Clarence W. Sumner Esq.
Youngstown Public Library, June, 1934
Youngstown.

Having heard that you and your library are interested in the record of pioneer days in North America I have pleasure in sending you herewith a catalogue illustrative of the early settler's life and surroundings, as learned from a careful study of the development of the county of Peel in which my boyhood days were spent.

The catalogue is a gift to your library and is the first fruits of over two years' work of compiling a history of pioneers and pioneering as typified by this one small area in the province of Ontario, Canada.

I shall be pleased to know that this book arrives in good condition and trust it may be deemed worthy of a place in your library.

Yours sincerely,

W. P. Osell
