TESTIMONIALS. We, the undersigned, being at the fire at the residence of Dr. Henry and Honer Taylor, and having witnessed the working of a Miniature Fire Annihilator, known as Vases HYDROPULT, do cheerfully testify to its usefulness in suppressing fires, particularly when water is scarce, and the ordinary services of the Fire Engine cannot be procured.

THE HYDROPULT. Will, by the power of one man, throw water at the rate of eight gallons per minute, fifty feet high, with great force, and should be owned by every household. It does away with the necessity of a hydrant. It is a light, portable FORCE-PUMP, always ready, easily used, and will come in frequent use to twelve years of age frequently learn to sew on it after a day's practice.
