs and Harbor Point. The most expeditious route is via the G. R. & I. Railway, whose excellent train service renders communication possible at almost any hour of the day. The distance by this route is only thirty-five miles from Mackinac City, the nearest point to Mackinac, on the mainland. They may also be reached by either the day or night lines of steamers by way of Lake Michigan. By these lines the mileage is nearly doubled, and the better part of a day or night occupied in the journey. By far the prettiest route, however, is via the picturesque Inland Line of steamers through Mullet Lake and Indian River. The Michigan Central Railroad leading directly south, touches Topinabee and Indian River in an hour's ride from Mackinac. These points are also local to the Inland Route.

Charlevoix and Traverse City, on Grand Traverse Bay, are best reached by the steamers on Lake Michigan. They are about a days' ride from Mackinac.

A line of splendid steamers makes daily trips to Sault Ste. Marie, leaving Mackinac about nine in the morning, and passing all of the superb scenery of the St. Mary's River by daylight. At the Soo, connections are made with the through steamships running to the north and south shores of Lake Superior and to the Canadian ports situated on Georgian Bay.

In a water trip to Chicago or Milwaukee, there is considerable diversity of choice. The Lake Michigan and Lake Superior Transportation Co.'s steamers running without stops straight through the center of the lake, afford a quick trip and the novelty of being in mid-sea for twenty-four hours. The Northern Michigan steamers, coasting to all important points on the Lake Michigan east shore, and consequently taking up more time, afford the tourist a better opportunity to view the industries of the region. Coming back to the service more directly connected with the island, we may mention that nothing gives a more general idea of its wonders than a trip around its shores in one of the numerous steam yachts. These trips are on at all hours of the day. So, also, are the fishing excursions to Les Cheneaux, than which no more delightful way of spending one day may be contrived. The ferry steamers, and the constant movement of steamers of regular routes, afford excellent opportunities to visit the mainland either north or south at any hour of the day or night.

PETOSKEY is a charming resort situated on the side of a high bluff near the head of Little Traverse Bay. The town numbers 3,500 souls, and has a water front

MACKINAC REGION.

ALL of Northern Michigan's many attractions are within easy reach of Mackinac Island. Indeed, so central is this spot, that the "Mackinac Region," as commonly spoken of, is supposed to include every attraction of the Great Lake Region of Upper Michigan. All methods of travel may be called into use, and all seem to start from a common center or hub, radiating as they do from this small island. Perhaps the most important of these secondary points is the Little Traverse Bay. Here, clustering within a mile or two of each other, and

of $1\frac{1}{2}$ miles, to which a long pier gives considerable character and life. A lofty limestone cliff flanks it on the west. Among its trees may be seen the tents of many "campers," and further on the pretentious villas of wealthy residents. From the verge of this cliff the view is superb. Five miles distant is the ridge of hills that lines the opposite shore of Little Traverse Bay. These sweep in a symmetrical curve around this vast amphitheatre, and follow up the hither shore until they rise and terminate in high cliffs. The white line of pebbly beach which stands out so prominently against the green of the hills now takes an abrupt turn to the left, and forming a crescent two miles long, ends in a wooded point.

No summer resort or watering-place on the continent can boast of purer air, fresher breezes or better hotels. Facilities for recreation are also good. Boating on the bay and short excursions by steamer or railroad may be indulged in at all times. Owing to the salubrious climate and central location, the Western Hay Fever Association makes its headquarters here.

BAY VIEW, of Summer University fame, lies one mile further up the beach. Though but a few years have passed since the location of the grounds, this Assembly has become immensely popular in the East and South, ranking next to Chautauqua in size and completeness. The location is beautiful and no expense has been spared in improving its natural advantages. The land rises in natural terraces from the bay and affords cozy and picturesque sites for the four hundred cottages, of which glimpses may be caught through the trees. Clear cool water has been brought to these cottages through pipes from a never-falling spring further up the hill side.

HARBOR SPRINGS lies six miles further round the shore of Little Traverse Bay. It is located on a beautiful harbor (Wequetonsing) formed by the crescent of Harbor Point. Along the water's edge are large springs from which gush streams of water as clear as air and of a temperature only 12 to 15 degrees above freezing point. The history of the place is full of interest. Pieces of pottery show that it was once a stopping place for the ancient mound builders. It was for many years a central point for the payment of annuities, and for ages a favorite camp ground for the Indians. Many curious legends are extant. Strangers always visit the antiquated Catholic church, founded more than 200 years ago by Marquette.

THE HARBOR POINT RESORT, directly opposite, is singularly favored. The strip of rolling land on which it is situated is hardly more than a stone's throw in width, and while on the outer shore the heavy surf of Lake Michigan rolls grandly over a fine bathing beach, the children may with perfect safety paddle about the harbor within. Besides the large amusement hall and hotel which stands high above the beach on the breezy Lake Michigan side, the resort includes numerous cottages, which are provided for such of the guests as prefer the seclusion of their own roof.

CHARLEVOIX, 18 miles below Petoskey, on the Lake Michigan shore, is a most picturesque spot. The beautiful little town is situated at the mouth of a short strait, the outlet of Round and Pine Lakes. Further up, and just between the lakes, are the handsome grounds and residences of the Kalamazoo and Chicago Resorts, which occupy the north and south shores respectively.

BAY VIEW COLLEGE.

