Real Interest In Life Reason For Longevity

TRENTON — One of Trenton's best-known residents, Mrs. Elizabeth Ann Gray, 511 Front St., yesterday celebrated her 93rd birthday.

Mrs. Gray, the former Elizabeth Ann Blakely, was born in Marmora and lived in that district before moving to Trenton 46 years ago.

She lives with her two sons, Joe Gray and Martin Doyle, (Mrs. Gray has been married twice); does all her own housework and gardens in the summer.

She maintains an active interest in world and local affairs. Although failing eyesight precludes reading, she is a keen radio listener.

Eight of Mrs. Gray's nine children are living. Beside Joe and Martin at home, Mrs. Mary Bonter, Carrying Place, Mrs. Lena Mulharon and Mrs. Ardie Sinclair of Toronto, Mrs. Ellen McMurter of Trenton, Jack Doyle of Belleville and George Doyle of Trenton were all in touch with their mother to add their felicitations to the many extended by friends and neighbors.

Mrs. Gray was the recipient of many gifts and cards. She insisted on serving callers with tea and birthday cake (baked by a neighbor) when they called to wish her happy birthday.

"I guess I owe my long life to the fact that I've been interested in living", said Mrs. Gray.
