### Our error

*Still Feb 8/85*

Thursday's *Intelligencer* carried a story about negotiations at Northern Telecom. It stated that members of United Auto Workers Union voted 85 per cent in favor of strike action if no agreement has been reached.

Those who voted were, in fact, only members of Local 1539 representing shop workers.

Office workers, members of Local 1530, have not yet voted on possible strike action. They are due to decide tomorrow.

The *Intelligencer* regrets the error.
