When Belleville native Bob Grant isn't flying, he's writing about it — or autographing books he's written on flying, in this case, Friday evening, at W. & R. Greenley Booksellers. Grant's book *Bush Flying - The Romance of the North* is on sale at Greenley's and Grant was on hand to talk

flying with people such as Richard Lee, left, of Trenton. Lee, a local flyer who has experience in the left seat of a Noorduyn Norseman, even left his address with Grant for future research for a book on the fabled Canadian airplane.
