FIRE KING SAFES ALL SALES.

THREE of the Fire King Safes manufactured by the Duryee & Forsyth Manufacturing Co., Rochester, N.Y., were in the late fire at seen that they have proved to be invulnerable.

This is to certify that I have had one of the Fire King Safes, manufactured by the Duryee & Forsyth Manufacturing Co., Rochester, N.Y., in the late fire at Bobsaygeon, which was in the great fire here July 6th, 1861, full of Books, Notes, &c., which came out perfect, after being in the fire for six hours. (Signed) WM. KEWIN.

This is to certify that I had one of the Safes of the Manufacturing of Duryee & Forsyth, which stood through the fire in a wooden building at the late conflagration here—contents, Books and Papers, were found afterwards in a good state of preservation. R. LANG, Mayor of Lindsay, Lindsay, Sept. 28, 1861.

The above Certificates will show that Messrs. J. & J. Taylor, of Toronto, have made erroneous statements regarding the Duryee & Forsyth Safes. They say in their Advertisement that a Safe of Duryee & Forsyth's Manufacturing proved worthless in the late fire at Lindsay, in the Store owned by James Heap, and referred to in the advertisement of Duryee & Forsyth, and Messrs. J. & J. Taylor have not had the privilege of using Mr. Heap's name.

The community will see that our Safes are as reliable as J. & J. Taylor's, if not more so. F. MCK. MACDONALD, Sole Canadian Agent for the Duryee & Forsyth Manufacturing Co., Rochester, N.Y., Toronto, Sept. 30, 1861. 119-1/2

PROSPECTUS OF THE Scientific American.

The best Mechanical Paper in the World. EIGHTEENTH YEAR. VOLUME VI.—NEW SERIES.

A NEW VOLUME of this widely circulated paper commenced on the 5th of January. Every number contains six to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

The Scientific American is devoted to the interests of Popular Science, the Mechanic Arts, Manufactures, Inventions, Agriculture, Commerce, and the Industrial pursuits generally, and is a valuable and instructive not only in the Workshop and Manufactory, but also in the Household, the Library and the Reading Room.

The Scientific American has the reputation, at home and abroad, of being the best weekly journal devoted to mechanical and industrial pursuits now published, and the proprietors are determined to keep up the reputation they have earned during the seventeen years they have been connected with its publication.

To the Chemist and Architect. Chemists and architects will find the Scientific American a useful journal to all the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; but all the new inventions and discoveries are published from week to week.

To the Millwright and Millowner. Useful and practical information pertaining to the interests of millwrights and millowners is given in the Scientific American, which information they cannot possibly obtain from any other source. To this class the paper is specially recommended.

To the Planter and Farmer. Subjects in which planters and farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.

To the Man of Leisure and the Man of Science. Individuals of both these classes cannot fail to be interested in the Scientific American, which contains the latest intelligence on all subjects appertaining to the arts and sciences, both practical and theoretical; all the latest discoveries, and numerous which come to our knowledge being early recorded there.

War! War! War! Our summary of the war news, which has been so highly complimented by our readers and contemporaries, will be continued in the coming volume. As long as the war lasts, accompanied with copious illustrations of new war implements of various kinds, such as cannon, firearms, projectiles, &c.

To all who can read. PROSPECTUS OF THE Guelph Daily Advertiser.

THE GUELPH ADVERTISER is now about entering on its eighteenth year. Started when Guelph was in its infancy, it has grown with its growth, and through the years of the Town and district were amply met by a weekly edition. Two years ago the proprietor found it necessary to issue the Semi-Weekly Advertiser, in order to keep up with, and in some measure anticipate and encourage the enterprise and spirit of our business men, and satisfy the demand for later and fuller accounts of events than could be given in a weekly paper.

Grateful to the public for the liberal encouragement then and since accorded to him, he has now resolved to issue a daily paper, and the Guelph Daily Advertiser, on Monday, the 9th day of June, 1862.

The present is a most opportune time for beginning such an enterprise. Events of so much importance are daily transpiring, that a daily record of them will satisfy the reading community. The American War, the important political movements in England, the late arrival of interesting news from abroad, if not at once published, gets stale by keeping it day after day. The proprietor is also impressed with the fact that Guelph has now reached such a position and population as to require and support a daily paper, which will in some measure reflect its standing, and be the pioneer and harbinger of its steady advancement.

The Advertiser will, as heretofore, be the consistent advocate of Reform—will denounce abuses of every kind, and by whatever party committed. All measures of a liberal character, for the good of the country, and the strengthening of the Reform party, will receive its unqualified support. An equitable representation of all parties will be given; or such an adjustment of the federal relations of the two sections as will secure to the management of our own affairs, the most impartial justice which our rights to claim and enjoy.

The Advertiser, in its publication of the metropolitan news, will keep pace with the latest metropolitan dailies. The securing of such news for its issue will be one of its chief objects. A special telegraphic despatch, containing all the American War news; a full and correct report of the New York markets of all the telegraphic news published, and the arrivals of all foreign steamers, as well as every other event worth recording, will be received up to 3 o'clock each day, and placed in the hands of subscribers as early as possible thereafter.

Local Affairs will receive the same attention as formerly. Full and correct reports will be given in Town or County papers, a staff of competent correspondents in all the Towns and Villages in the County will supply local items of interest, in advance of any other papers published in the district.

Agricultural Matters will also have their place in its columns. Selections from leading Agricultural papers in Canada will be given, and the farmer as the farmer as the merchant or mechanic.

The Market Reports—always an important feature of a daily newspaper—will be specially prepared for the Guelph Daily Advertiser, and may be relied on for their correctness, as they will be supplied by one who has had many years' experience. In addition to the daily Market Reports, the Guelph Daily Advertiser will also give the latest reports of the Montreal and Toronto Markets will be also given. Business men will thus have a daily report of the markets from all leading commercial centers.

Apart from the usual Editorial matter and Telegraph News, the Daily Advertiser will contain a large amount of Miscellaneous Reading, comprising choice literary selections, a compendium of Provincial and general news, and a summary of all foreign intelligence. No effort will be spared to make it equal to any of the dailies published in the Province, and to make it a valuable and interesting medium to the business public the proprietor expects in return from them a hearty and liberal support.

The Daily Advertiser will be mailed to subscribers at \$5 a year, or \$1.50 a quarter, in town it will be delivered at the same rate, or at 10 cents per week, payable weekly to the Carrier.

The Advertiser will be issued every afternoon, mailing for Elora, Fergus, Mount Forest, Durham, Owen Sound, Walkerton, Orangeville and other important points in the counties of Grey and Bruce; also by the Grand Trunk Railway East for Rockwood, Acton, Georgetown, and other places; Grand Trunk West for Berlin, Waterloo, Stratford and other places in the counties of Grey and Waterloo. For Hespeler, Preston and Galt. It will be printed on a large Double Sheet, containing 20 columns, and will present as handsome an appearance as any journal in the Province.

THE WEEKLY ADVERTISER. This sheet will be supplied as formerly at \$2 per annum, and in clubs of 5 and upwards, at \$1.50. In consequence of the news being made up during the latest it will be greatly improved. It will contain the latest news up to the morning of publication, as also every thing that appears in the daily of the six days preceding. It will in future be published on Thursday Morning in time for the earliest mails of that day. By this arrangement it will reach the greatest number of offices in Canada by Saturday morning, and will be ahead of all the other weekly papers published in this section of the Province.

J. WILKINSON, Proprietor.