THE INLAND ROUTE is undoubtedly the most interesting one between Mackinac and Petoskey. Nothing short of a water trip through the heart of Florida can compare to this wonderfully novel route by crooked rivers and lovely lakes, across the northern end of Michigan. Even with the former the comparison ends here, as the salubrious climate and the high forest grown shore are lacking. A little steamer leaves Mackinac at 7 o'clock, Cheboygan at 9 o'clock every morning, and after picking her way among logs and booms, past saw-mills and through the lock, steams up the crooked Cheboygan to Mullet Lake. The lake is 12 miles long by 5 wide, with a charming ruggedness of outline, caused by the thickly wooded hills which completely encircle it and form its shores. Topinabee, a favorite spot for campers, is situated at the further end, and here the passengers disembark for dinner. After a short rest the little vessel resumes her journey, and worries through Indian River into Burt Lake, the lower end of which is crossed in reaching Crooked River. The latter stream is the shallowest and most crooked of the three, and although the steamer draws but thirty inches of water, it is only by a constant succession of twists and turns, scrapes and pushes and stops and backs that she gets through to Crooked Lake, where after a run of three miles, she ties up to the wharf at Oden, after an exciting and highly interesting day. A dummy starts immediately on the eight-mile run to Petoskey, where it arrives in season for supper. The little steamers Romeo and Juliet, which compose this line, are marine marvels. A vessel capable of carrying 150 passengers, which may safely and constantly make the trip through mid-lake from Mackinac to Cheboygan, yet at the same time is compact enough to wriggle through stretches of river that would seem impossible to craft larger than a skiff, must be the handiwork of a genius. The twin screw system now in use on the most famous ocean flyers, has been employed in miniature to furnish the motive power. This enables the boat to turn in her own length, but even then, poles and ropes are in frequent demand, and the ingenuity and experience of the captain is taxed to the utmost.

MARQUETTE, the metropolis of Lake Superior country, is a very handsome city. Its business portion displays great activity and metropolitan tastes. Its residences, which are exceedingly beautiful, are placed high up on a bluff to the north, and command a view of the lake for 30 miles. While its central location makes it a capital base of operations for all the lovers of the rod and gun who visit these natural game preserves, it possesses no small attractions within itself. Speckled trout may be caught in the streams near by, while in the bay lake trout of twenty to thirty pounds in weight furnish exciting sport. The hotels are of the best, and everything necessary for hunting and fishing may easily be obtained.

THE TRIP TO THE SOO is worthy of note. The steamer after rounding Mackinac Island follows the northern shore of Lake Huron as far as Detour, at the entrance of the St. Mary's River, where the real interest begins. The river is 62 miles long, and is composed of a succession of beautiful straits and broad lakes. It is almost entirely shut in by high hills, which rise from the water's edge. In the many beauties and eccentricities of the stream and its outline, it is freely compared to the Hudson and other famous rivers. The channel is narrow, crooked and shallow, however, and must be passed by daylight. This is usually accomplished at dawn, this line being the only one which makes it at mid-day. The river is full of islands, and there are many popular hunting and fishing resorts along its course.

SAULT STE. MARIE, a city of 8,000 inhabitants, may be reached by rail or water. There is much of interest about the old place. It lies on the left bank of the river, just below the famous government ship canal, built for the purpose of passing the St. Mary's Rapids. The government works are exceedingly interesting. The immense and perfect structure of masonry, the water power which runs all the machinery necessary to operate the monster gates of the lock, and the dynamos which furnish the electric lighting, are perfect in all their details, and well display man's ingenuity.

LAKE ERIE DIVISION.
Steamers CITY OF CLEVELAND
and CITY OF DETROIT (New)

DAILY LINE BETWEEN

CLEVELAND and DETROIT.

LEAVE CLEVELAND 10.00 P. M.—After the arrival of ALL trains. Passengers due in Cleveland via Bee Line at 9.45 p. m., or via Erie at 9.00 p. m., should notify Conductor of their wish to catch the steamer.

ARRIVE DETROIT 8.00 A. M.—Making connections with EARLIEST trains in every direction. By this route passengers may reach the Saginaw Valley at 10.55 a. m., Grand Rapids at noon, and other points at correspondingly early hours.

LEAVE DETROIT 11.00 P. M.—After the arrival of ALL trains. Passengers due in Detroit via Michigan Central Fast Train at 10.45 p. m., or via Detroit, Lansing & Northern at 10.20 p. m., should notify Conductor of their wish to catch the steamer. By this route passengers may leave Bay City, Saginaw, Grand Rapids, Niles, Kalamazoo, etc., after supper and reach Cleveland following morning.

(Standard Time.)

ARRIVE CLEVELAND 8.30 A. M.—Connecting with EARLIEST trains East, South and Southwest, and reaching Pittsburg or Columbus at noon.

CLEVELAND WHARVES, 23 River Street. DETROIT WHARVES, Foot of Wayne Street.

CONNECTIONS—(1-2) With Railways diverging. (3) P. H. & No. W. Railway. (4) D. B. C. & A. Railway. (5) Bay City Steamers. (6) Inland Route. (7) Steamers for Lake Michigan, Lake Superior and Soo River. (8) Duluth, So. S. & Atlantic Railway for Lake Superior ports.

THIS LAKE LINE of swift steamers furnishes the only reliable, enjoyable and comfortable means of reaching the Summer Resorts of Northern Michigan, Mackinac, Petoskey, Harbor Springs, Bay View, Charlevoix, Traverse City, Les Cheneaux Islands, Sault Ste. Marie, Marquette.

THE LAKE AND RAIL Route formed by the D. & C., and the Duluth, South Shore & Atlantic R'y, is the shortest, quickest and cheapest way of reaching Lake Superior and Northwest points. Fast Express Trains, having elegant parlor or sleeping cars attached, leave St. Ignace immediately after the arrival of the steamer, and reach Sault Ste. Marie in 4 hours, Marquette in 6 hours, the Copper Region in 9 hours, and Duluth in 15 hours.

FOR NORTHWEST POINTS located on the lines of the Northern Pacific R. R., Canadian Pacific R'y, or St. Paul, Minneapolis & Manitoba R. R., this new and interesting route through Lake Huron and across the Upper Peninsula to Duluth will be found the cheapest.

CALIFORNIA

ITS GREAT NATURAL WONDERS AND RESORTS.

It sounds superfluous and redundant to speak of pleasure resorts in California, and in any event they must be considered only in a relative sense. To a visitor from the Eastern States the whole of California is one great pleasure resort at all times of the year. Custom and the necessities of the language have compelled the use of the terms "summer" and "winter" in California; whereas, except upon the very crest of the Sierra Nevada, there is no winter, and except in a few hot and arid spots no summer; all else is spring—soft, gentle, and unfailing, with flowers in constant bloom. The fact that there are many pleasure resorts in California, is the outgrowth of a local desire for change of scenery and climatic conditions, for the benefit brought by rest and the pursuit of pleasure, and for the medicinal effect of many mineral waters.

