

Cablevue Building
160 Front St. Intell Feb 11/86

City's 1872 building: Now the opinions differ

The inspection

Ald. Kerry Soden (right) and structural engineer Robert McEwen go over plans of the former Cablevue (Quinte) Ltd. building recently purchased by ci-

ty hall. McEwen says the building is economically worth saving, an opinion that is at odds with that of a structural engineer working for a consulting firm hired by city hall

to explore options for a major renovation and expansion project. Soden wants to see the building used and invited McEwen to provide a second opinion Monday.
