Charleston, Feb. 3.—The British frigate Cadmus brings intelligence that a most formidable naval and land expedition is about to attack Charleston, the preparations being now nearly complete.

New York, Feb. 9.—Despatches from Charleston state that reports brought there by the British frigate Cadmus, had alarmed the citizens, who were leaving rapidly.

Halifax, Feb. 9.—The Europa, from Liverpool on the 24th, and the Queenstown on the 25th, arrived here at 5 p m. to-day.

The Anglo-Saxon arrived at Liverpool on the 24th, the Hammonia on the 23rd, and the Glasgow at Queenstown on the 23rd.

The London correspondent of the Manchester *Guardian* learns on excellent authority, that the Confederate Government has been doing a very considerable stroke of business in England, through the medium of cotton warrants. These warrants are undertakings to deliver so much cotton at a fixed price, reported to be at from 3d. to 4d. per pound, in so many days.

The Paris correspondent of the London *Times* has reason to know that official instructions have been sent by the French Government to Washington, suggesting that commissioners be delegated by the Federal Government and by the Southern States, to meet on neutral ground to confer together, without hostilities being suspended, so that they might advise mutual concessions, and effect a reconciliation, so desirable for the interests of the world.

TWELVE CONFEDERATE PRISONERS FROZEN TO DEATH IN CHICAGO.

(From the Chicago Times, Feb. 3.)

Word was brought to the city last evening, that during the night of Sunday twelve of the Confederate prisoners confined in the pens at Camp Douglas were frozen to death. It is asserted that on Monday morning they were found in the miserable handful of hay in their bunks, frozen stiff, though to all appearances in the enjoyment of perfect health the day previous.

The barracks at Camp Douglas are well known to be totally unfitted, during the prevalence of such weather as the present, for the use of anything, scarcely cattle. Those in which these prisoners are confined are many of them destitute of stoves; the windows in some of them are broken out, and through the holes and cracks in the sides, and the apertures in the roof, the cold wind freely enters.

It is stated that the local officers at the camp, actuated by a humanity their superiors might pattern after with profit, have done all in their power to make the condition of the prisoners comfortable. But their are those above them who have terrible sins to answer for.

New York, Feb. 5.—A fire broke out at 160 Broadway, at three o'clock this morning, in the cap store of Rinaldo & Lasky, third floor. That floor and the rear of the entire building was consumed. The losses, including the building, amount to about $25,000.

A BLOODLESS DUEL.

It must be conceded to the great credit of French Canadians, that they never fight duels, and that questions of honor are settled among them in some more rational and harmless way. They are, in that respect, in advance of their kindred in France, where bloody duels are still a matter of frequent occurrence, being more or less countenanced by public opinion, in spite of stringent laws. A few days since, a question of honor arose between two prominent French Canadians—Mr. Gaudet, the member for Nicolet, and the Hon. J. B. E. Dorion (*L'Enfant Terrible*). There had been some political controversy, and a few excited words exchanged between them, when the latter, denying some statements personal to him, called the former a liar. According to the barbarous code of honor adopted generally elsewhere, these gentlemen should have fought with swords or pistols, unless the unfortunate word was retracted and apologised for; but they adopted a far more sensible plan. That they should avenge their honor by a fight, was, of course, considered indispensible; but the weapons selected were only their tongues! An encounter took place between them by appointment, on the Sunday before last, at the church door of Arthabaska. Over four thousand witnesses were present. The two antagonists inflicted upon each other all the injury they possibly could by words, and the contest, which had begun the issue of the morning service, was closed only by the bells of the church calling back the faithful to the vesper service. Both gentlemen were exhausted, but Mr. Dorion the most of the two; and each party claimed the victory. We recommend to the civilized world this new French Canadian way of settling affairs of honor. It forms a real humanitarian improvement on the former practice, and could be very well resorted to without desecrating the Sabbath as these two gentlemen unfortunately did.—*Montreal Witness.*

PROSPECTUS
OF THE
Scottish American Journal.

A First-Class Family Newspaper!

Devoted to the Dissemination of

Scottish Literature and News.

SIXTH YEAR!

THE Sixth Volume of the "SCOTTISH AMERICAN JOURNAL" commenced January 1, 1863, each year constituting a complete volume of convenient size for binding, and each number containing a most entertaining and instructive repertory of reading matter calculated to interest all readers of British origin. The Scottish American Journal, though decidedly *international* in its efforts to promote peace and prosperity between the people of Great Britain and America, is yet emphatically Scottish in its copious records of all events occurring in Scotland that can be of the least interest to natives of that country residing in America; and to this "news from home" is added, weekly, a summary of general intelligence from England, Ireland, other parts of the world.