It is in the extraordinary variety of these resorts that their vitality lies. A resident of New York, visiting California for recreation, would find in almost any spot upon which he might alight all the perfect conditions for the pursuit of recreative pleasure,—bathing on the seashore, hunting, fishing, and camping in the interior, or the brisker whirl of social pleasures in the larger towns and cities. But if he should become a resident, the time would arrive when he might desire a change from the charms of his particular environment. If a resident of an inland city, the coast would allure him in summer; if he has settled in a coast town, the mountains will invite him to enjoy their marvelous beauties. To the permanent pleasure of living anywhere in California is added the close and ready means of enjoying other pleasures of a different kind; for in no other area of equal size may be found so many enticing resorts in such wonderful variety. A better understanding of this singular fact may be had by following us in a tour through the country from Oregon to San Diego, giving but the briefest glance at the more popular resorts as they rapidly are passing in review.

THE SISKIYOU MOUNTAINS.

SUPPOSE, then, that we enter California by the Southern Pacific from Oregon. It is needless to describe the charming beauties of the Willamette, the Umpqua and the Rogue River valleys. We are not now looking for general beauties, which abound everywhere, but for fixed and popular resorts of pleasure-seekers. We might spend weeks of incomparable delight hunting and fishing in the Siskiyou Mountains; we might scale Mount Shasta and visit the many beautiful lakes of the Cascade and Siskiyou ranges. Soon after entering California the train stops at Ager; and thence we go by stage twenty miles to the Klamath Hot Springs, which lately have begun to attract hundreds of tourists. These remarkable springs of boiling mineral waters are situated in the valley of the Klamath, surrounded by all the glories of the northern mountains. A fine stone hotel affords comfortable entertainment for visitors; and in the vicinity are splendid hunting and fishing. If, as many tourists do, we should leave the railroad at Sisson, in Strawberry Valley, and make the ascent of Mount Shasta, we should behold a scene of indescribable beauty and grandeur. Standing nearly fifteen

MOUNT SHASTA.

thousand feet above the level of the sea, we may see a wonderful country, covering a circle with a radius of hundreds of miles, and embracing many noted peaks, glistening lakes, long ranges of snow-capped mountains, and the far-off lava beds of the Modoc country. Every mile of this mountain trip from Roseburg in Oregon to Redding in California reveals extraordinary beauties unequalled by those of any other mountain range in the world; for here, instead of bleakness and desolation, are seen pictures which have received the kindest, noblest, grandest and most refreshing touches of Nature's prolific brush, from the delicate beauty of wild flowers to the snow-covered summit of Shasta. The Alpine Club of Portland has accomplished much in bringing to public notice the entrancing beauties of the mountain lakes, peaks and gorges of the Cascade and Siskiyou ranges.

The Strawberry Valley is the best point from which the McCloud River may be reached. This beautiful stream rises in the eastern flank of Mt. Shasta and flows southward, its waters finally reaching the Sacramento. It is on the McCloud River that probably the finest fishing and hunting in the West may be found. The river is, and likely will forever remain a wild and uninhabited stream. As a consequence there is nothing except hunting and fishing parties to drive out the game and destroy the fish,—an extremely difficult task. The scenery is beautiful, and Mr. Sisson of Sisson has established a camp on the river for the accommodation of visitors. For those who enjoy an outing of this character, the McCloud River is an earthly paradise.

The mountains of the North abound in so many charms that it is difficult to make a selection for enumeration. The town of Sisson itself is one of the most popular summer resorts in the mountains; and it is from this place that the grandest full-

facial view of Shasta may be had. The elevation of the town is 3555 feet; and the air is remarkably pure and healthful. "Sisson's Tavern" is a charming hotel, where every comfort is furnished. Another place of great interest is the Soda Spring near Dunspruit. The fine, pure, sparkling soda water has been brought in pipes from Shasta Soda Springs to a pagoda alongside the railroad. The Sacramento River, here a noisy, turbulent stream, flows past; and on the opposite bank are the famous Mossbrae Falls. There, bold streams of water in great number and force burst from the rocks and rush down to the river in noisy cascades, scattering rainbow jewels with a lavish hand.

Dropping down from the mountains and following the Sacramento River from its source in a flank of Mt. Shasta to its mouth in the Bay of San Francisco, we pass some beautiful and romantic spots. Lassen's Peak overtops its giant companions in the Sierra to the east; and at its base are a number of remarkable geysers, from which, with great roars, issue volumes of boiling water and mud, and where great pools of hot water abound, all pointing to the volcanic history of the great butte.

THE SIERRA LAKES.

At Sacramento, we may turn eastward and visit the famous lakes in the Sierra near to the Central Pacific R. R. Lake Tahoe is a resort to which thousands flock every summer. It is a beautiful sheet of water, twenty-five miles in length and from twelve to fourteen miles wide. It abounds with trout, and on its shores are some attractive hotels. The mountain scenery here is superb, and the summer sunsets of surpassing beauty. Excursion steamers and sail and row boats are abundant; and every possible luxury is provided. Webber Lake, another of these remarkable inland seas, all of which are between six thousand and seven thousand feet above the sea level, is not far away; and here there are good accommodations, and probably the best hunting and fishing in the world. Independence Lake is another of this group of wonders, with its attractive hotel and its superb fishing and charming mountain scenery. Still another of these Sierra lakes, one of the smallest but the

most famous, is Donner Lake. It is only three miles from Truckee, which is the town at which visitors to all these lakes leave the railroad. It received its name from George Donner, who, with a party of emigrants was snow-bound at this lake in the winter of 1846. The most incredible sufferings were endured, and some of the party died from starvation. On all sides are towering snow-capped mountains, and the scenery is grand and imposing. It is famous for its trout fishing, and is

one of the prettiest resorts in the Sierra. Returning we leave the railroad at Auburn and visit the wonderful Alabaster Cave eight miles southeast of Auburn. It has large rooms and lofty arches, glittering stalactites and pure water.

WONDERFUL SPRINGS.

