

# Deloro Stellite

*Intelligence, April 31, 1996*

## **Deloro Stellite**

**PHOTO AT LEFT:** Bert Dafoe checks the metal temperature of an alloy prior to production. Deloro manufactures wear-resistant components in such alloys as cobalt and nickel in such products as scraper blades and knives to valve and pump components for the petro-chemical industry.

**PHOTO ABOVE:** Sales manager Ozzie Bell holds a nozzle ring for a diesel locomotive engine, one of the increasing number of products manufactured by Deloro Stellite that's enabled it to surpass the \$35-million mark in sales last year. The company hopes to exceed \$40 million in sales this year and \$50 million in two years' time.
