### *Growing collection*

Earle Briard, left, district manager for the Industrial Accident Prevention Association, Kingston, checks how another safety award plaque will look in the growing collection in

Northern Telecom's showcase. The plaque and flag, held by Ian Craig, Northern general manager, centre, and Frank Madrick, right, also with the IAPA, represents two million

man hours without a lost-time accident this fall. It is the fourth time in its history the Sidney Street plant has achieved that status.
