The Nutritious Condiment of the North British Cattle Food Co. GOLD PRIZE MEDAL, awarded, London Exhibition, 1802. At the Exhibition of British and Foreign Manufactures, held in the Crystal Palace, London, 1802, the Nutritious Condiment was awarded the Prize Gold Medal for genuineness and utility. It will coax the most impaired appetite. It renders coarse provender rich and palatable. Horses fed on this Condiment for a short period of the year receive as much beneft as it they had been out to grass for a season. Its regular use is beneficial and not injurious, as is the case with some worthless preparations palmed off on the public at high prices, and designated Cattle Spices, &c. The Nutritious Condiment is composed of pure herbs and roots grown for their fattening properties and health-giving qualities. By using it, a saving of twenty per cent is effected in the cost of feeding and the animals are in better condition. It is not only the best but the cheapest Condiment for cattle in existence, being just half the price of any at present in the market. All the principal prize cattle at the Royal Agricultural Shows, held at the Agricultural Hall, Ishington, London, Kmas, '63, '69, '70, '71, were fed on the North British Cattle Food Company's Condiment.
