

STUDENT SENATE ELECTIONS COMPLETED

By Beth Anderson and Pat Bedore

Yes, it did take an awfully long time, but the 1980-81 Student Senate of A.C.C. is finally completed.

Student Senate elections were first held on Friday, September 12 on the ACC campus, and the new electees -- along with the sole holdover from last year -- were formally recognized and proclaimed as members of the 1980-81 Student Senate of ACC on Wednesday September 17.

When returning chairperson Todd Bordewyk, who was elected to his position by last year's Student Senate, called the September meeting to order, the following people were formally received as members of the 1980-81 Student Senate.

Elected to the position of vice-chairperson was Sarah Dowling, who received a total of 61 votes from ACC students. Challenger Beth Anderson made it a close race for Sarah, though, as she received a total of 44 votes in her quest for that position.

In the race for the three remaining representative positions available for sophomore candidates, Diana Flakes came out in first place, getting the nod from 56 voters. Sal Frontiero came in sec-

ond, capturing a rather respectable total of 39 votes. Vice-chairperson candidate Anderson was offered the third sophomore rep. position on the basis of her 44 votes for vice-chairperson, but she declined for personal reasons.

When Anderson declined, Dowling moved that Diane Dargis be appointed to fill the remaining sophomore representative spot, and Bordewyk, Flakes, and Frontiero concurred. So Dargis was formally appointed, and there was a total

of five members on the 1980-81 Student Senate -- just five out of the eight required under the current rules which govern the Student Senate at ACC. The other three spots are reserved for freshmen representatives, but none of those who desired to become freshmen reps. had turned in their petitions on time, and were therefore technically ineligible to be elected.

This presented a problem for the five sophomores, and so they had to determine how to get three

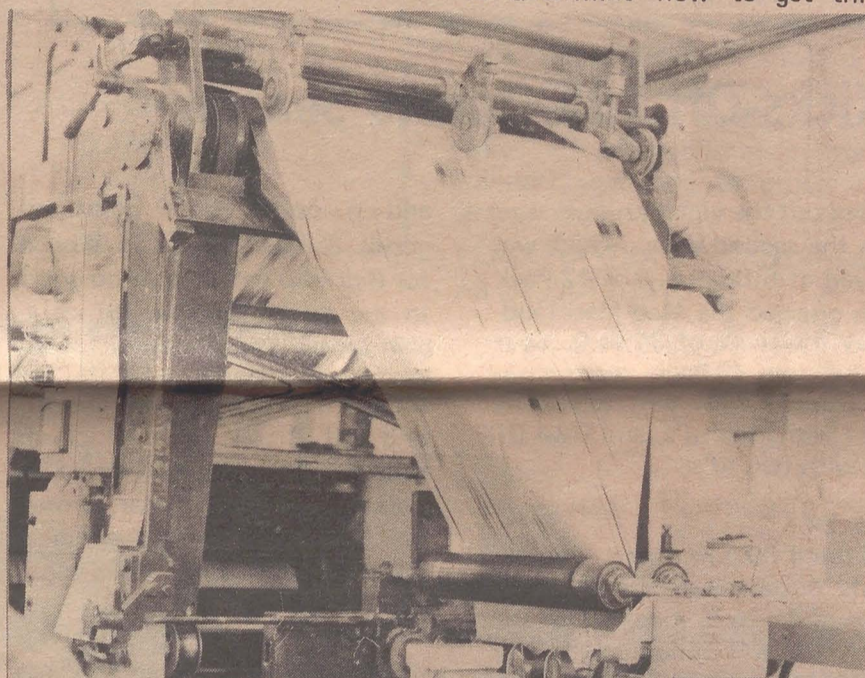

freshmen reps on the Senate as soon as possible. Dowling noted that since two freshmen among those turning in their petitions late -- Stuart Grenkowicz and Tom Skiba -- did have a total of 30 signatures each on their petitions, they must have some support among freshmen students. She moved that these two be appointed as freshmen representatives, and the other Senate members agreed.

Missing Your I.D. Card?

Do you happen to be wondering about what has happened to your student identification card for the fall semester of 1980? Well wonder no more, for **Campus Update** has been told that each and every ACC student should be able to receive their I.D. cards within the next couple of weeks.

That statement was made by Mike Hood of the ACC records office, who also said that the reason we do not already have them is because the college ran into a few snags while making the transition to the new computerized system of registering, which was used for the first time this year. Therefore, plans were made to print and distribute all I.D. cards at a later date. (Hood did mention, however, that anyone who needs an I.D. card may receive a temporary one simply by request from the records office.)

CAMPUS UPDATE finally hits the press!!! Due to rather severe equipment failure, **Campus Update** has been forced to print this first issue of our paper two weeks later than originally planned. If we do not experience further failure with our equipment, we will be printing and distributing our second issue on Wednesday, October 15. Thanks for waiting for us... **THE STAFF**

Read Your Splinters!

Based on a desire to conserve our limited resources, the **Campus Update** will not on a regular basis be reprinting or otherwise duplicating information which can be found in the Splinter, and/or any other materials which the college itself prints and distributes from time to time. This includes any information posted on the many bulletin boards scattered throughout the ACC campus.

While we will occasionally repeat some of the things which the college prints, we will also attempt to keep this sort of thing from happening at all unless we feel that the duplication would serve some useful purpose.

So for any ACC student who wishes to remain informed on everything that is happening around our campus, may we suggest that you take a few minutes out of your busy schedule, find yourself a nice, quiet, secluded spot, and most important of all--read your Splinters!

"IT WORKS FOR ALL OF US"

By Pat Bedore

If someone whom you knew really well was in a desperate situation -- and you were in a position to lend a helping hand -- wouldn't you consider helping them out? Of course you would, and that is one of the reasons why the Alpena County United Way organization is asking for your help in order to meet the goals of the 1980-81 United Way campaign.

You see, when you donate money to the United Way, there is a very good chance that you actually are helping someone whom you know very well -- perhaps someone very close to where you live. The United Way helps to support 12 local agencies in their efforts to serve Alpena and the surrounding communities, along

with 24 state-wide charities that they support by giving money to the United Way of Michigan.

Locally the United Way supports groups like the Alpena County Chapter of the American Red Cross, the Big Brothers/Big Sisters of Alpena, and the Senior Citizens Council of Alpena. Many

of these agencies simply could not provide the services that they do if it were not for the funding which the United Way provides, which in the long run must come from people like you.

The people behind the 1980-81 campaign started on September 23, and will work up until October 21, at which time the campaign will end. They are seeking to raise a rather large amount of

money -- 244,976 -- which represents a 15½% increase over the entire amount of money raised during last year's campaign.

Of course, it is not a requirement that you know someone in need in order to make a donation to the United Way. In fact, I believe that most of the people who do contribute to groups like United Way do so not because they know someone personally who may be helped by it, but simply because they know that someone out there is in need -- and they are in a position to help.

What about you -- will you give the United Way? ALPENA COUNTY UNITED WAY, BOX 282, ALPENA, MI., 49707 -- 354-2221. Thank you.
