TO ADVERTISERS—THE FALL TRADE.

To the Mercantile community—now that the Fall Trade has commenced—the CANADIAN POST especially recommends itself.

NOTICE TO ALL WHO OWE US.

All parties indebted to this office are urgently requested to pay us, and at this season our friends can more easily do so than at any other.

THANKSGIVING DAY.

We have the very great satisfaction of announcing that the Governor-General in Council has appointed Wednesday, 11th November, as a day of thanksgiving for the bountiful harvest Providence has showered upon us...

Under the new telegraph act, passed at the last session of the English Parliament, a person in the employ of a company willfully or negligently omitting to deliver a message, or divulging the purport can be fined \$50.

THE ROTCHILDS.—The Rothchilds have had a family meeting at Paris, the result of which has been the suppression of one of their five houses, and the relaxation of the rule which has compelled members of the family to marry their first cousins.

THE INFLATED CURRENCY.—The New York World says: "The truth is, we are in the midst of the mad intoxication induced by an ex-

the paper money... go on swimmingly... it would... make any... in real estate or dividend stock.

The Quebec Mercury says:—Our city contemporaries, in the interest of the opposition, are sorely perplexed by the evident favor with which the policy of the Macdonald-Dorion government is viewed in England.

DISHONEST MILEAGE.—It is stated in La Tribune, that when Mr. Raymond, the new member for St. Hyacinthe, who sat but a few days in the House, went to claim his seasonal allowance, the Treasurer reckoned his mileage on 260 miles as his line of travel.

LINDSAY, C.W. Thursday, Oct. 29, 1863. TO ADVERTISERS—THE FALL TRADE. To the Mercantile community—now that the Fall Trade has commenced—the CANADIAN POST especially recommends itself.

HON. MR. McDONNELL, who has been very ill, is now recovering.

VERY THICK-HEADED.

"The Post, Lindsay, says the Mayor has gone to Quebec to urge the Government to increase the grant for a bridge over built bridge, some \$500 or \$1200. He (the Mayor) says the Mayor is to have Mr. Danford's assistance in pressing his claim, and remarks it is "a cogent reason why it should be granted."

THE PETERBORO REVIEW seems to move on at a sleepy pace, as only last week it says carps at some remarks we made three weeks ago...

It is trusted that this request of the town of Lindsay will be granted by Government for this, for the following very cogent reason, if for no other. Some two years or so ago, \$15,000 were passed by the Legislative Assembly for the purpose of constructing locks on the Seagug at Lindsay, which were not executed, and the money remained unappropriated.

There's none so blind as those who are not willing to see," said the Review's way of reading what we said is a wilful perversion of our language; or, if not wilful, it is an exhibition of the grossest want of comprehension.

It would insult the most juvenile reader to point out that the "cogent reason" we adduced was the fact that \$15,000 granted to construct locks on the Seagug at Lindsay remained unappropriated, and that only \$9000 had been granted to build the bridge, allowing that the grant for the bridge was made in lieu of that formerly made for the locks, left the sum of \$7000 granted by Parliament for the benefit of works in Lindsay, still unappropriated.

The last sentence of the paragraph above quoted from the Review, is a most ludicrous Tory deduction; and "at any rate" is to our mind understanding as unintelligible as Chinese.

THE AUDITORS REPORT ON THE TOWN ACCOUNTS.

The report, made on the 27th April last, has not been published. It is given to the right just as another year is drawing to a close; it is still, however, of sufficient interest to receive a perusal from the ratepayers of the town of Lindsay. The report discloses the most deplorable management of our municipal money affairs last year, and it is of course expected that the forthcoming report for the present year, now nearly run, will give good evidence that the numerous, excellent, judicious, and necessary recommendations of the auditors have been attentively carried out.

To the Municipal Council of the Town of Lindsay.

Your Auditors beg to report:— That they have examined the Treasurer's account for the year 1862, and find the same correct as compared with the vouchers, and they have prepared detailed and abstract statements of the Receipts and Expenditures, a statement of the Police Court account since 18th November, as given them by the Clerk, and a memorandum of the monies raised under By-Laws Nos. 26, 46 and 49, which they now submit for your approval.

Your Auditors cannot give a statement of Assets and Liabilities, the former of which is composed of Town property, non-resident taxes, &c., as no definite information of the amount of taxes returned to the County Treasurer can be obtained in the Clerk's office, and the County Treasurer informs your Auditors that the bill for 1862 has never been received by him.

They also find, contrary to the provisions of the Statutes, section 229, chapter 64, the Council have used the different sinking funds for general purposes, and that on the 31st December 1862, although there should have been in the hands of the Treasurer, at the credit of the different sinking funds, the sum of \$2000, there was in reality no such fund or money.

