ROBLET BRODIE, Proprietor.

THIS favority little having been dately completely renovated, affords the best of accommodation for travellers and the public of the servent style in the legislation of the regular years of the servent's folds from the dead cow. But should he fire and strike the reptile, it commodation for travellers and the public generally. Under present management no efforts will be spared that will conduce to the comfort of guests.

But should he fire and strike the repulle, it would, in its convulsions, crush or drag me to pieces. Even as the idea came to me, I beheld Grant pause. He appeared fully to comprehend all. He could see how I was situated, that I was still living, and that my delivery depended on the will of the con-strictor. We could see every line on each

other's face, so close were we, and I would have shouted, or spoken, or even whispered at him, had I dared. But the boa's head was reared within a few inches of my own, and the wink of an eyelid would perhaps settle my doom; so I stared, stared like a dead man at Grant and the blacks. Predead man at Grant and the blacks. Presently the serpent began gradually to relax his folds, and after re-tightening them several times as the crushed buffalo quivered, he unwound one fold entirely. Then he paused. The next iron-like band was the one which held me presoner, and I felt it little by little, unclasping, my heart stood still with hope and fear. Perhaps, upon being freed, the benumbed arm uncontrolled by my will, might fall from the cushes like being freed, the benumbed arm uncontrolled by my will, might fall from the cushion-like bed in which it lay. Such a mishap might bring the spare fold around my neck or chest, and then farewell to the sources of the Wile. Oh, how hardly, how desperately, I strug-gled to command myself! I glanced at Grant, and saw him handling his rifle anx-Grant, and saw him handling his rifle anxiously; I glanced at the aegroes, and saw them still gazing, as though petrified with astonishment; I glanced at the serpent's loathsome head, and saw its deadly eyes watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its prey watching for the last sign of hie in its pre REFERENCES,—Wmrev.—His Hon. reward of six thousand dollars is offered for his apprehension. He is described as "a young man of about thirty years of age."

Mr. Ward, the murdered man, was among the best citizens of Tumbrill county. He was senior partner in the well-known Falcon Iron Works Company, and one of the most prominent men and extensive iron manufacturers in the Mahoming Valley.

THE MURDERER ARRESTED. Since the above was in type we learn that the murderer was arrested near Welland, in Canada, yesterday. Chief of Police Darcy, accompanied by the Western officers named, procured a hack here and went to Fort Erie at an early hour on Saturday morning. They ascertained that Robbins had been there and their arrival. They gave chase, captured him after a severe drive of nearly twenty miles, and brought him back to Fort Erie. As they were about placing him an board the ferry boat, a British official interfered and took him back to Welland, where he was placed in the gaol. The offices followed and were there waiting for a requisition from the Governor of Ohio at last

An Act to amend chapter 19 of the Consolidated Statutes of Upper Canada, intituled "An Act respecting Division Courts."

Whereas it is desirable to lessen the expense of proceedings in Division Courts in Upper Canada, and to provide, as far as may be, for the convenience of parties having smits in the courts: Therefore Her Majesty, by and with the consent of the Legislative Council and Assembly of Canada, enacts as follows:

— The following is a copy of the bill, which and light batteries were in position. Over 100 pieces all opened and kept up a tremendous fire minutely with shell upon the enemy's line, but the rebel fire increased in severity. The enemy could be plainly seen from our main line moving his troops from the right to the left of the point of attack, and it was evident that they were massing their whole available force to meet the attack. Between seven and nine o'clock three attempts were made by our troops to charge, but each of them was checked by the enemy's fire. Squads of men during that time were continually trying to make their way back to our main line, but the intervening space of open ground, about 150 yards in eter. AN INJUNCTION BY THE SUPREME COURT OF THE GRAND TRUNK RAILWAY.— A passenger train from Portland for Montreal, on Thursday night last, ran off the track near Northumberland. The engine was thrown over the embankment, and the engineer and fireman were badly scalded. The Supreme Court of Maine has since put an injunction upon the running of passenger trains upon this road, (the Grand Trunk) within the limits of that State, on account of the dangerous condition of the track.—Springfield Republican.

It would have been satisfactory to have heard what the constituencies of McGee or Mr. Cartier have to say in the premises. As regards the former there is sufficient indirect evidence to show that Mr. McG ee's present position will have the hearty appre val of the division of Montreal which he represents; for we believe we are correct in stating 1 that almost from the first hour of his entrance, into public life in Canada, Mr. McGee has been a steady, consistent, persevering advocate of a federative, as opposed to a legislative Un ion. He has made himself familiar, too, with the social and political temper of the marat fine Provinces, and sounded their represents tive men on the question of a federation embra- cing all the Provinces. And it is certain his constituents during each successive election have been fully apprised of his particular view i on this, as distinct from most other public c uestions; so that their approval is almost a fore-gone conclusion.