FROM these lakes we may return through Sacramento, and, passing through Napa and Calistoga, visit the Napa Soda Springs, the White Sulphur Springs, the Geysers and Clear Lake. These popular resorts are near together; and their great beauty and close proximity to San Francisco cause them to be thronged with visitors every summer. At the Napa Soda Springs there are elegant buildings for the accommodation of visitors. The springs are situated in a valley surrounded by lofty verdure-clad mountains, which lack the bold and rugged aspect of the Sierra. At the feet of the mountains lie the splendid orchards and vineyards which have made the Napa Valley famous. It would be difficult to find anywhere else in the world so excellent health-giving waters set in the midst of scenery so beautiful. These springs are also a winter resort of great prominence, and are one of the objective points in the itinerary of Ramond and Whitcomb's winter excursions of Eastern people to California.

The White Sulphur Springs, on the same line of travel, near St. Helena, still retain all the popularity which in early days made them the principal resort for the fashionable people of San Francisco. This is one of the most delightful resorts in the State; and the new management,

THE GEYSERS

which has recently taken charge, may be depended upon to furnish the best accommodations. The natural attractions are unusually strong. Etna Springs, sixteen miles from St. Helena by stage, are also very popular. Here

are natural hot and cold waters for bathing and drinking purposes. The Calistoga Springs, at the town of Calistoga, shows the general characteristics of the Soda Springs of Napa county, and possess rare healing virtues. Perched high in the mountains above Calistoga are the Harbin Springs. There are springs here of varying temperatures, one showing 118 degrees. There are many other hot and cold springs in this vicinity, including Adam's Spring, five miles from Glenbrook; Siegler Springs two miles from Adams; Bonanza Springs, two miles from Siegler; Howard Springs, fourteen in number, two miles from Siegler, and 2220 feet above the level of the sea; Anderson Springs, ten miles from the Great Geysers; Pearson Springs, fourteen miles from Lakeport; Witter Springs, one mile east of Pearson; Hot Borate Springs, near Lakeport; Highland Springs, four miles from Kelseyville, famous for their douche bath; Cook's Springs, in Indian Valley, Colusa county, yielding hot sulphur and other mineral waters; Hough's Spring, in Lake county, thirty-two miles from Williams; Allen Springs, in Lake county, twenty-eight miles by stage from Sites, on the Colusa and Lake Railroad; Bartlett Springs, in Lake county, thirty-one miles by stage from Sites, and one of the most popular resorts in the State. The easier accessibility of Bartlett Springs within the last few years has served to increase the number, already large, of visitors who annually seek health and pleasure there. The water is cold (though heated for bathing

purposes), contains soda, borax and iron, is heavily charged with carbonic acid gas, is cathartic, diuretic and alterative, and has a pleasant taste. A good hotel, a large number of cottages and excellent management assure the comforts of visitors.

The center of this remarkable region of volcanic springs is found in the canon of the Little Puton River, far up in the mountains in Sanoma county, 1700 feet above the level of the sea, and distant one hundred miles from San Francisco. The railroad which passes Napa terminates at Calistoga, and thence a stage line runs to the Geysers, the most remarkable boiling springs of the world, apart from those in the Yellowstone Park and Iceland. The trip to the Geysers, both by rail and stage, presents a series of panoramic views of unparalleled splendor. Apart from Yosemite and the Hotel del Monte, in their way the two noblest attractions in California, the Geysers exercise a peculiar and absorbing fascination. In the Little Pluton canon, embowered in a sylvan scene of singular beauty and repose, with the added massiveness of rounded mountain tops on either hand, there are one hundred springs of all sizes issuing from the fiercely hot interior of the earth. Surely the distance here from the surface of the earth to those terrific internal fires which formerly found vent in the great volcano now called Mt. Shasta cannot be great. This awe-inspiring phenomenon is now all that is left in activity of the violent volcanic disturbances which in the ages gone lifted California from the bottom of the Pacific. The waters range in character from that which is pure and cold to boiling caldrons of a black, thick liquid. There are cold soda springs and boiling alum and sulphur springs. Heavy deposits of sulphur, salts, ammonia, tartaric acid, magnesia, etc., cover the ground in places. There are intermittent boiling springs, from which jets of water and volumes of roaring steam issue at short intervals. The "Steamboat Geyser" is the most impressive of all, with its great body of steam thrown up under tremendous pressure, and with a heavy roar. There are hot and cold medicated baths, where remarkable cures have been effected. From innumerable fissures in the ground come jets of steam. The "Witches' Caldron" is over seven feet in diameter, and its depth has never been sounded.

The fourth leading place of resort in this part of the State is Clear Lake, about thirty-five miles north of Calistoga. The scenery which surrounds this beautiful sheet of water, compared with that of Lake Tahoe and its neighbors, presents all the striking differences between the Coast Range and the Sierra. At Clear Lake we find, instead of granite, snow-covered earth-giants arranged in wild and majestic disorder, finely rounded mountains and hills decked with verdure, and innumerable shady ravines and enticing nooks. The shore is singularly beautiful and gives an impression of infinite repose. The lake is between twenty-five and thirty miles in length, from ten to twelve miles in width, and thirteen hundred feet above the sea. Many pretty islands dot its surface, and charming towns line its shores. Among the latter are Lakeport, the county seat of Lake county, a town of great beauty. The big mountain Konocti bathes its feet in the waters. The Sulphur Banks, at the lower end of Clear Lake, and easily accessible from Lower Lake, afford one of the most interesting spectacles to be found in the State. Through a mass of porous earth hot sulphurous vapors continually force their way, depositing beautiful but fragil sulphur crystals on the surface. This curiosity is well worthy of a visit.

This account of the wonders of Lake county will close with a mention of the Blue Lakes, three in number, two thousand five hundred feet above the sea, twelve miles from Lakeport. There is much ruggedness of scenery, alternating with quiet wood pictures of exceeding beauty.

AROUND SAN FRANCISCO.

