November 5th, 1929

Attention Order Department:

The 1929-30, Vol. IV, WHO'S WHO AMONG NORTH AMERICAN AUTHORS, is now on the press, and will be ready for delivery in a very short time. We are anxious to have your order in hand that you may be among the first served as this valuable reference book becomes ready for distribution.

The 1929-30 issue contains upward of 10,000 sketches of authors and writers in the United States and Canada. The material incorporated in it has cost several thousand dollars to bring to you in an accurate, up-to-date record of the works and activities of those included in the book. No time nor expense has been spared to make this book a really valuable addition to your reference room.

In addition to the material included in the body of the book, there are reference helps as addenda that give the Geographical Index to the authors and writers, a list of Pen-Names that authors use in their work, a list of Poets of the different states, etc.

The 1929-30 issue of WHO'S WHO AMONG NORTH AMERICAN AUTHORS is one-half as large again as the current edition, without adding to the actual bulk of the book. This has been made possible in reducing the size of type face; so that the book is easily handled for constant use. The volume retails at \$7.50 plus carriage. We have allowed you library discount on the enclosed Order Blank. WE HOPE YOU WILL SEND US YOUR ORDER BY RETURN MAIL.

And in Addition

We wish to call your attention to the second of our publications, WHO'S WHO AMONG LIVING AUTHORS OF OLDER NATIONS, Vol. I, 1930, which will be ready for distribution the first of the year and for which we are now booking a large number of library orders. This volume includes the living authors and writers of the various countries of the world - except the United States and Canada, which is covered by Who's Who Among North American Authors.

Without doubt, this is the most unique book of its kind ever produced. It contains the biographical sketches of foreign authors translated into English, with the names of their books as they appear in print. It centers in one book the authors of the whole world. Much of the material found in this work cannot be found in any library in the world. An Introductory volume of this work was published in 1928, but the issue was quickly exhausted.

We are enclosing an Order Blank for this reference book also, in which you will find the price of the book to be the same as Who's Who Among North American Authors. We know you will not regret including an order for this foreign book together with your order for Who's Who Among North American Authors.

Appreciating your interest,
