The Mayor stated that at the request of several Councillors he had some days ago, when in Toronto on business, proceeded to Brantford to see Mr. Waterous. That gentleman had stated that he believed a different arrangement of the gearing would furnish a hundred lbs, pressure—much more than the required amount; and he would be willing to furnish the new gearing at the actual cost—which he had since telegraphed would be about \$95 free on board the cars. Mr. Waterous had declared that he had nothing to do with the power and was in no way responsible for it. He had stated that it would not be wise to work up to 100 lbs. as that would give a volume of water that would burst the pipes, damage the machinery, and burst the hose. At the annual School meeting David King was re-elected School Trustee and Messrs. James Weir and James Thorndike were recommended to the County Council as suitable persons for High School Trustees. Some matters that would have resulted injuriously to the High School were introduced, but were unfavourably received. The schools are working prosperously, the chief complaint being want of space. There has not been as large attendance at the High School for years past as the present winter session. Mr. Sim, the Principal, is very successful.
