

EXPULSION FROM THE HOUSE.

The Quebec correspondent of the London Press says that among those present at the promotion of the House, was a lady of public fame—a name not redolent, though of the Penelopean fragrance—who had managed to obtain a card of admission from one of her votaries; but the gates were closed to her. The Speaker of the Legislative Council espied her through the corner of his weather eye, and quietly instructed the head messenger to take with him a blue-coated gentleman of the class vulgarly called 'beaks' in Cockneydom, and they both proceeded to the gallery where the frail one had established herself in a front seat, among a hundred or so of the wives and daughters of Quebec. She had apparently noticed the interest she was exciting, and receiving a very gentle beck of the courteous messenger's forefinger, departed in peace, but possibly without a sense of disgust at having been thus publicly reminded that she was a pestiferous outcast whose presence could not be permitted to taint the sacred halls of Legislation, or to insult the virtuous women among whom she had the impudence to intrude her meretricious charms. Whether her expulsion from a public building was a strictly legal act I shall not debate, but extra-judicial proceedings are sometimes deemed necessary for the vindication of moral rights. This little scene occurred just before the entrance of his Excellency, and all was perfectly serene when the representative of Majesty, attired, as is his wont upon State occasions, in the gorgeous Windsor uniform, and attended by that permanent institution 'a brilliant Staff,' ascended the Throne steps, and seated himself under the magnificent canopy which casts its gold and crimson folds over the resplendent chair. On this occasion his Excellency had, as a supporter on his right, the brave soldier who reposes upon the grand laurels he plucked from the tree of immortality by his heroic defence of Mars—Sir Fenwick Williams, the Commander of the Forces.

DIPHTHERIA.—Do not forget that in this and other sore throat diseases, the slow eating of pure ice, broken up into small pieces and for hours at a time, is among the very best remedies. It should be begun at once, as soon as the soreness appears, and a very bad attack may thus be prevented.

Miss Mary Ridd, an elderly lady, died at her lodgings, in Joy street, Barnstable. She lived in the most penurious manner. It has been proved that she was very wealthy. Concealed in her rooms was found £400 in bags and stockings. Her whole property amounts to £3000, for which there are many claimants.

EMANCIPATION IN BRAZIL.—Slavery now appears to be doomed the world over. By the Constitution of Brazil slavery will expire in that Empire in twenty years, but many of the leading statesmen are anxious for its more speedy end. At their request Rev. J. C. Fletcher has issued an appeal to the people of the United States to send works against slavery to J. C. Wood, 265 Broadway, New York, to be forwarded to Rio Janeiro.

The only devil worshippers known to exist are the Yezidis, a singular race of people living in Armenia. The Yezidis were formerly Christians, were then converted to Mohammedanism, and now apparently disgusted with both faiths have taken themselves to diabolism. The theory of their priests is that although the mighty angel Satan, the chief of the angelic host, at present has a quarrel with God, yet a reconciliation will hereafter take place, and he will be restored to his high rank in the celestial hierarchy. This is the foundation of their hope, and they consider themselves perfectly safe in trusting their destiny to it. Among such a people the profane phrase "Go to the Devil" would of course be considered as an expression of good will.

The population of London is 3,014,494, of Liverpool, 476,378, of Manchester, 467,723, of Birmingham, 327,842, of Dublin, 254,808, that of Leeds, 224,025, Edinburgh, 174,180, and Bristol, 171,809. All these cities have overflowed their corporate limits, and it is proposed to extend their boundaries.

The newest system of robbery announced in London consists in watching the butcher's man to your house, and then going immediately after with a tray containing meat, and telling the servant that 'master has sent the wrong joint' and begging that it may instantly be sent back to be exchanged for the right one. The right one never comes.

Samuel Kninerter and Ann Scrimshire, both of whom were deaf and dumb, were recently married at the parish church of St. Anne, Limehouse. An interpreter attended and, and the responses were made through the finger alphabet. A great number were present to witness the ceremony, which excited great interest by its novelty.

"I'll not strike thee bad man," said a quaker one day, "but I'll let this billet of wood fall on thee," and at that precise moment the bad man was floored by the weight of a walking-stick which the quaker was known to carry.

WHAT MAKES A BUSHEL. The following table of the number of pounds of various articles to a bushel, may be of interest to our readers.—Wheat, sixty pounds. Corn shelled, fifty-six pounds. Corn, the cob, seventy pounds. Rye, fifty-six pounds. Barley, thirty-six pounds. Buckwheat, forty-six pounds. Irish potatoes, sixty pounds. Sweet potatoes, fifty pounds. Onions, fifty-seven pounds. Beans, sixty pounds. Bish, twenty pounds. Clover seed, sixty pounds. Timothy seed, forty-five pounds. Hemp seed forty-five pounds. Blue-grass seed, fourteen pounds. Dried peaches, thirty-three pounds.

