

NYE Yachts
Intell March 31/83

How it all began

Before becoming professionally involved in the boat building industry, Allan Scott, president of Nye Yachts, was an enthusiastic crew member on a 40-foot racing boat, a model of which he displays in his office here. Some of the fittings used on the old-style

sleek craft, have been adapted for larger models of the Alberg sailing cruiser line made at the plant, he said.
