

Northern Electric

Intel June 1/83

World winner

A far cry from the modern telecommunications equipment now turned out at Belleville's Northern Telecom plant is this Hammond organ, a product manufactured here in the plant's early years in the late 1940s. Belleville musician Chuck

Tilbrook, demonstrating one of the original models during the plant's 35th anniversary Open House this week, says the "four poster" model became world famous and used by many popular musicians.