A distinguishing feature of the Scottish American Journal is its regular republication, *verbatim et literatim*, of the "leading articles" of the prominent British newspapers and other periodicals upon the most important topics of the day. This feature is a unique one, and has been found very acceptable to the people of the United States and British North America, and supplies a long needed disideratum on the American Continent. In reference to the *editorials* of the Scottish American Journal, it is a most significant fact that the British press frequently acknowledges their intrinsic truth and force by copiously extracting from our columns and declaring that the Scottish American Journal is the most able and interesting paper published in America. A concise weekly summary is also given of the principal items of American news, and a similar narrative of events transpiring in the various British Provinces.

In the forthcoming volume of the Scottish American Journal, increased space will be devoted to the literary department in the publication of *serial tales and sketches*, vividly illustrating the customs, habits, sentiments, and general characteristics of the people of Scotland—each tale emanating from the pen of an author of celebrity. As heretofore, particular care will be exercised in the choice of *original poetry*, composed by writers of acknowledged genius and purity of thought, resident here and abroad. The third number of the new volume contains the commencement of a deeply interesting prize tale, entitled

"Rachel Noble."

The Directors of the Scottish Temperance League gave a prize of One Hundred Guineas for the tale. The Rev. N. L. Walker, Rev. A. Johnson, Rev. J. Hill, Rev. Wm. Blair, and Rev. J. B. Johnson, D.D., acted as coadjudicators, and after carefully perusing Eighty-three Manuscripts, awarded the prize to BRUCE EDWARDS. This tale will prove to be one of the most interesting ever published, and will be appreciated by all classes of readers.

THE NEW AND IMPROVED

MAP OF UPPER CANADA,

THE New Illustrated Topographical, Statistical, General Reference, and Railway Map of Upper Canada, having been carefully compiled and drawn from actual surveys, and from the very latest and best authors, is being neatly engraved, and well printed on fine, white, strong paper, manufactured to order at the Don Mills by Messrs. Taylor & Brothers, and will soon be completed.

Competent judges having compared proof sheets of this Map with a Map got up in New York by H. F. Walling, of Spruce Street, and advertised as Tackabury's Map of Canada West, have, without exception, given the Toronto work the most decided preference.

Information that persons interested in the sale of the other Map, are systematically and industriously representing Tremaine's Map to have "gone up," "gin out," &c., and that it will never be published, has come to hand from friends of fair play in different parts of the country.

This counter statement made in self-defence, will not, I am sure, be received as on questionable authority; nor, in view of all the circumstances, the pretensions set up, the conditions, the deceptive management, the promises and the deficiencies relating to the rival maps, is it likely the people will feel themselves under any sort of obligation to pay for two maps in order to secure the best?

Papers giving the above a few insertions will be entitled to a copy of the map mounted.

ALBION HOTEL,

MONTREAL.

L. W. DECKER, Proprietor.

IS pleasantly situated at the head of St. Paul Street, amongst the largest wholesale houses, in the city. It has (with business men generally, and especially with the best Merchants of both Provinces) become so great a favourite, that it is now acknowledged to be THE Business Hotel of Montreal. To meet the extensive increase during the last year in the business of the house, the proprietor has built a large addition. The Dining-Room has been extended and made more commodious; there have been completed a new wing, a great number of well ventilated sleeping-rooms, and the House throughout has been refitted, and now contains many improvements and conveniences hitherto unknown to its guests. The whole of the beds have, at a great expense, been furnished with NEW SPRING MATTRESSES. The proprietor expects that by continuing his personal management of the concern, "The Albion," to say the least of it will continue to be, as it now is, the best Dollar and a Half Hotel in Canada. 1-tf

This implement is coming rapidly into favor with the public, and well it may. They are recommended by our city Fire Department, and are being adopted by our Public School buildings &c. They are also being adopted among small villages where there is no regular Fire Department. Taking into account its utility not only as a means of extinguishing fires, but also as a water thrower for various purposes, the implement is worthy a place in every house, where it can be afforded.

SURVIVE OR PERISH.

Holloway's Pills.

The history of this great remedy is the most wonderful medical revelation that the world has ever known. BILIOUS DISORDERS.

In whatever form disease attacks the liver, it is repelled and exterminated by this searching, painless and irresistible curative.

Let the sick whom the faculty have abandoned, resort with confidence to this powerful antibilious agent, and a restoration to health and activity will be the unvarying result.

DYSPEPSIA.

The great scourge of this continent yields quickly to a course of these antiseptic Pills, and the digestive organs are restored to their proper tone; no matter in what hideous shape this hydra of disease exhibits itself, this searching and unerring remedy disperses it from the patient's system.

GENERAL DEBILITY & WEAKNESS.

From whatever cause, lowness of spirits, and all other signs of a diseased liver, and other disorganization of the system, vanish under the eradicating influence of this all powerful antiseptic and detergent remedy.
