The accounts from Kentucky are not important, but we may shortly expect to hear of an engagement between Gens. Buell and Bragg. They captured a few hundred prisoners, who were immediately paroled.

THE GLASGOW MURDER

By the latest mails the mystery accompanying the Sandyford Place murder continues unsolved. From an English newspaper we learn that a new witness has appeared on the scene, in the person of a young woman, whose account, if true, presents the affair in a new phase. Her statement goes to prove that she was called off the street at seven o'clock in the morning to wash the floor of the house, and that she was offered a pound by the old man, who was besmeared with blood, for murder continues unsolved. From who was besinegred with blood, for concealing what she saw. She refused the bribe, however, and fled After the visitors had time to see the whole, fused the bribe, however, and fled home, but never related the occurrence at proper quarters until after the trial. Even should the old man have a share in the guilt, there is no doubt but that the woman participuted in the awful crime.