THE HISTORY IN WORDS.—What a record of inventions is preserved in the names which so many articles bear, of the place from which it first came, or the person by whom they were first invented. The 'magnet' has its name from Magnesia; the 'Baldachin' from Baldacco, the Italian name of Bagdad; it being from that city that that costly silk originally came. The 'bayonet' tells us that it was first made at Bayonne—'worested' that it was first spun at a village of the same name (in the neighbourhood of Norwich)—'sarsnet' that it is a Saracen manufacture—'cambric' that they reached us from Cambray—'damask' from Damascus (the 'damson' also is the damascene or Damascus plum)—'arras' from Arras—'dimity' from Damietta—'Cordwain' or 'cordovan' from Cordova—'currants' from Corinth—'Indigo' from India—'agates' from a Sicilian river, Achater—'jalap' from Xalapa, a town in Mexico—'parchment' from Pergamos—the 'bezant' so often mentioned in our literature, from Byzantium being a Byzantine coin—the 'Guinea,' that it was originally coined (in 1663) of gold brought from the African coast so called, 'Camlet' that it was woven at, at least part of it, from camel's hair.

TO 'BEE' OR NOT TO BEE.—A small privateer with forty fifty men having on board some hives of bees, was pursued by a Turkish galley, manned by five hundred seamen and soldiers. As soon as the latter came alongside the crew of the privateer mounted the rigging with their hives, and hurled them down upon the deck of the galley. The Turks, astonished at this novel mode of warfare, and unable to defend themselves from the stings of the enraged bees, became so terrified that they thought of nothing but how to escape their fury, while the crew of the small vessel, defended by masks and gloves, flew upon their enemies, sword in hand, and captured the vessel, almost without resistance. During the confusion occasioned in a time of war, a mob of peasants assembled in Hohnstein in Thuringia, attempted to pillage the house of the parish minister, who having in vain employed all his eloquence to dissuade them from their design, ordered the servants to bring his bee-hives, and throw them in the middle of the furious mob. The effect was what might be expected—they were immediately put to flight, and happy to escape unstung.

USEFUL RECEIPTS. BED-BUGS.—If any of your readers need a sure remedy for bed-bugs, they can have mine, and cleanse the house of this troublesome vermin, with very little expense. They have only to wash with salt and water, filling the cracks which they frequent with salt and you may look in vain for them. Salt seems inimical to bed-bugs, and they will not trail through it. I think it preferable to all 'ointments' and the buyer requires no certificate as to its genuineness.—Mrs L. C. C. Pen. Yankee.

BOILING CLOCKS.—A correspondent of the Scientific American says that common brass clocks may be cleaned by immersing the works in boiling water. Rough as this treatment may appear, says the correspondent, it works well; and I have for many years past boiled my clocks whenever they stop from accumulation of dust, or a thickening of oil upon the pivots. They should be boiled in pure or rain water, and dried on a warm stove, or near the fire.

TO MAKE STRIPPING COWS' BUTTER COME QUICKLY.—There is an art in managing it the right way. Take a piece of calf's rennet, about an inch square or a little more, according to the thickness of it, and put in one spoonful of water and let it soak overnight or a few hours before using it, to one gallon of cream. When you put the cream into a churn, as usual, pour two-thirds of the rennet-water in and then close the lid as quickly as possible, and churn right away, not letting it stand any time, and you will have good butter in twenty or thirty minutes. If you have more or less cream, divide accordingly; and if you put too much of the rennet in, then it will curdle and the butter will never separate from the curd.—Germantown Telegraph.

A DELICIOUS SOUP.—Peel and slice six large onions, six potatoes, six carrots, and four turnips; fry them in half a pound of butter, and pour on them four quarts of boiling water. Toast a crust of bread as brown and hard as possible, but do not burn it, and put in, with some celery, sweet herbs, white pepper, and salt. Stew it all gently. Have ready thinly sliced carrot, celery, and a little turp. Add them to your liking, and stew them tender in the soup. If approved of, a spoonful of tomato catsup may be added.

THE CANADIAN POST WEBSTER'S JOB PRINTING ESTABLISHMENT

WINTER STOCK OF BOOTS IS NOW COMPLETE. LADIES WINTER BOOTS & SLIPPERS. D. F. M'CARTHY IS NOW SELLING OFF HIS LARGE STOCK OF GOODS AT A SACRIFICE

MARK THE PRICES! 30 pairs Good Blankets at \$2.50 per pair. Fancy Flannels worth 3s.6d. now sold for 2s.6d. Under Coats worth \$5.00, sold at \$3.00.

