6 ..... Wurtsmith Class Schedule

7 ..... New Training Center

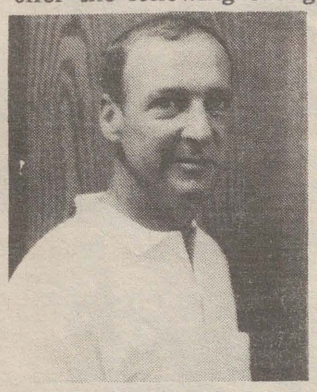
Registration

Alpena: August 23-24

Wurtsmith: August 22 - September 1

ACC a great place for opportunity, success

There are a lot of good reasons why Alpena Community College is a great place to start ... or start again! Several current students and recent graduates offer the following thoughts.



Joe Senchuck

Looking back to three years ago, Joe Senchuck now says he had become "dormant" until the closing of the plant where he had worked for a number of years forced him to grow.

"I never realized my potential until I was forced to go back to school. Once you get the books open, it's a whole new world," Joe explains. Based on his own experience, he has some advice for those who may hesitate at the thought of attending classes or pursuing a new career.

"Don't fear the course work or titles; don't fear the equipment. They (instructors) talk and walk you through it until it becomes second nature."

Joe hadn't been inside a classroom since graduating from high school in 1963 and says he's grateful for the advice given by Dr. Curtis Davis, ACC's Dean of Academic Instruction and Student Services.

"He told me to 'lay a good, solid foundation.' I spent a year building the basework — English, algebra and some electives." He needed that base to be prepared for the two-year concrete technology associate degree program. Joe believes ACC is a great place for returning students like him to start again because the help needed to succeed is available.

ACC's concrete tech program may be the only one of its kind in the country and graduates can be found nationwide working in all phases of the industry. Right now, Joe's favoring research or management. He points out that although he has sacrificed materially, "...not a nickel has been wasted. I've developed a new career offering the security of a growing field."

When he graduates next year, Joe will carry with him highly marketable concrete credentials and a well-deserved sense of accomplishment.

Laura Gouin

For Laura Gouin, Alpena Community College was a great place to start college after high school graduation in 1988.

"I wasn't really sure what I was going into. I was interested in business and accounting; from taking classes, I find that I enjoy them." Coming to ACC helped her decide on a course of study and after one year, she is transferring to Michigan State University with the goal of becoming a certified public accountant.

She says ACC was a "middle step" between high school and university work and she recommends it to "anyone who isn't yet sure what career to pursue as well as anyone interested in a program offered here."

Ben Scheuner

Ben Scheuner is a 1986 high school graduate who also needed some time to chart his career course. He knew that he wanted "a job that pays well," and that means additional education.

"ACC is affordable. I didn't want to go to a four-year university not knowing what to do; you lose money changing programs," Ben says. He has attended ACC both as a part-time and full-time student and has been able to get some work experience that has "helped clarify the type of job I DON'T want!"

Visits to ACC's Career Planning and Placement Office (Besser Technical Center Room 100) were also helpful, he adds. The computerized career exploration programs identified areas of interest and he has targeted the world of business.

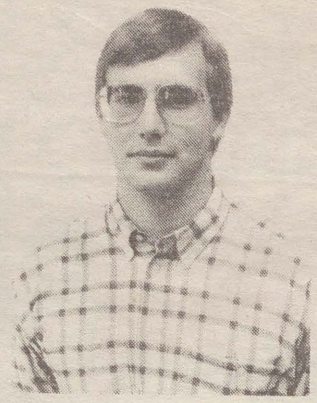
Ben will complete an associate degree in general studies and transfer the basic course work to Ferris State University. He'll study business management.

Alpena Community College students Joe Senchuk, Laura Gouin, Ben Scheuner and Diana Lombard are pictured on the cover as they enjoy a visit outside the Charles R. Donnelly Natural Resources Center. While all chose ACC for a variety of reasons (see related story, this page), Laura and Ben agree that it's a great place to start your college education after high school. For Joe and Diana, ACC is a great place where they were able to start again when they found themselves having to prepare for new careers.

Like thousands of Northeast Michigan residents, these students find programs and services meet their needs at ACC. You can, too!

Alpena Community College is a great place to start ... or start again!

Lance Abbert



Lance Abbert says he's well-qualified to talk about good reasons to attend ACC. The 1982 Alpena High School honors graduate tried a four-year school first and found it lacking.

