"Montreal Witness,"

IT is now seventeen years since the first number of this paper was issued, and during GEO. Two years ago last summer, a daily edition was commenced, which has since grown into a very extenmenced, which has since grown into a very extensive circulation, chiefly in the city of Montreal.

Such has been the progress of the "Witness" to its present position, which, we believe, stands second in the united Prevince for the number of

copies issued weekly.

The Daily edition, at \$3, is still cheaper in proportion, and is recommended especially to all merchants who require to know the course of the markets. It contains a great amount of daily information about business, only part of which can go into the Semi-Weekly.