They are unable to find how much is due to the municipality on accounts of non-resident taxes, without communicating with the County Treasurer. Information of this description should be in the hands of the Clerk or Treasurer, and at the disposal of the Auditors.

Your Auditors would beg to call your attention to the unsatisfactory state in which the non-resident account with the County Treasurer, amounting some \$6,000 being due to the Town for which the County Treasurer will not hold himself responsible for so being correct. Your Auditors in consequence would strongly recommend the appointing of a committee to investigate into the matter and devise some plan of paying it.

The taxes on non-resident lots in the possession of the Clerk have not been collected, and consequently not added up; which should have been done, as the roll returned to the County Treasurer should be an exact copy of the one in the Clerk's office, not only in amount, but as regards the names of the owners, and the different lots, and the total of such taxes.

No memorandum can be found, other than the entry in the books, having any reference to lands on the resident roll, returned as non-resident, taxes on which amount to \$737 21, but which, according to information obtained from the County Treasurer, as well as from the return from the Town Clerk to the County Treasurer itself, amount to only \$375 88, showing an apparent loss to the Town of \$361 33.

A somewhat vague resolution is on the minute book, but, as far as the books are concerned, no satisfactory information can be obtained regarding said taxes.

No particulars of the abatements allowed can be found in the Clerk's office, nor any motion in Council, nor report of committee adopting the same. The sum of \$147 30 is allowed, as not collected from Roman Catholic ratepayers on account of By-Law No. 46, and we presume the same is correct; at the same time no names of parties or numbers of lots are given, or rather cannot be found.

The costs in the suit "Op vs Lindsay," amounting to \$28 72, have apparently been twice paid—once to A. LaCourse, Esq., and once to the Treasurer of Op.

They find a balance of \$105 46 against Thomas Butler, from 26th March 1862, and \$207 30 against Sutton & Brother, due since 31st December, 1861; your Auditors have no means of discovering what these amounts are due for.

They recommend that the balances due from the following parties be collected or written off as bad, viz:— William McNeill, \$ 00 06 J. Wiley, 10 00 Timothy Shannon, 2 14 J. Keefe, 9 12 Thomas Butler, 105 46 Sutton & Brother, 207 30 Robert Lang, 200 00 Hugh Workman, 5 10 Bills Receivable, 95 23 T. C. Patrick, 0 04

As regards bills receivable your Auditors would report that none of them have been produced.

Your Auditors would beg to make a few suggestions with regard to the management of the Town accounts for the future.

They state, and as a special committee has reported thereon, they consider the best plan they can adopt is to recommend a different system of keeping such accounts.

Your Auditors would recommend that the Clerk of the Council keep the accounts and minutes of the Police Court, and that the entries in the day book contain the number of the roll on account of which the entries are made.

That the Clerk shall each day enter in his day book the fines and fees, and shall credit Police Court account, and debit the account of Fines and Fees, Magistrate's Fees and Clerk's Fees, as the case may be, with the same.

That all monies that may be paid on account of suits previously entered, be placed to the credit of cash and credit of unpaid Fines and Fees.

Your Auditors do not consider it necessary to refer to the other accounts which the Clerk will require to keep.

Your Auditors would recommend that no monies be paid out of the Police Court Fund for the use of any person, but that the same be paid to the Clerk, but for the purposes of the Police Court Fund.

That a quarterly statement of the Police Court account be submitted by the Clerk, and after paying the salaries and other expenses of the Court, a balance be handed over to the Treasurer of the Town; and if there should not be a sufficient sum in his hands to pay said expenses, that the Treasurer to the Town be ordered to pay to the Clerk the amount of the deficiency.

That the salary of the Clerk be defined as such for Police Court and so much for Town Clerk, and that the one be paid out of the funds of the Town and the other out of the Police Court Fund.

That no money be paid by the Treasurer for Police Court purposes, otherwise than before mentioned.

All of which is respectfully submitted. JOHN D. SMITH, JOHN G. WOOD, Auditors.

LOCAL NEWS.

FATAL ACCIDENT.—About two o'clock on Friday a sad accident befel a boy named Devito Kilby, 14 years of age, while tending a thrashing-machine on the east half of lot 11, 9th con. Ops, about five miles from Lindsay.

In feeding the machine, his arm was caught in it, whereby both arm and collar-bone were broken. He lingered in great agony till five o'clock. An inquest was afterwards held by Dr. Norton, coroner, Omeene, and the jury gave a verdict of "accidental death." The poor lad had just gone that same morning to assist Mr. Robert Moore for a day or two.

