(continued from page 1)

and faculty that were involved in the day's preparations.

One of the big attention getters of the day was the drawing and ceramics exhibit. Several of the class' students were on hand to

demonstrate their skills as passers by stopped to view the art creations in progress.

Another attention getter was the exhibit set-up by the electronics technical and electrical apprentice club as they displayed a wide variety of electronic and electrical equipment. One of their features was a computer operated electronic arm which is capable of picking up, stacking and releasing objects, just to name a few of its capabilities.

A variety of computers were on display with several of the different programs demonstrating how the computer is used in their specific area.

The nursing program had a well developed exhibit set-up where blood counts and blood pressures were being measured free to any one wishing to be tested.

Several smaller exhibits were arranged by members of the following clubs: criminal justice, concrete technology and the lumberjack. The exhibits displayed the clubs various offerings and contributions to ACC and the community.

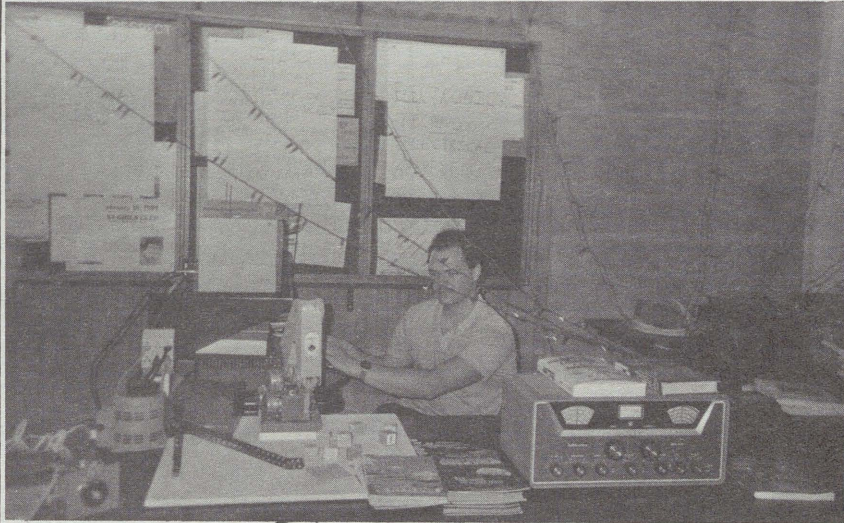

The volunteer center had a very unique exhibit set-up where the viewers had a chance to explore their volunteering interests and match them with various fields that have a related interest.

The upward bound, special needs and talent search programs had a combined booth displaying the many opportunities available through the programs.

The center of economic human resource development and admissions department were also present showing off what the center and admissions has to offer.

All the booths were offering free information on their specific field, along with general information on the college. ACC pencils, bookmarks and folders were offered free to the public.

All the activities surrounding the day at the mall were to generate public awareness. The day turned out to be very successful in achieving this goal.

Volunteer Of The Week

ACC Student Senate Secretary, John Pines, was named WHSB volunteer of the week for the week of February 13.

Pines was honored for chairing many of the Student Activity Board events and also for the changes that he has initiated here at ACC.

Pines' future plans include majoring in journalism at Western Michigan University and also being involved with the Student Activity Board there.

Along with being the secretary of the Senate, he is also the secretary of the Student Activity Board and is a member of The Lumberjack staff.

ACC in Brief

Poor Attendance Causes Discontinued Event

The Business Club held its Meet the Pro's Night on Tuesday, February 7. Speakers from local media were present to share information about their jobs and the relation of media and businesses in this area. Judy Tibbetts, advisor, stated it was an interesting evening and presentation, but would probably be the last one held due to poor attendance.

A meeting will be held sometime in March to finalize plans for the Chicago trip in April.

View The Night Visions AT The Sky Planetarium

See the winter night sky without standing in the cold at the Jesse Besser Museum planetarium on March 5 and 12. "Winter Night Sky" is planned for sky watchers of all ages. The winter sky contains the brightest and most colorful stars of any season. The program views stars and constellations of winter and other deep sky objects currently visible. The program is brief so a second short program will be shown, "Historical Astronomy"

The first combined program starts at 2pm, the second combined presentation at 4pm. This presentation will be given by visiting Tom Gougeon from CMU.

Phone and Data Processing To Be Upgraded

Due to the deteriorating communication systems, the college has consulted the Network Technologies Corporation to review the needs of the college and develop the required specifications that should satisfy the current needs. At the February Board of Trustees meeting resolutions were passed authorizing the college administration to enter an agreement with GTE and UNISYS to complete the updating and upgrading.

Zoning Request Endorsed

The college has endorsed a change in the current zoning classifications of properties in and adjacent to the college. The change within the 340 acre area will be classified OS-1 (light office) remain within the activities performed within this location.

Delysle Henry in Who's Who in American Law

Delysle Henry, instructor of law and government at ACC, will appear in the Marquis 6th edition of Who's Who in American Law, 1989-1990. Areas of legal interest listed are legal education, social security law and federal civil practice. Henry has been an instructor of law and government at ACC since the early 70's. He was admitted to practice by the State Bar in 1971, and later to the U.S. District Court and U.S. Court of Appeals. Since 1980, Henry has concentrated on social security law. Law is a family endeavor, as his only brother and his only son, Reggie, Counsel to the Workmens Compensation Commission, as a de facto administrative law judge, in Charleston, WV.

Students Offered Special Skiing Rates

At Mt. Mariah every Wed. from 4-10 pm. The cost is \$5 for lift and \$5 for equipment rental. This is open to all ACC students, staff, and faculty.
