

College: an institution offering instruction usually in a professional, vocational, or technical field. College is also a life learning experience.

Many students no longer live at home, some for the first time, and venture off to find their own living space. Some choose houses or apartments around the area. Others stay at the College Park Apartments. Sometimes the greatest learning experience of college is living away from home. Your roommates can often become your best friends or the people who help you study. Or maybe you despise your roommates and have to beg them for their rent money.

Either way lessons are learned. Not having parents around is a good thing only sometimes. But when rent's due, bills need to be paid, the house is a mess, and there's no dinner on the table, you may wish they were around. Regardless, life-long friends will be made and memories will last a life time.

College: not only an institution of higher learning, but a chance to spread your wings.
