The following is the "latest" and most desirable dinner for the table, and is the result of a recent occasion the chairman announced that he thought the same table could be proposed in terms more complimentary to the profession, and therefore he begged to give them—Lush and She!

A party of five English gentlemen, along with a lady, were invited to dine at the "Lush and She" restaurant, on a Christmas Day, and were successful in making the difficult ascent to the highest peak of dark Lechanga, a fact believed to be without a parallel.

**GREAT IMPROVEMENTS IN Sewing Machines**  
EMPIRE SHUTTLE MACHINE.  
Patented February 14th, 1860.  
Salesroom, 536 Broadway, New York.

This Machine is constructed on an entirely new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be *simplicity and perfection combined.*

The following are the principal objections urged against Sewing Machines:  
1. Excessive labor to the operator.  
2. Liability to get out of order.  
3. Expense, trouble, and loss of time in repairing.  
4. Incapacity to sew every description of material.  
5. Disagreeable noise while in operation.

The *Empire Sewing Machine is Exempt from all these objections.*  
It has a straight needle, perpendicular action, makes the *LOCK or SHUTTLE STITCH* which will *NEITHER RIP nor RAVEL*, and is alike on both sides; performs perfectly on every description of material, from Leather to the finest Nansook Muslin, with cotton, linen, or silk thread, from the coarsest to the finest number.  
Having neither *CAM nor COG-WHEEL*, and the least possible friction, it runs as smooth as glass, and is

**Emphatically a Noiseless Machine!**  
It requires FIFTY PER CENT. less power to drive it than any other Machine in market. A girl of twelve years of age can work it steadily without fatigue or injury to health.  
Its strength and wonderful simplicity of construction render it almost impossible to get out of order, and is GUARANTEED by the company to give entire satisfaction.

We respectfully invite all those who may desire to supply themselves with a superior article, to call and examine this *REVOLVING MACHINE.* But in a more special manner do we solicit the patronage of
