40-year Employee Honored

An auspicious event took place recently at the Sun Luck Gardens Belleville when fellow employees in the general offices at International Hardware Company gathered to honor Mrs. Helen Partridge on completion of 40 years of service in the hardware business on April 23.

Mrs. Partridge commenced her long and distinguished career back in 1929 when she was an order and invoice clerk with the Springer Lock Company. When the company was acquired by the American Hardware Company in 1931, Mrs. Partridge carried on in the same capacity along with the chief of exporting. Five years later in 1936, she was promoted to the Corbin Lock Sales Division and in 1959 was appointed assistant to General

Sales Manager at the plant and has continued in this role which she capably fills today.

At the dinner party in her honor she was presented with an interesting trophy by the company which was embel-

lished with company products of which she is so familiar.

Mrs. Partridge was also presented with many individual gifts from her fellow workers to show the high esteem in which she is held.