"The biggest difference is in the attitude of instructors. Both care, but at four-year colleges, they can't reach out. Here, they're accessible. At the freshman and sophomore levels, four-year schools are in a process of weeding out students; at ACC, people want to help students succeed."

After working seven days a week for minimum wage and still not breaking even, Lance says he began to think about his future and looking for ways to improve his earning ability.

"It took me a while to wise up. Going to ACC was not about fun and games; it was to be able to make a living. I put a lot of effort into my classes here."

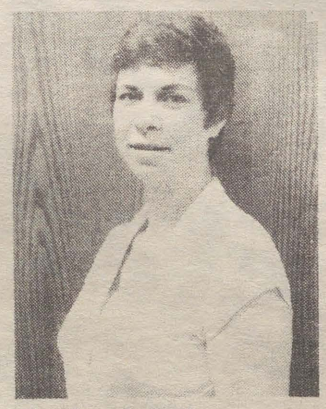
After earning an associate of arts degree in business management, cum laude, Lance stayed on for the pre-engineering program because he had found he really enjoyed math during his business courses.

"ACC provided a wide foundation on which to continue my education. Here I've taken business, engineering, math, computers, electronics — it's going to get me some place ... The opportunity is here for students to establish themselves and get started, to grow and to learn."

Lance completed a second associate degree in pre-engineering during spring semester and will pursue a bachelor's degree this fall at Michigan Technological University. He said that during admissions interviews, he found ACC's programs are "well-respected" at MTU.

After completing his studies, Lance intends to utilize his business and engineering background for a career in the aerospace industry.

Diana Lombard



When her husband died two years ago, Diana Lombard realized that she would have difficulty continuing the mental health-licensed foster care home they had operated together for nine years. And she had "always wanted to be a nurse."

Because of Alpena Community College and its nursing program, she'll be able to realize a dream and have a secure future, too. But starting again was challenging for the 1961 high school graduate.

"I came back not knowing a thing about college. I've attended full time the last two years to get the classes I didn't have in high school to fill the prerequisites for the nursing program."

She finished the final prerequisite during summer semester and begins the Level I practical nursing program when fall classes start August 28.

Her recommendation for those considering returning to school after a long absence: Give yourself time to become familiar with the college, its programs and services. Ease in with just a few classes to learn how to study and adjust to your life as a college student.

"I know nursing is a demanding career, but I also knew that I didn't want to start from scratch after my husband died." So she started again, picking up on a lifelong interest along with her experience in foster care and adding nursing education available at her local community college.

Interest, experience, education — that's a winning combination for students of all ages!

Julie Rouleau

Julie Rouleau, like many Alpena Community College students, was enrolled part time to work on career advancement while holding down a full-time job.

She spent a lot of lunch hours and numerous evenings at ACC between 1980 and 1988. "Summa cum laude" distinction rewarded the hard work by which she earned a perfect 4.0 grade average and an associate degree in math and data processing.

During those eight years, she took just two semesters off — one each for the births of her two children.

Julie's broadened education has already proven valuable. Instead of being left jobless when a merger sent her employer's main frame computer operations downstate, the one-time computer programmer successfully transferred into an accounting department position. She's such a natural math whiz that one of her ACC instructors has encouraged her to consider teaching.

Julie says she'll probably look into that option when her children are a little older.

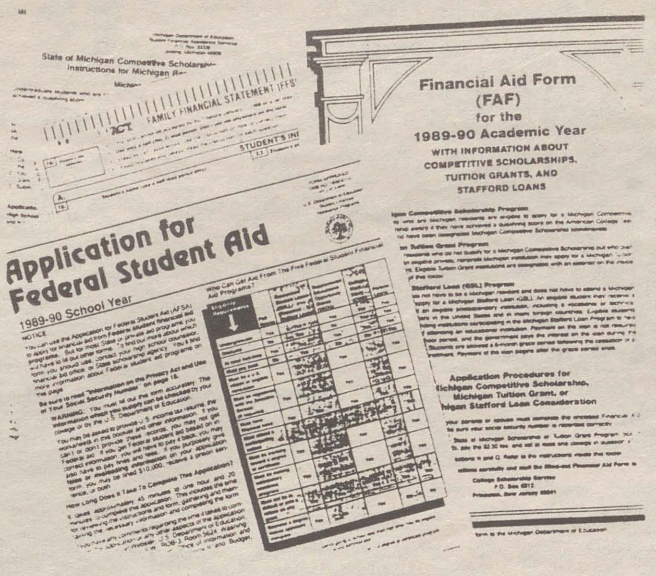
Q. & A.

