Josh Billings has an entirely bald head; and it is related of him that once, when he was at the Zoological Gardens in Paris, the day being warm, he lay down upon one of the benches and went to sleep. After a while he was awakened by a sense of suffocation, and when he opened his eyes he found that something covered his face. He began to struggle to release himself, and the next moment a gigantic ostrich leaped up and began to prance down the path. The ostrich had observed the top of Josh's hald head, and, mistaking it for one of his eggs, it had begun to sit upon it for the purpose of hatching.

The soiree held in the new Hall of L. O. L. No. 1324, on the evening of Monday, the 23rd ult, was a complete success. The assembly was large; about 200 sat down to the good things provided by J. McConnell, baker, of this ferred to judge for himself in regard to what should he put into his mouth, and he thought the same privilege should be accorded to all men until at least the Legislature took action.

Mr. J. Douglass, the Inspector, was heard, and after denying that he was actuated by personal feeling, quoted the 12th clause requiring the Inspector to certify that applicants were fit and proper persons; and if he found that parties were not fit he would not on any account recommend any unworthy persons. CONTEMPTIBLE ESPIONAGE—THE BUD-

AFFAIRS AT TORONTO

TORONTO, Feb. 24. It is very remarkable that the new member for North Perth has been so long in taking his seat. It may, per-

is likely to pursue in the future. As your readers no doubt know he promised in his address as first issued to support Mr. Mowat's Administration without a single saving clause; although, after the address had been pretty well circulated, such a clause was added, only going the length, however, of promising to vote with the Conservaives on a party division. When are we going to have what Mr. Daly would call "a party" division? It does seem to me every day more clear that our Government is being conducted so much upon what the popular idea of responsible government is, that such a thing as a good Opposition is an impossibility; upon no question of public policy are the so-called Conservatives of the Legislature agreed. Not upon the School Rill, "the measure" of the four

Bill, "the measure" of the session; not upon the repeal of the Assessment of Bank Stock; not upon income franchise; not upon the ballet! There is one stion, however, upon which THE " LITTLE BAND " are pretty much of our opinion, and that is, that it would be a desirable thing if they could oust Mr. Mowat and his colleagues from the Treasury benches and get those themselves. The means by which they hope to do that have hitherto been an enigma to me, and I suppose to the most of us people. Gradually, however, that which they call their policy has been developing itself, and it consists in

CRYING " WOLE ! about the country's finances till they are hoarse themselves and the country is sick of the noise. The "Proton Outrage," cold, old, and stale long ago, is yet made to good service; Horrocks Cocks, Creasy Whellams, Canoe Couch and Little Miss; these form the stock in-trade of what the hon, member for Toronto East delights to call Her Majesty's small but loyal Opposition. It is needless to remark how much scan-dal could be created out of a man's private affairs, let him conduct himself never so carefully if they came to be examined by the vicious and vulgar curiosity which has peered into the very bedrooms of the members of our Govern

CONTEMPTIBLE SYSTEM OF ESPIONAL could not well be imagined. I do not think that any of the many parasites which prey upon the vitals of society is more despised or despicable than the gossip who enters the secrecy of a man's bed-shamber and reveals to a disgusted world what she has there seen. There are few human beings who descend to think of acknowledged leaders of a great political party who not only stoop this low, but proclaim their meanness and impudence with a flourish of trum-pets. These things are the more forcibly impressed upon my mind by a tew attendance the other morning
