"SWIPES" AND THE CAMERON

TO THE EDITOR OF THE CANADIAN POST. SIR,-I saw in the last number of a sheet which circulates among a certain class of office holders, and known as the Victoria Herald, a letter addressed to 'Swipes,' maintainin the uninterrupted enjoyment of the late feed riven in bonour of Mr. Cameron at Woodville, where the writer, who now figures so conspicuously in large type, officiated as the other for friends, and approached within a few yards of each other, when, finding their mutu-at mistake, both halted and prepared for a worthy chairman. I do not feel myself called upon to reply to the silly invective of every simpleton that may find its way into the col umas of a coatem tible rag, and over a still more contemptible signature. It is not my intention merely to give notoriety to every pitiful upstart who seeks it by getting into a perhis saddle at the first fire. The rebel staff des sonal controversy with him; but I can assure serted their chiet's body, which was taken to such that I shall take the liberty of commenting upon their character and conduct whenever they shall lay their pretentions before the public, in a manner that may seem to require the 4th Kentucky, and the 2d Minnesota regi-ments, for they did all the fighting single hand-their cries of distress or imprecations and contheir eries of distress or imprecations and contortions of a rony. When Bill is attending to private matters, no notice, I presume, will be taken of him or his business, but when he from their fixed determination to gain the vicso far gets out of his place as to be palmed off The combatants were so near each other at upon the public as a man of political conseone time, that the powder from the discharged quence, by placing him at the head of a dinner party. I maintain that I have the right of in -- and the fact is a fair lo rical deductionthat the standing, intelligence and respectability of the party that made him their chairman. must be in accordance with the standing, inrough understanding had been arrived at with the American Government; not only had they J.P., etc. I never said that Bill dis graced the party: on the contrary. I think they but their best man, as they should have done, in the on the English Government the notion that they have not only present indefinity, but, also, highest place; but if the party had been composed of some portion of the wealth and respectability of the County, then, I say, to put a man of so little note, so destitute of political the bills are in, it will be double that sum, and importance, at the head, would have been an imposition upon the best and a burning disgrace

The Conservative party of this County has had all the wheat threshed out of it; nothing remains now but the dirt, chaff and straw, and it matters very little which crowns the disagreeable heap, only, we know if it had contained wheat it would have been seen on so important an occasion as the Cameron dinner. almost incessantly. The storm still continues. This was to be a display of their, political im portance, and how are we to judge of their influence but by their leaders, and their intelliclaim alliance with those parties who assembled had retired in discust, and the tail led off the wrong way. If the chairman was a credit to the party, no harm was done-if, as some think. otherwise, it is bad policy to make a fuss about it and thus attract attention to a party that had better be kept out of sight. The thing which addressed the letter referred to had better saved his remarks for a sensation speech to canonize twenty-three new saints, martyrs in some of those dens where sham lovalty in philo-nigger-drivers conspire against the councils of the Sovereign, and set the laws and re gulations of the country at defiance.
