is that the Government is bound, before the political support? Is the House of Commons to be at the meroy of any millionaire who determines to purchase a "whip-hand" in the shape of twenty-seven members and recoup himself from a Government contract. No quibble or quirk or device can hide this point. This is not the time for "fair trial men." The Government of the day is composed of men of commanding ability and undoubted integrity; and it deserves, and we are confident it will receive, hearty support from all honest men. The prospects of the Reform Party of this County were never more promising than at present, and they will not exceed the people, to submit its political cannel, be found it appeals to the people, to submit its political cannel and each who desire god and the people at the people at the people at the people at the people are the real man and a faitful representative. The enquiries that have been made in the practicability of constructing at tramway from Pigeon Lake to the mineral districts of the north, have resulted, says the Bobcaygeon Independent, in demonstrating that such a project is not only quite practicable, but that it would also probably prove profitable. It has been found that from navigable water on Nogey's Creek to the Campbell Iron Mines in Snowdon is about fifteen miles and a half, or allowing for winding of the road about sixteen miles. The cost of a tramway such as would meet all the well that it is so, for there is urgent need for prudence and economy.
