Capital \$2,000,000 in \$40,000 Shares of \$50 each. HEAD OFFICE, TORONTO, CANADA WEST.

The Royal Canadian Bank, for which a charr was obtained during the last Session of arliament, is intended to supply a want that as so long been felt by many who had occa-

ion from time to time, to apply for Bank accommodation. Toronto and the surrounding country have increased in wealth and population with great rapidity, yet the Banking Capital is very little if at all, in excess of what was ten years ago, so that the amount of Capital really necessary to supply the increase of business is, in fact,

wanting-and as this want is also sensibly felt in other parts of Canada, and more particularly in Upper Canada, it is believed that a new Bank not is only required, but will receive a Toronto, Nov. 22, 1864. At certain times a very large amount of money is required to facilitate the exportation

of Produce, Lumber and other commodities, a much larger amount than it is in the power of the existing Banks to supply, and as this amount is absolutely necessary, and must be had, the Banks are compelled, in order to furnish it, to withdraw a portion of their Capital from the general business of the country in which it is employed, to the great detriment of Farmers, Manufacturers and others; men, who by their honest industry and enterprise, have done much to advance the prosperity of the Province, and who are in a great measure denied Banking accommodation from the inability of the Banks to supply it.

At present, the greater part of the Banking solved by mutual consent. Capital employed in Western Canada, is held by and under the control of parties residing late ffrm. elsewhere, and who must, to a great extent, be unable to understand or appreciate the business requirements of this section of the | Lindsay, Sept. 20, 1864. country. To overcome as far as possible this disadvantage, it is intended to place the "Roy-al Canadian Bank" under the control of Directors acquainted and identified with our local trade and business.

The promoters therefore look for encouragement and assistance, not to any one particular class, but to all, believing that the Instition when in full operation, will prove of great benefit to the community generally.

The Charter having been drawn with great

care, and every possible protection to the Shareholders provided for, so as to render thesecurity undoubted, Capitalists are offered a favorable opportunity for investing their money with safety, while the punctual payment of semi-annual dividends, affords an inducement to all depending upon sure and certain returns. The Shares are \$50 each, ten per cent. of which is to be paid one month from date of subscription, fifteen per cent. more when the Bank goes into operation, and the balance during the next two years, a simple and easy mode of payment; and it should be borne in mind. that the applications of stockholders for accommodation, have a right, a prior claim on the

The Board will consist of seven Directors, to be elected by the Stockholders, as soon as \$400,000 shall be subscribed, and \$100,000 in cash paid in, agreeably to the terms of the Act of Incorporation, when the Bank will go into

It is the intention of the Directors to allow interest on current accounts. It is also intendded, as soon as possible, to open Branches and Agencies in the various sections of the Province, when the demand therefor, evinced by the amount of local subscription for Stock, will justify the Directors in so doing. Stock-books are now open in the hands of Agents throughout the country, and it is confidently expected that, in a very short time, the Bank will be in operation.
