

BENJAMINI, GEORGE (con't)

Historical society member and resident historian Gerry Boyce said "we wanted to invite everyone who today holds a role that was equivalent or similar to that held by Benjamin. The list is extensive and details what an important and influential man Benjamin was."

Presentations by the Godfreys were made to Rona Rustige, curator of the Hastings County Museum, the historical society's archivist Beth Green, picture archivists Betsy Boyce and Marion Fisher, chairman of the society's building research committee Lois Foster, and head librarian Leona Hendry and reference librarian Elizabeth Mitchell of the Corby Public Library.

The launching concluded with a cake decorated with the book's jacket design and an autographing session.