SAN FRANCISCO itself is a superb winter resort for residents of the Eastern cities; but as it has a fixed population of three hundred and fifty thousand, it unfortunately, under the common interpretation of the term "resort," cannot be so classed. Evidence, however, of the great charm of its climate in winter is found in the fact that during those months which in the East are appropriately called "winter," San Francisco is always crowded with visitors. Apart from the strong and generally unique character of its attractions as a city,—such as its wonderful system of cable roads, its lofty hills, whose slopes and summits are lined with attractive homes, the close neighborhood of the two charming cities, Oakland and Alameda, and the near popular resorts, Sausalito and San Rafael, its beautiful land-locked harbor, its splendid park, with flowers in bloom throughout the year.—It has such attraction as an almost unbroken succession of bright days, a fine bracing air, a complete exemption from epidemic and

VICINITY OF CLIFF HOUSE.

the immediate neighborhood of San Francisco is Mount Diablo, a noble peak which rises from the Coast Range, east of San Francisco, and about thirty miles distant in an air line. A delightful trip is to leave San Francisco in the morning, quit the railroad at Martinez, take a team for the mountain, make the ascent (an easily accomplished task, as the road runs to the summit), and return to the city in the evening. The view from the summit is indescribably beautiful. San Francisco, Oakland, Alameda, and dozens of other towns and cities, nestle closely on the ground far below; and San Jose is visible in the distance. Far to the north and west are seen the snow-crowned summits of the Sierra, with grand old Shasta overtopping them all. Directly east of Mt. Diablo are the Byron Springs, noted for the medicinal virtues of their hot and cold sulphur, soda, iron and magnesia springs. They have also a natural hot mud bath, which has cured many a sufferer from rheumatic and other afflictions. Commodious bath-houses and good hotel accommodations are provided; and they are open the year round. We leave the Southern Pacific train at Byron station, some distance beyond Martinez, and take the stage thence two miles to the springs.

The Coast Division of the Southern Pacific Company is peculiarly favored, as it is the highway to some famous pleasure resorts. It runs south from San Francisco to San Luis Obispo county, with short branches to Santa Cruz, the Hotel del Monte,

endemic diseases, and an energetic, virile population, whose zestful pursuit of pleasure is a natural consequence of its prosperity and health. The superb hotels and theatres of San Francisco are a marvel to the world; and within a radius of a few miles from its borders are many of the most noted health and fashion resorts on the continent. One of the chief attractions in

Monterey, Pacific Grove and other resorts. Just south of San Francisco it passes through a number of beautiful towns that are particularly noted for being the country homes of San Francisco millionaires, including San Mateo, Belmont and Menlo Park. Through the forests of oak we catch a glimpse of the Stanford Junior University; and there are many vineyards and orchards. Fifty miles from San Francisco is the charming city of San José, with its superb hotel and its numerous places of resort near by, including the Alum Rock Sulphur Springs and baths, in a pretty canon, seven miles from San José. The road to the springs is finely macadamized, and is the fashionable drive of the city. It is at San José that we leave the railroad to visit the Lick Observatory, on Mt. Hamilton, twenty-six miles away. Hundreds of people throng to the Observatory every Saturday, on which day visitors are permitted to look through the greatest telescope in the world; and the use of the various instruments is explained by the courteous astronomers.

THE SANTA CRUZ MOUNTAINS.

IN the Santa Cruz Mountains we find some remarkably enticing scenery. It is the famed "Shasta Route" on a small scale, lacking the superb grandeur of that scenery but giving in its place some of the daintiest expressions of beauty that nature ever yields to her eager worshippers. The San Lorenzo River, shaded by great redwood trees, winds along, now peacefully, and then in turbulent disorder; and near it are the Big Trees. The more famous groves of the *sequoia gigantea* are those of Calaveras and Mariposa; and next to these come the Big Trees of the Santa Cruz Mountains. The spot in which they stand is surpassingly beautiful. One of these giants is shown, in the hollow trunk of which lived a large family in early days. Fremont's cabin is near. These are favorite picnic grounds; and the train always stops here for a considerable length of time. Throughout the whole of this mountain trip there are romantic spots which invite to rest. Beautiful streams of the purest water abound; and the waters are favorite resorts for the most expert fishermen of the State. Thousands of those whom an active city life has prepared to enjoy the luxuries which these mountains afford flock hither every summer, and hundreds of tents dot the mountain slopes and shady ravines. In these mountains is the world's greatest quicksilver mine, at New Almaden, easily reached by rail.

THE BAY OF MONTEREY.

THE watering places on the Bay of Monterey annually have an enormous aggregate attendance of pleasure-seekers. The shore is sheltered from the high summer winds and fogs which occasionally invade other parts of the Pacific Coast; and the climate of both winter and summer is indescribably delicious. The absence of harmful frosts renders possible a luxuriance of outdoor flower-bloom unequalled in any other country in the world.

A branch of the Coast Division leaves the main line at Gilroy, and upon arriving at Pajaro, divides, one branch running along the northern side of the bay to Santa Cruz, and the other skirting the southern arm, passing the Hotel del Monte, Monterey and Pacific Grove. Santa Cruz is a beautiful city, with a long sand beach, and during the summer is crowded with a population drawn largely from San Francisco and the interior cities of the State. This is true also of Seabright, Capitola, Soquel, Aptos and other favorite summer resorts on the northern arm of the bay. Another way of reaching Santa Cruz is by the Santa Cruz Division of the Southern Pacific Company. It is advisable for us to visit the Hotel del Monte by way of the Coast Division, then follow the contour of the bay around to Santa Cruz, and return to San Francisco over the Santa Cruz Division. This gives one of the most charming, picturesque and varied rides of about two hundred and fifty miles that may be found in the entire country. On the line of the Coast Division we pass through a level country filled with orchards, vineyards and grain-fields, while on either hand is a range of mountains in the distance. On the Santa Cruz Division the scene is changed. At Santa Cruz the road plunges at once into the heart of the Santa Cruz Mountains, and after traversing them for thirty-five miles, winding through gorges and gulches, and here and there following the tortuous course of a beautiful mountain stream, it emerges into the Santa Clara Valley at Los Gatos. Near this place, at Saratoga, are the Pacific Congress Springs, situated in one of the most charming canons in California. There are a delightful hotel and other accommodations. The railroad runs northward from Los Gatos through pretty villages and miles of superb orchards and vineyards, passes through San José and Santa Clara, runs by the immense insane asylum at Agnews, strikes the Bay of San Francisco at Alviso, and skirts that wonderful sheet of water on the eastern side, passing through several delightful towns, and terminating at Alameda, on the eastern side of the bay, opposite San Francisco. At Alameda there are famous baths which San Franciscans liberally patronize; and the city is exceedingly attractive. Large ferry-boats transport passengers across the bay to San Francisco; and to a visiting stranger this is one of the most delightful sections of the tour.

THE HOTEL DEL MONTE.