Financial Aid



There are a number of state, federal (see list) and in some cases, private, programs or scholarships offering financial aid to students. The first thing you have to do, however, is submit the proper forms. If you have questions not answered here, contact either Max Lindsay (Ext. 200) or Aggie Ferguson (Ext. 229) at Alpena Community College (356-9021).

Q. Can I still get financial aid for the fall semester?

A. Yes, but act soon! The first step is to pick up the appropriate forms from Campus Services, Van Lare Hall 107. Financial Aid officer Max Lindsay says you'll need a Social Security number and your family's 1988 income tax return information to complete the forms. About four weeks after submitting the form to the address given, you'll receive a report. When you provide that information to Lindsay, he'll determine if you are eligible and for what amount.

Q. There's not much time if I want to start classes August 28. Can I get credit until the financial aid comes through?

A. Sorry, no. You must pay your tuition and fees in order to begin classes. You'll be reimbursed when the financial aid arrives.

Q. Are all financial aid programs based on need?

A. No. Some types of academic or general scholarships are based on merit alone. But you must indicate your interest in being considered on the financial aid section of your application for admission to ACC. (Most scholarships for fall are awarded earlier in the year, however.) If you are a veteran or serviceperson, their spouse, dependent or survivor, you may be eligible for educational benefits. There are a number of [illegible] should [illegible] tact ACC Veteran's Coordinator, Richard Counsellor, for more information (Van Lare Hall 101; 356-9021, Ext. 277).

Q. If I receive financial aid this year, do I have to apply again next year?

A. Yes. You must submit the appropriate forms each year in which you want to be considered for financial aid. In addition, there are "minimum academic progress" standards which must be met and "maximum time frame" requirements for completing your course of study. These are explained in the financial aid section of the current ACC Catalog. You can pick up a copy at Campus Services (Van Lare Hall 107).

Q. Can part-time students apply for financial aid?

A. Yes, some programs are available for those taking at [illegible] credit hours.

- Pell Grant
- College Work Study
- Perkins Loan
- Supplemental Educational Opportunity Grant
- Michigan Competitive Scholarship
- Michigan Stafford Loan
- Scholarships

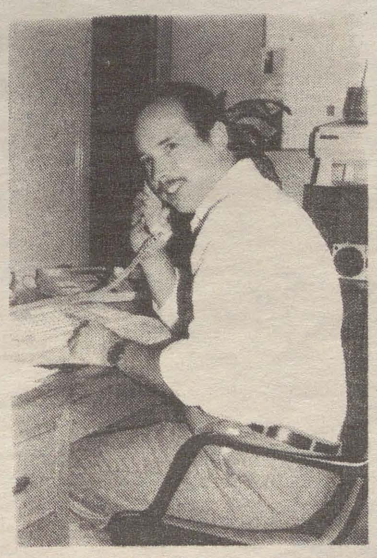
WANTED: 40 laid-off workers to receive free training

If you are laid off and interested in free, short-term training that can get you back to work, call Bill Hood, Job Development Specialist at Alpena Community College.

He's looking for 40 unemployed Northeast Michigan residents who can qualify for Michigan Job Opportunity Bank Scholarships (MJOBS). Training programs of 16 weeks or less are available in such areas as corrections, welding or ... perhaps some other occupational area in which a personally - tailored program can be arranged.

**Visit Room 100,
Besser Technical Center
at
Alpena Community College
for Job Development or
Career Planning and
Placement Services
Phone: 356-9021**

With an ACCent on jobs, Bill works within the college's Center for Economic and Human Resource Development. He encourages unemployed men and women to call him about this free training opportunity. Eligibility requirements are defined by the state program, and if you qualify, the entire cost of tuition, books and fees is covered.



**Bill Hood
Job Development Specialist
356-9021, Ext. 214**

Several options exist for learning a new, marketable skill, including traditional classroom and hands-on lab instruction, internships or Contracting with Business and Industry, which combine classroom and worksite experience.

Even if you find that you're ineligible for the MJOBS program, your contact with ACC may develop into another opportunity. If skills for a new line of work are needed, you can spend some time with the Career Planning and Placement Office staff to zero in on your area of interest and learn more about ACC's programs and services.

You can join those who have discovered that ACC is a great place to start again!

Here's how to get started

Going to college is as easy as 1, 2, 3!