ESCAPE OF TWO PRISONERS FROM GOAL.—On Monday afternoon, about four o'clock, two prisoners, named Robin Culbert and William Robinson, escaped from the goal in Lindsay. Culbert, who is about twenty-two years of age, was awaiting his trial on a charge of horse-stealing; and Robinson, who was imprisoned for debt, is sixty-five years of age. Telegrams of their escape have been sent in all directions, and several detectives are in pursuit; but no trace of them whatever has yet been found.

ASSAULTING A BAILIFF.—WARNING.—On Saturday last, Henry Atkinson, township of Op, was brought before W. H. Deane and J. H. Hopkins, Esqs., J. P.s, charged with assaulting Mr. Joseph Nugent while acting in the discharge of his duty as Sheriff's bailiff. Atkinson regretted what he had done, and he was fined in the mitigated penalty of \$1 and costs, and admonished not to again commit the offence.

DISORDERLY CONDUCT.—On Thursday last, Isaac and Hiram Millar (men of color), were brought before the Mayor charged with disorderly conduct, fighting and discharging firearms in the north west part of the town, in the neighborhood of their abodes. They were found guilty and sent 30 days to goal.

COMMITTED FOR HOUSEBREAKING AND LARCENY.—William and Dennis Cremine, father and son (or stepson), were committed to goal on Thursday last, on the charge of having broken into and stolen from the store of Mr. Jane, William-street, a quantity of tea, tobacco, &c. Mr. Jane had been losing goods from his store for a good while, and could not tell where they were going. He went to Port Hope last Thursday week, and returned in the evening, and found missing a package of tea and one of tobacco. He mentioned the circumstance to Mr. Doherty, and Mr. D. and he agreed to stay up the following night to watch. On that night he took home his cash-box, and then returned to the store, carrying with him a loaded pistol. In opening the door he heard two men between the store and counter. He told them to stand, or he would blow their brains out. They ran, and Mr. Jane fired. One of the men exclaimed, "Oh, my God!" They both ran to the rear of his store, as Mr. Brown's corner. Mr. Jane had previously seen two suspicious characters at Mr. Brown's corner and his suspicion fell on them. He communicated the circumstances to the Chief-constable, who on apprehending the prisoners, found in their abode, concealed beneath a bed, a quantity of the stolen tea; some boys also found a quantity of tobacco in the woods, near the prisoners' abode, which is situated at the north end of the town—Mr. Jane identifying the whole of the articles as his. The prisoners will be tried at the Quarter Sessions in December.

ATTEMPTED POISONING AND STRICKE.—We learn that Paul Heils, of Carletonville, on Wednesday last, after (it is supposed) administering poison to his wife on the Sunday previous, went to his stable, and cut his throat with a razor from ear to ear, causing almost instant death. Mrs. Heils is considered in a dying condition.—Warder.

BUREAU OF AGRICULTURE.—Patent office, Quebec, Dec. 15, 1863.—His Excellency the Governor-General has been pleased to grant Letters Patent of Invention for a period of fourteen years, from the date thereof to the following persons:— Robert Twiss Sisson, of the town of Lindsay, in the County of Victoria, Mechanic, for a machine or apparatus for Drying and Cooling Grain.—(Dated 19th May, 1863.) Samuel Truitt, of the village of Mukka-ha Falls, in the County of Victoria, Engineer, for "A Balance Patent."—(Dated 19th March, 1863.)

THE WEATHER.—On Friday snow fell to the depth of four inches. The weather is now dry and bracing.

SALE OF FARM STOCK.—The farm stock, implements, &c., belonging to the late Mr. Francis Ogilvie, Mariposa, were sold by public sale on Wednesday, 21st inst. Mr. John Douglas was auctioneer. The sale attracted a large company of farmers and others. The stock in general was poor; but one premium horse brought \$151, and another \$101. The sale realized nearly \$1200.

FIRE.—The house and sheds belonging to Mr. Samuel Walker, Ops, were destroyed by fire on the night of Thursday last. The flames broke out at midnight, and the inmates of the house narrowly escaped. It is not known how the fire originated. The house, &c., were insured for \$600, but the loss sustained is valued at \$2000.

EXTRAORDINARY FEATS IN ROPE WALKING IN LINDSAY.

On Saturday, about three o'clock, Signor Farini, the hero of Niagara, performed some astonishing feats upon the tight-rope. A rope was stretched from the roof of Wilson's Block to Jewitt's Block opposite, in Kent street, a distance of about 100 feet. The rope was placed in an oblique direction, appeared to be about one inch in diameter, and averaged 60 feet from the ground. The day was cold and damp, yet notwithstanding a large number came in from the country, and all the townspeople were "there to see." The Signor walked three times across his high and "narrow way."

