

# BARNES SECURITY SERVICES (continued)

Law and Security, a two year program with diploma, is geared to aspiring police officers, and has been available at the College since September 1969.

The need for trained personnel in private security forces gave rise to a later course entitled Security Officers Program and is a one-year with certificate. It is the only course of its kind in Canada. Chief instructor for both courses is Mr. Dave Paine who has two published books dealing with industrial and hotel security. Graduates from both courses have been hired by Barnes Security Services who have been favorably impressed with the training received by the students. They also employ some of the Program's present students on a part time basis. Barnes maintain an avid interest in the Security Officers Program which will help to supply trained employees to service their ever increasing clientele.