Whether you're just out of high school or at "a later point in life," you'll find programs and services to meet your needs. Here's how:

1. APPLY — Admission applications are available at Campus Services, Van Lare Hall 107 (356-9021, Ext. 229) and at Wurtsmith AFB in the Education Building (739-1445). You must have a Social Security number. When your application is processed, an academic advisor will be assigned based on your area of interest. Your advisor will help you plan your course of study.

2. REGISTER — A $10 registration fee and payment of tuition is required when you sign up for classes. Registration for Fall classes is scheduled as follows:

ALPENA - Van Lare Hall

9 - 11:30 a.m.
August 23-24 ..... 1 - 4 p.m.
6 - 8 p.m.

Late Registration

(Instructor's permission required during the second week.)
August 28-29 ..... 9 a.m.-8 p.m.
August 30-September 8 ..... 9 a.m.-3:30 p.m.

WURTSMITH AFB EXTENSION CENTER
(Base Education Center, Building 228)

August 21 ..... **Active Military Only**
August 22-24 and 28-31 ..... 10 a.m.-Noon
1 - 6 p.m.
August 25, September 1 ..... 10 a.m.-Noon
1 - 4 p.m.

Late Registration

(Instructor's permission required during the second week.)
September 5-8, 11-13 ..... 9 a.m.-Noon
1 - 5 p.m.
September 14 ..... 9 a.m.-Noon
1 - 2 p.m.

Tuition

Tuition at Alpena Community College is based upon residence and is computed on contact hours (actual time spent in lecture, laboratory or recitation instruction).

Students who are residents of the Alpena Community College District (which has the same geographic boundaries as the Alpena Public Schools District) pay the in-district rate.

Cash, checks, VISA, Master Card, or money orders payable to ACC are accepted at Alpena. **At Wurtsmith, no cash is accepted.**

Rates are: In District ..... $33 per contact hour
Out of District ..... $49 per contact hour
Out of State ..... $75 per contact hour
(No student is charged for more than 21 contact hours per semester.)
In addition, students enrolled on campus are assessed an athletic fee of $2 per credit hour, up to a maximum of $30 each semester.

Placement Testing

All new ACC students who register for nine or more semester credits, as well as all new students taking a course in English or mathematics (even if taking less than nine credit hours), are required to take the ASSET skills test. (See related item on page 7.)

Orientation

If you've never attended ACC before - welcome! To assist first-time students with the registration process and academic advising, a general orientation session is scheduled:

**Monday, August 21, at the Alpena Civic Center
US-23 and Johnson Street
Placement testing will be from 8 to 11 a.m.
General information session will be
11 a.m.-Noon and 1:15-2:15 p.m.**

3. BEGIN! — Classes begin the week of August 28 in Alpena and the week of September 5 at Wurtsmith. You can purchase your textbooks beginning Monday, August 21, at the ACC Bookstore at Besser Technical Center.

Alpena Community College — Wurtsmith Center Calendar
FALL SEMESTER

August
- 21 ..... Active Military Only Registration
- 22-Sept. 1 ..... Registration
- 31 ..... On Base Book Sale 4-8 p.m.

September
- 5 ..... Classes Begin
- 5-8 ..... Late Registration
- 11-14 ..... Late Registration with instructor's permission

December
- 11 ..... Last Day of Classes

SPRING SEMESTER

January
- 1-12 ..... Registration
- 15 ..... Classes Begin
- 15-19 ..... Late Registration
- 22-26 ..... Late Registration with instructor's permission

April
- 20 ..... Last Day of Classes

This schedule is for planning purposes only. ACC reserves the right to add to, delete from, or alter as necessary.

Friendly ACC faces

Extension Center secretary Sue Geiersbach and director John McCormack are getting ready for fall semester registration. Of ACC's near-2,500 enrollment, over 600 are at Wurtsmith. About as many civilians as active military and dependents are enrolled. Certificate programs in office assistance or small business management can be completed in their entirety at Wurtsmith, as well as associate degree programs in accounting, administrative secretary, business data processing, business management, law enforcement, marketing, small business computing systems and small business management. For more information, call John or Sue at 739-1445.

