

Column for Farmers.

HINTS FOR JANUARY.

Care on Stock.—Provide good warm shelter for all domestic animals. Cows will require much less food and give one-third more milk when well protected from the cold.

Economist in Frenchie.—Have good feeding racks and save a quarter of the hay, otherwise it is a waste. One ton lost in every four is a loss in every twenty, equal to 23 dollars.

To Make Butter in Winter.—When the milk is strained it is put upon the stove and heated to nearly quite scalding heat, and then set away for the cream to rise.

To Mark Yellow Butter in Winter.—Put in the yolk of eggs just before the butter comes near the termination of the churning.

Cultivate the Mind.—Farmers should read agricultural books and papers, and thus get cheaply the long and hard-earned experience of others.

LIMING LAND.

"Will it pay?" seems to be the inquiry of all who have never tried it, but it is not in the least beyond doubt, when properly applied, and in many cases produces surprising results.

Why do we shake hands? It is a very old custom, but it is not only a sign of friendship, but it is also a sign of respect.

A Beehive that blind young lady received her sight after marriage. On hearing this, a bachelor wickedly declared that it was no uncommon thing for people's eyes to be opened by matrimony.

Olds and Ends.

SHARP ENOUGH.—There is a Yankee who uses a pocket-knife for a week, it is full of holes.

AN APT SCHOLAR.—A schoolmaster was teaching a three-year-old who is a regular shaver in his talk.

Is this good money?—said a man to a suspicious-looking white man who had made some purchases of him.

The Barometer Printer Boy.—Some thirty years ago a barometer boy floated down the Susquehanna on a humble raft.

To Make Butter in Winter.—When the milk is strained it is put upon the stove and heated to nearly quite scalding heat.

To Mark Yellow Butter in Winter.—Put in the yolk of eggs just before the butter comes near the termination of the churning.

Cultivate the Mind.—Farmers should read agricultural books and papers, and thus get cheaply the long and hard-earned experience of others.

LIMING LAND.—"Will it pay?" seems to be the inquiry of all who have never tried it, but it is not in the least beyond doubt.