Walk'd under his huge legs, and peep'd about," Farini made his debut by walking from north to south, and when half-way made salutations to the spectators, and was greeted with applause. He re-crossed "the line" presented a grotesque appearance, and excited much laughter. But the Signor's third act in the performance was the one that filled the crowd with wonder. This time his two feet were encased in large wooden-bottomed baskets, and in his first attempt to "get along, Farini feigned unable to move save in a shuffling fashion; but like "the fiery steed," once started for the goal he lengthened out his pace, and ere he ran the course, his locomotion amazed all beholders—as it were,

"Whirling the world with noble horsemanship." The performer was loudly applauded on the accomplishment of his daring feat, which for the time held the people in breathless anxiety, suspense, and amazement.

PLOUGHING MATCH.

A ploughing match, under the auspices of the County of Victoria Agricultural Society, was held on Friday last, 23rd inst., on the farm of the late Mr. William Pearson, Mariposa. The weather, unfortunately, was unfavourable—a snowy, cold, ungrateful fall. It snowed more or less all day, and fell to the depth of at least 4 inches. The day originally appointed was Thursday, and the change to Friday was cause of great regret. The circumstance was scarcely known, if at all, on Thursday, in anticipation of the match coming off, there were about 15 ploughs, iron and wood, on the ground, and a concourse of no fewer than 600 persons, farmers and others, all interested in the ploughing competition. On Friday there were only five teams, and not half the number of spectators—the others having gone away the previous day greatly disappointed. However, with all the drawbacks, great excitement prevailed at the competition on Friday, and a keen but hearty rivalry between the townships of Eldon and Mariposa—Eldon carrying off the palm. On all hands it was acknowledged that justice was done the contending rivals by the judges. For iron ploughs—Donald Jackson, Eldon, first prize; Robert Dobson, Mariposa, second. For wooden ploughs, Dugald McTaggart, Eldon, first prize; William Wilson, Fernhill, second; and David Bateman, Mariposa, third.

[In our correspondence column will be found a communication on this ploughing match, to which we refer our readers. The writer is a competent authority on agricultural matters, and as he enters into details, we are thereby relieved of the necessity of any repetition here.]

LECTURE IN LINDSAY GRAMMAR SCHOOL HOUSE.

Dr. Magee, of the Educational Department, Toronto, visited our town on Thursday last, for the purpose of establishing a meteorological observatory in connection with the Grammar school, and very kindly volunteered to deliver a lecture; the proceeds to be applied in the purchase of books, to form the nucleus of a library for the use of pupils attending the Union school.

The lecture on Thursday evening was well attended, and to judge from appearances, the audience, both old and young, were highly pleased. The lecturer exhibited a large number of views with a magic lantern, the oxyacetylene light being used, and which certainly surpasses in brilliancy any other light we have ever seen. Among the scenes exhibited were Westminster Abbey, the Tower of London, St. Paul's Cathedral, the Houses of Parliament, Edinburgh Castle, Balmoral, and a great many others, embracing Cathedrals and public buildings in England, Ireland, Scotland, and on the Continent. We understand that all these views can be obtained at the office of the Department in Toronto, and as we learn that the pupils of the Union school have already a magic lantern and a number of views, we would advise them to obtain others as soon as possible, so that in the approaching long winter evenings young and old can be entertained, amused and instructed.

ELDON BRANCH AGRICULTURAL SOCIETY'S SHOW.

The second Annual Show of this Society was held at Woodville on the 20th inst. There was a very large gathering, much larger than last year. The day was fine, which gave additional zest and enjoyment to the proceedings. The turnout of horses was extremely good, and so with cattle, sheep, pigs, &c. The grain shown was considered a fair average of the crops of the district; and in roots there were some fine mangold wurzel, turnips, &c. As has happened this year at other shows in this county, the display of farming implements was very small compared to what might be and is anticipated. This is one of the most important departments in an agricultural show, and we trust that the farmers of Victoria in future years will vie with each other in producing the best implements within their reach. There were many entries in butter and cheese, and the samples good throughout. It was gratifying to see this year a competition in bread, and the specimens exhibited showed that the ladies of Eldon were advanced in baking, and good housewives.

The Town-hall was crowded throughout the day, and more particularly by the young folks, who, it was thought, seemed nearly to take entire possession. It has been suggested that in future it might be well to make a trifling charge for admittance to the hall, the proceeds to be devoted to an increase of premiums, or to the encouragement of a ploughing match. The society is much indebted to Mr. George W. Millar, the excellent secretary, for the care and time he expended in the arrangements of the show.

The directors and judges took dinner together in the Northern Hotel (Wood's), which was laid on the table in first-class style, and to which the company did ample justice. We append the list of premiums.