THE southern end of the Bay of Monterey has an attraction of more than natural beauty—the Hotel del Monte, known everywhere as the “Queen of American Watering Places.” It is on the railroad and a mile from the charming old town of Monterey. The hotel is a splendid structure of modern Gothic design, and is situated in the most striking and handsome forest on the continent. This grove is composed of gigantic liveoaks and towering pines, and as the trees of both species are unusually large and present the more striking peculiarities of their kind on the most stupendous scale, they present a picture of unique effectiveness. The contrast between the oaks, sprawling, low and wide-spreading, and the pines interspersed among them, two or three times as tall, and straight and symmetrical, is exceedingly striking. In the heart of this great natural park is a flower-garden of one hundred and twenty-six acres. Apart from the vast expenditure of labor and money made on this garden, the natural conditions for floriculture which exist here are not equaled elsewhere in the civilized world. These causes make this garden the finest exhibition of skill and beauty in floriculture that exist; for nothing in Europe, where the culture of flowers is carried to so high an art, can approach it in design, management and splendor of color effect. In the Grounds there are the Laguna del Rey, whose glittering waters cover fifteen acres of ground, and from the center of which rises a fine thin fountain, and upon whose surface boating is a pleasant pastime; a curious maze; numerous tennis grounds, paved with asphaltum; alluring walks and drives without a particle of dust or mud; and numerous swings, settees, and a hundred other things. The hotel itself is a noble structure. It has broad verandas and contains five hundred rooms. The furnishings throughout are the finest that could be procured, and were manufactured especially for this hotel. In summer this

superb resort is visited principally by Californians, and visitors from the Southern States and Mexico, who wish to escape their hot summers; but in winter it is filled with visitors who come to escape the fearful weather of the Eastern States and bask in the splendid sunshine of Monterey. It might be inferred from this incomplete description that the charges at the Hotel del Monte are proportioned to the magnificence of the entertainment provided. Such, however, is not the case. On the contrary, so much higher are the charges at the fashionable watering places of the Southern States that one may visit the Hotel del Monte from the East and save money despite the far greater distance traveled.

THE HOTEL DEL MONTE.

The hotel is protected from the Pacific winds, not only by its embowering forest, but also by a high tree-grown ridge of sand intervening between it and the ocean. On the ocean side of this ridge is one of the finest sand-beaches in the world. It stretches for miles from Monterey around the bay toward its northern arm, and this beach is a famous resort for surf-bathers. For those, however, who prefer luxurious ease to the wilder sport of a plunge into the surf, there has been provided the great bathing pavilion of the Hotel del Monte. It is on the beach, a short distance from the hotel, and is one of the finest bathing establishments in the world. Four large swimming tanks, filled daily with sea water, brought to different fixed temperatures, constitute the central idea, but there are also luxurious baths of various kinds in private rooms.

MONTEREY AND ITS VICINITY.

MONTEREY, a mile distant from the Hotel del Monte, although not strictly a resort, is so charming and interesting that we cannot afford to pass it unnoticed. It is the oldest town in the State, and many of its ancient adobe houses, built more than a century ago, are still standing, some in fine preservation and others in picturesque ruins.

Pacific Grove, three miles beyond Monterey, is a famous resort, particularly in summer. It nestles cozily in a great pine grove, is built on ground which rises gently from the bay to the summit of the peninsula, and is the ideal resting-place for those who, caring nothing for the greater elegance of the Hotel del Monte, want to dream away a month of delicious repose. Bathing, moss-gathering, and strolling along the rocky shore are favorite pastimes. El Carmelo, the modest sister of the Hotel, such as the Chautauqua Assembly and others. A superb assembly hall is provided for this purpose.

One of the most interesting of the attractions hereabout is the famous Eighteen-mile Drive, a splendid macadamized highway, starting from the Hotel del Monte,

SCENES AT MONTEREY.

sum-del Monte, has an open door and delightful entertainment—or cottages may be had.

People of the more cultured sort, apart from those who pursue the lighter forms of fashionable pleasure, come hither by thousands; it is the resting-place of artists, teachers, musicians, literary people, and brain-workers in general. As a consequence there are held here during the summer a large number of important con-

SANTA CRUZ.

SANTA MONICA.

passing through Monterey, crossing over the neck of the peninsula to Carmel Bay (passing the famous old Carmel Mission, not far away), and thence skirting the entire peninsula, passing, on the way, the curious, gnarled cypress trees, which are peculiar to this little corner of the world; some charming beaches, which yield marvelous mosses and pebbles; the seal rock, upon which thousands of seals scramble and bark; the great reservoir, which supplies Pacific Grove and the Hotel del Monte with water; Fremont's old fort, and then Monterey again.

While in this part of the State we may visit the Gilroy Hot Springs, reached by stage from Gilroy. This is a famous resort for invalids and pleasure-seekers. The hot mineral waters possess exceptional healing powers, and are useful both for drinking and bathing. The springs are beautifully situated in the Coast Range; and the hunting and fishing thereabout are an irresistible temptation to those who enjoy that kind of sport. The Madrone Mineral Springs, six miles north of the Gilroy Hot Springs, are also very popular. The Tassajara Springs, in Monterey county, are largely visited. Game and fish abound in all of this country bordering on the Bay of Monterey.

SANTA YSABEL.

The Coast Division of the Southern Pacific continues its course southeastwardly through Monterey county, and terminates in San Luis Obispo county, traversing the rich, broad valley of the Salinas River. We shall find rare beauties all the way; but our first objective point is the Paraiso Springs, seven miles by stage from Soledad. These yield hot soda and sulphur waters, and are very popular. Pursuing the journey on the Coast Division, we arrive at the Paso de Robles Hot and Cold Sulphur Springs, in the northern extremity of San Luis Obispo county. Thousands of remarkable cures have been effected by the use of the waters which these noble springs yield. Not far from Paso Robles are the curious Santa Ysabel Springs, which lately have come into prominence. They yield hot sulphur water. In pre-historic times this must have been a great health resort, as the ruins of ancient dams are visible. Within the last few years the place has been improved with gardens and drives, and by the construction of an artificial lake of the warm spring water, where the visitor can indulge in a most enervating swim.

YOSEMITE AND THE BIG TREES.

