THE New Illustrated Topographical, Statistical, General Reference, and Railway Map of Upper Canada, having been carefully compiled and drawn from actual surveys, and from the very latest and best authors, is being neatly engraved, and well printed on fine, white, strong paper, ma-nufactured to order at the Don Mills by Messra. Taylor & Brothers, and will soon be completed.
Competent judges having compared proof sheets
of this Map with a Map got up in New York by H.
F. Walling, of Spruce Street, and advertised as
Tackabury's Map of Canada West, have, without

exception, given the Toronto work the most decided preference.

Information that persons interested in the sale of the other Map, are systematically and industriously representing Tremaine's Map to have "gone up," "gin out," &c., and that it will never be published, has come to hand from friends of fair play in dif-

ferent parts of the country:

This counter statement made in self-defence, will not, I am sure, be received as on questionable authority; nor, in view of all the circu the pretensions set up, the conditions, the deceptive management, the promises and the deficiencies relating to the rival maps, is it likely the people will feel themselves under any sort of obligation to pay for two maps in order to secure the best? Papers giving the above a few insertions will be entitled to a copy of the map mounted.