Top-notch science lab

Colleen O'Shea Stemly is among the Wurtsmith Extension Center students who've enjoyed the benefits of ACC's top notch science laboratory on base. Housed in a portable unit, the lab has been upgraded over the past two years under the leadership of ACC's Math/Science Department Chairman Gary Sparks. Extension Center students can complete courses in biology, anatomy, physics and chemistry right at Wurtsmith. Extension Center Director John McCormack says the lab is "a big plus" for area students. Saginaw Valley State University, Central Michigan University and Oscoda Public Schools adult education classes make use of the excellent facility through a cooperative arrangement with ACC.

ACC to open new industrial training center

The training center and revised curriculums bring ACC's apprenticeship and machine tool technology programs into the 21st Century.

A state of the art Industrial Training Center opens August 28 when fall semester gets underway at Alpena Community College.

Facilities are located in remodeled areas of Besser Technical Center and the BTC Annex. The training center, along with completely revamped curriculums for electrical and millwright apprenticeship programs and machine tool technology, will bring those ACC offerings "into the 21st Century," says Charles Wiesen, Executive Director of ACC's Center for Economic and Human Resource Development.

A grant proposal written last year by Dr. Curt Davis, Dean of Academic Instruction and Student Services, was awarded some $185,000 from state competitive Job Training and Retraining Funds in December. Since then, he and a staff committee which includes instructors Ivan McLaren, Bill Yule, Chuck Scheuffler and Bob Eller, along with Wiesen and Building and Grounds Director Don Witt, have worked steadily for this month's opening.

The center includes a classroom re-designed to accommodate the needs of both the specific programs and their adult students. There is also a laboratory designed and equipped for hands-on learning and simulation of industrial applications.

The training units are portable and adaptable, which will allow updating to remain current with industry standards. Input from representatives of area companies helped determine the revised program and set up of the facility.

Electrical apprenticeship training involves industrial electronics and skills for such things as installation and maintenance of electrical distribution systems.

A millwright deals with such things as hydraulics, pneumatic equipment, power trains, belts, gears and chains. On the job, one might be responsible for installation and maintenance of those systems in an industrial plant setting.

Machine tool technology skills could be put to work with lathes, mills, grinders and computer numerical control (CNC) equipment. This field includes operators, installers, maintenance and repair positions.

Creation of the Industrial Training Center will provide students with competitive, up-to-the-minute skills for the market place. Area employers can also count on customized training tailored to the need for updating or retraining employees.

"Trained, skilled, technically - oriented people are a valuable commodity" Wiesen points out. Although the local job prospects are somewhat limited, anyone willing to relocate can do well, he added.

If you're interested in this kind of training, or need to update skills you already have in one of these fields, the Industrial Training Center is one more reason why Alpena Community College is a great place to start ... or start again!

Placement testing is important for success

Before beginning classes at Alpena Community College, you have to take the ASSET placement test if you're taking a course in English or mathematics or register for nine or more semester credits.

All students should consider taking the test because it can tell you whether you are adequately prepared to be successful at college level course work.

The ASSET measures a student's level of skills in the areas of English, reading, and numerical computation. Those skills are crucial to vocational/technical programs as well as to liberal arts transfer programs. Without a solid foundation to build on, you may find yourself struggling needlessly.

That's why ACC offers basic skills instructions and tutorial assistance through the Learning Skills Center (LSC). It's located in the Charles R. Donnelly Natural Resources Center on the Alpena campus and in the Base Education Building at Wurtsmith.

Find out where you need to start by taking the placement test at one of these scheduled times and places.

August 21:
8 a.m. Alpena Civic Center
August 22, 25:
1 p.m., Van Lare Hall 105
August 23-24;
1 and 6:30 p.m. VLH 105
August 28, 30:
3 p.m. VLH 101
August 29, 31:
6 p.m. VLH 101
September 5, 7:
3 p.m. VLH 101
September 6:
6 p.m. VLH 101

The testing schedule for Wurtsmith is posted at the Education Building, or you can call 739-1445.

Fall semester TEXTBOOKS will be sold

beginning

MONDAY, AUGUST 21

at the

Alpena Community College BOOKSTORE

now located at

Besser Technical Center • Room 104

Phone: 356-9021 • Ext. 299

Checks • Visa • MasterCard accepted.

— HOURS FOR SEMESTER START UP —

AUGUST 21-24 AUGUST 28-30 SEPTEMBER 5-7	9 a.m.-4 p.m. and 5-7 p.m.

AUGUST 25 SEPTEMBER 1 SEPTEMBER 8	9 a.m.-4 p.m.

AUGUST 31 CLOSED IN ALPENA	ON BASE BOOK SALES AT WURTSMITH 4-8 P.M.
