R. L. POLK & CO.'S
ALPENA CITY DIRECTORY.

1897-98.

MISCELLANEOUS DEPARTMENT.

STREETS AND AVENUES.

EXPLANATION.

An order was passed by the City Council authorizing the numbering of all streets of the city, and designating Chisholm street a dividing line for all streets crossing it, or running North and South, and Second street for all streets running East and West. The system adopted is the same as used in Philadelphia and other large cities, known as the "decimal" system—one hundred numbers being allowed for each block. In cases where vacant lots, etc., occur, the usual numbers have been allotted them. On referring to the following guide, it will be noticed that the names of all streets and avenues follow each other in strictly alphabetical order without regard to location:

CAUTION.

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens and by that means collecting moneys in advance. Before signing an order, see that it has the name of R. L. POLK & CO. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertisements or subscriptions.
