

As good as gold...

Rick Engstrom (right), automotive service technology instructor at Alpena Community College, shows college trustees \$100,000 worth of engines, parts and equipment donated by Oldsmobile plants at Flint and Lansing for instructional use. Acquisitions of this size would be impossible for program budgets to handle. Board members (foreground, from left) Lee Britton, Harvey Hansen, John Briggs, Cathy Moe, Florence Stibitz, Dan Carstens, college president Donald Newport, and board chairman Roger Bauer visited the automotive lab during a campus tour held following their September meeting. List 1991-92 recipients of local ACC scholarships

A number of local scholarships are available to students attending Alpena Community College, some provided by area businesses and service organizations, others by memorial funds and the Alpena Community College Foundation.

Scholarship awards vary from set amounts to total tuition and books. Eligibility is established by the donors. Some are need-based and others are based on academic achievement alone.

The first step in being considered for these awards is checking the box on ACC's admission application to indicate you are interested. Scholarship deadlines are also publicized by sponsoring groups. For more information, contact Max Lindsay (356-9021 Ext. 200).

1991 - 92 Local Scholarship Recipients