OF course the crowning glory of California's natural attractions is the Yosemite Valley; and no real visit to the State can be made without seeing this marvelous creation. As no other natural wonder in the world has been so often and ably described as this, we shall do hardly more than mention it. To reach it, we cross the bay from San Francisco to Oakland, and there take the Southern Pacific Company's train by way of Martinez and Lathrop. Here we enter the great San Joaquin Valley, the southern end of the vast interior basin, of which the Sacramento Valley is the northern end. On the right, toward the west, lies the Coast Range, low and dark, and on the east, the towering Sierra Nevadas, whose giant peaks are forever covered with

THE YOSEMITE VALLEY.

snow. It is into the heart of these snow-clad summits (though below the line of perpetual snow) that we must penetrate to find the Yosemite Valley. We leave the main line at Berenda, one hundred and seventy-eight miles from San Francisco, and take a branch railroad, called the Yosemite Division, which runs eastwardly into the Sierra foothills to Raymond, twenty-one miles from Berenda. Here we take the stage for the Mariposa Big Trees and Yosemite. The ride is superb; for as the road, with thousands of turnings and twistings, rapidly climbs the Sierra, it brings into view a series of scenic wonders and beauties which only these extraordinary mountains disclose.

The Mariposa Grove of Big Trees is on the way to Yosemite; and the visitor to the valley cannot afford to let these monarchs of the forest pass. The Rev. T. De Witt Talmage says of them: "Who that has seen them can think of them without having his blood tingle? Trees are now standing there that were old when Christ lived. These monarchs of foliage reigned before Cæsar or Alexander; and the next thousand years will not shatter their scepter. They are the masts of the continent; their canvas spreads on the winds, while the old ship bears on its way through the ages. Their size, of which

travelers speak, does not affect me so much as their longevity. Though so old now, the branches of some of them will crackle in the last conflagration of the planet."

We find ourselves at last on Inspiration Point, gazing down upon the incredible wonders of the Yosemite Valley,—a long, irregular chasm in the heart of the mountains. Stupendous walls of granite in grotesque and suggestive forms inclose the valley; and far down, a beautiful, sparkling river winds gracefully through the floor of the valley. The snows of the Sierra, slowly melting, collect into rivers, and these plunge head-

long into the valley over the towering ledge of the granite wall. "That valley of the Yosemite," says Dr. Talmage, "is eight miles long, a half mile wide and three thousand feet deep. It seems as if it had been the meaning of Omnipotence to crowd into as small a space as possible some of the most stupendous scenery of the world. Some of the cliffs you do not stop to measure by feet, for they are literally a mile high. Steep, so that foot of man or beast never scaled them, they stand in everlasting defiance. If Jehovah has a throne on earth, these are its white pillars. Standing down in the immense chasm of this valley, you look up and wonder at Cader are Yosemite Falls, dropping two thousand six hundred and thirty-four feet—sixteen times greater descent than that of Niagara. These waters are dashed to death on the rocks, so that the white spirit of the slain waters, ascending in a robe of mist, seeks heaven. Yonder are Nevada Falls, plunging seven hundred feet, the water in arrows, the water in rockets, the water in pearls, the water in amethysts, the water in diamonds. That cascade flings down the rocks enough jewels to array all the earth in beauty; and rushes on until it drops into a very hell of waters, the smoke of their torment ascending forever and ever."

THE BIG TREES.

thedral Rock, vast, gloomy minister, built for the silent worship of the mountains. Yonder is Sentinel Rock—three thousand two hundred and seventy feet high—bold, solitary, standing guard among the ages, its top seldom touched, until a bride one Fourth of July mounted it, and planted the national standard, and the people down in the valley looked up and saw the mountain turbaned with the Stars and Stripes. Yonder are the Three Brothers, four thousand feet high, Clouds' Rest, North and South Domes, and heights ne'er captured save by the bayonets of the thunder-storm. The Bridal Veil Fall, so thin that you can see the face of the mountain behind; yon-

der are Yosemite Falls, dropping two thousand six hundred and thirty-four feet—sixteen times greater descent than that of Niagara. These waters are dashed to death on the rocks, so that the white spirit of the slain waters, ascending in a robe of mist, seeks heaven. Yonder are Nevada Falls, plunging seven hundred feet, the water in arrows, the water in rockets, the water in pearls, the water in amethysts, the water in diamonds. That cascade flings down the rocks enough jewels to array all the earth in beauty; and rushes on until it drops into a very hell of waters, the smoke of their torment ascending forever and ever."

OTHER SIERRA WONDERS.

OTHER wonders abound in the Sierra. The Hetch-Hetchy Valley, on the Tuolumne River, sixteen miles in an air-line from Yosemite, is almost as marvelous as its better known sister. Its general character is the same, but it is smaller. Towering domes, stupendous cliffs, and lofty waterfalls exist here as at Yosemite; and we shall be well repaid for a visit to this enchanted spot. It is hardly so easy of access as Yosemite, and is not so much visited; but for all that it is one of the wonders of California. The Calaveras Grove of Big Trees likewise demands our attention. It is reached by stage from Milton, which connects with San Francisco by rail. While in the vicinity, we may pay a visit to the Wonderful Mammoth Cave of Calaveras, fourteen miles distant from the Big Trees, or seven miles from Murphy's. The Crystal Palace Cave, which has a hotel at its mouth, is not far from here. It is southeast of Murphy's, just across the Stanislaus River, and five miles north of Columbia, a stage station. Two natural bridges in this vicinity, one of them a remarkable formation, deserve a visit. A comparatively little known scenic marvel of the Sierra is the King's River canon. We may hire horses and reach it from either Fresno or Visalia. Here the scenery is wilder, grander, and more picturesque than at Yosemite; but the valley, though very long, is little more than a gorge, the scenery lacks the finer finishing touches of Yosemite, and wonderful waterfalls are absent. The towering needles, domes, and cliffs of granite pierce the sky thousands of feet above the floor of the valley, conveying an impression of the wildest and fiercest desolation. The finest fishing in this part of the State is found here; and those who are hardy enough to tempt fate in the form of a grizzly, may find abundant opportunity. The Kern River canon, farther south, but also opening into the great interior basin of the State, is probably equally as wonderful as the King's River canon, but comparatively little known.