Are You in Agony? A WELL SPRING OF HOPE FOR ALL CAN BE FOUND IN HOLLOWAY'S PILLS. THE HISTORY OF THESE GREAT REMEDIES IS THE MOST WONDERFUL MEDICAL REVELATION THAT THE WORLD HAS EVER KNOWN. IT ESTABLISHES THE ALL IMPORTANT FACT THAT WHEREVER, AND IN WHAT EVER SHAPE INTERNAL DYSPEPSIA EXISTS, THE DISPEPSING, SEARCHING AND HEALING PROPERTIES OF THE PILLS ARE FULLY EQUAL TO ITS SUBJECTION AND CURE, AND THAT, WITH THE OINTMENT, THEY ARE THE GREAT AMBASSADORS OF HEALTH TO ALL MANKIND.

HOLLOWAY'S OINTMENT. The history of these great remedies is the most wonderful medical revelation that the world has ever known. It establishes the all important fact that wherever, and in what ever shape internal dyspepsia exists, the dispepsing, searching and healing properties of the pills are fully equal to its subjection and cure, and that, with the ointment, they are the great ambassadors of health to all mankind.

DISORDERS OF THE STOMACH. Are the sources of the deadliest maladies. Their effect is to vitiate all the fluids of the body, and to send a poisoned stream through all the channels of circulation. Now, what is the operation of the Pills? They cleanse the bowels, regulate the liver, bring the relaxed or irritated stomach into a natural condition, and, acting through the secretory organs upon the blood itself, change the state of the system from sickness to health by exercising a simultaneous and wholesome effect upon all its parts and functions.

WOMAN IN ALL HER DIFFICULTIES. Is invited to test the restorative and restoring powers of this harmless but effective preparation. At the two epochs of life in which the female system undergoes the most important and critical changes, the Pills will prove a positive and permanent relief. They are also confidently recommended as a specific in every disorder to which females are exclusively subject.

BE IT UNDERSTOOD. That the above statements can at all times be verified by the written testimony (extending through a quarter of a century) of tens of thousands of unimpeachable witnesses. BILIOUS MALADIES, &c. &c. In whatever form disease attacks the liver, it is repelled and exterminated by this searching, painless, and irresistible curative. Bilious remittents, bilious purging, and all the ordinary disorders of the organ, indicated by pain in the right side of the abdomen, the shoulders, yellowness of the whites of the eyes, weakness and debility, &c. are relieved and removed by the remedy, with a celerity which astonishes the sufferers and their friends. Let the sick, who are afflicted with these disorders, resort with confidence to this powerful antibilious agent, and a restoration to health and activity will be the unvarying result.

DYSPEPSIA, DIARRHOEA, WEAKNESS, &c. The terrible bodily and mental pain which characterizes these disorders are at once relieved by the Pills. Diarrhoea, constipation, headache, spasms, affections of the kidneys, hemiplegia or palsy, and, in fact, all the ailments, from whatever cause arising, give way before the salutary influence of this extraordinary remedy. As a specific for dyspepsia, and the disorders connected with it, or growing out of it, the Pills are also highly recommended by every other medicine and mode of treatment has utterly failed.

HOLLOWAY'S PILLS ARE THE BEST REMEDY KNOWN IN THE WORLD FOR THE FOLLOWING DISEASES: Asthma, Headache, Bowel Complaints, Indigestion, Coughs, Influenza, Colds, Inflammation, Chest Diseases, Inward Weakness, Costiveness, Liver Complaints, Dyspepsia, Loss of Spirit, Diarrhoea, Piles, Dropsy, Stone and Gravel, Debility, Secondary Symptoms, Fever and Ague, Venereal Affections, Female Complaints, &c. &c. CAUTION.—If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write me, enclosing the amount, and I will mail a box free of expense. Many dealers will keep my medicines on hand because they cannot make as much profit as on other persons' make. None are genuine unless the words "Holloway's, New York and London," are discernible on a Water-mark in every leaf of the book of directions around each box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one procuring such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

HOLLOWAY, 80 Maiden Lane, New York, and by all respectable druggists and dealers in medicine throughout the United States and the civilized world, in boxes, at 25 cents, 62 1/2 cents, and \$1, each. It is a considerable saving by asking the larger sizes. A HINT TO THE WORTHY CITIZENS OF CANADA. BE WARNED IN TIME. ALL parties purchasing my Pills and Ointment for their several complaints either pretentively warned against purchasing either Pills or Ointment purporting to be my preparations that have a United States stamp around the boxes or pots. There is no Treaty between the People of the States and the Home Government, therefore an American Stamp does not protect my preparations. There are no stamps upon my Canadian style Pills or Ointment coming from the United States. I rely only for protection on the water mark. Before you purchase, see that there are no U.S. stamps upon the Box of Pills or Ointment. Purchase one that has U.S. stamps on it. T. HOLLOWAY, Maiden Lane.