BEAUTIES OF THE SOUTH.

EVERYBODY has read of Southern California; and little can be said of interest in addition to the volumes which have been devoted to descriptions of these incomparable charms. Since Santa Barbara has been made accessible by rail, we may make it a flying visit. Hard and unresponsive indeed must be the nature which fails to be touched and quickened by the infinite charms and graces of this favored spot. The climate is a perpetual spring; and tropical fruits ripen throughout the year. The city rises from a pleasant beach to the slopes of the Santa Ynez Mountains, and faces the south. The shore line runs east and west; the mountains shelter the town from the trade-winds. There are superb hotels here, including the Arlington, San Marcos, Commercial, and others. To the north tower of the castellated crags of Santa Ynez, to the east and west stretch long vistas of beach and valleys, and to the south is the grand old ocean, with the beautiful islands of San Miguel, Santa Rosa, Santa Cruz, and Anacapa rising from its depths. Four miles from Santa Barbara is the charming resort, Montecito,

LONG BEACH.

with its springs. Back of Santa Barbara is the Ojai Valley, noted for its health-giving climate, and also for the Ojai Valley Springs at Nordhoff. This is a fine health resort.

Upon going to Los Angeles we find ourselves in the center of a delightful country. The city itself is beautiful; but a knowledge of its charms is common property. It is one of the most popular places of resort in California for Eastern people. Back of it rise the San Gabriel Mountains, from whose western slope roll thousands of acres of orchards, vineyards, and orange groves toward the sea. At the base of these mountains sits the beautiful town of Pasadena, which has more wealth and refinement in proportion to its population than can be found elsewhere in the State. On the slope is the famous Sierra Madre Villa, a charming and popular resort, with a fine hotel; and near Pasadena is the superb Hotel Raymond. On the coast, eighteen miles from Los Angeles, situated on noble bluffs overlooking the sea, is Santa Monica, a famous seaside resort, with a fine hotel, and surf-bathing all the year round. A railroad running directly south from Los Angeles brings us to Long Beach, on the coast,—a popular resort for literary and other cultured classes, and the meeting-place of the Chautauqua and other societies.

In San Bernardino county we may leave the Southern Pacific at Colton and make a short run to Riverside, the fame of whose oranges is known all over the world. A charming country is this, and one which, as travelers, we cannot afford to miss. The

PALM VALLEY.

delights of San Diego, with its splendid climate, and of the Hotel del Coronado, that splendid structure with noble grounds on the Coronado Beach, are well known to all of us. (□) A desire to see the strange and peculiar beauties of Palm Valley tempts us to follow the Southern Pacific into San Diego county. Leaving the road at Seven Palms, we find near by a singular gorge in the San Jacinto Mountains. The tall granite mountains rise abruptly on either hand; and the floor of the valley, for miles into the mountains, is covered with native palms of a height ranging from seventy-five to a hundred feet. A rich tropical undergrowth completes the picture. There are hundreds of these stately palms; and annually they are loaded with palatable fruit of the date variety. In the midst of this valley is a large hot mineral spring inclosed in a natural basin one hundred and fifty feet in diameter. The water is pushed up in a great column; and wonderful cures for rheumatism, sciatica and kindred afflictions have been effected by bathing in this pool.

After leaving Seven Palms we travel a few miles southeastwardly on the railroad and then encounter the singular experience of dropping below the level of the sea. Indio is twenty feet below, and a short distance beyond we touch the lowest point, two hundred and sixty feet below, at Fink's. This is an arid country, there being no natural vegetation; but where water is artificially applied, there appears to be no limit to the fecundity of the soil. Indio is rapidly coming into notice as a place where astonishing cures have been made by the dry, pure air. For those suffering with pulmonary affections this undoubtedly is an earthly paradise. Returning, we must stop at Colton and visit a celebrated resort, the Arrow Head Springs, near San Bernardino, which are annually visited by thousands of health-seekers.

Unless we be controlled by a desire to visit the more fashionable and popular resorts, where the highest and finest luxuries of our civilization are provided at a reasonable charge, we may find with little trouble quaint, charming, out-of-the-way places without number, where gentle Nature paints her pictures and sings her songs forever. Wonders abound. Some have a home and must be sought; others abide everywhere, and constitute the life and essence of almost universal health, happiness, and prosperity. Not to see California and its wonders; not to constitute a part of it; not to be a child of this

infinitely gentle mother; not to be here and enjoy these bounties and blessings, to the end of securing greater prosperity and happiness,—is to be denied a priceless privilege; for in the possession of these natural charms California stands wholly alone in the world. Nature flings open our doors, and with an alluring smile invites us to leave our houses and go to the woods, the mountains, the fields, the seashore, showing in all her moods of fretfulness or repose that though her duties are as boundless as the universe, her heart and home are in California.

HOW TO REACH CALIFORNIA.

PEOPLE of delicate health, invalids, convalescents, tourists, and pleasure-seekers residing in northern latitudes often turn their thoughts, fancies, and desires to balmy and more congenial climes. This naturally induces the query, "Where and how shall we go?" The question is easily answered—to California. The beauties and boundless natural resources of California, the "Cornucopia State," have been graphically memorialized in verse and prose by our eminent poets and authors. Its rapidly growing popularity as a sanitarium and tourist resort is a convincing evidence that the beneficial and climatic influences of the Pacific Coast are becoming universally conceded. Having discovered the desired haven of health, rest, and pleasure, the important question of transportation presents itself. In deciding upon a route via which to travel to the Pacific Coast, one should be selected which possesses the advantages and comforts which tourists so much desire. The "Sunset Route" of the Southern Pacific Company affords to the traveler incomparable climate, balmy atmosphere, beautiful, historic, and romantic scenery, and every modern convenience, comfort, and luxury. This great line reaches from New Orleans to San Francisco.

The "Central Route," or as it is more commonly called, "The Pioneer Line," reaches California by way of Salt Lake City and Ogden, Utah, and passes through the Grand Sierra Nevada Mountains. The "Shasta Route," or "Great Scenic Line," of the Pacific Coast, reaches California by way of Portland.

In selecting either of the above-named routes, tourists and pleasure-seekers may be assured of courteous attention, and every facility to make the trip pleasant and enjoyable.
