GROCERY LIQUOR STORE.

Give me winns with an aim,
Wintewey that aim may be,
Wintewey that aim may be,
Wintewey the wealth, or wheather it's fame,
It mustels not to me.
Let him wife in the path of right,
And house his aim in eight,
And workend pray in faith alway
with infreye on the glittering height.

Give use a man who says,—
"I will do 'something' well,
Ant make the facting days
A stay of labor tell."
Though the aim he has be small,
It is detter than none at all;
With supething to do the whole year
He will not tumble or fall.

But fishes weaves a source
For the feet of those who stray,
With mover a thought or care
Where the path may lead away.
The may who jhas no aim,
Not only leaves no name,
When the life is done, but ten to one,
He leaves a record of shame. Give much man whose heart
Is filled with ambition's fire;
Who see his mark in the start
And heape moving it higher and higher
Batter to die in the strife,
The lighter with labor rife,
Than to glide with the stream in an idle of
And lead a purposeless life,

Better to strive and climb,
And never reach the goal,
Than to drift along with time,
An aimless, worthless soul,
Ay, better to climb and fall,
Or sow, though the yield be small,
Than to strow away day after day,
And siever strive at all.

Indians charge nothing for shaving. Who will get in his crops if he leaves a farm to head the Grangers?

Never take your boots to be mended

A malicious person says that cotton it, thinking it was an evil we could not A malicious person says that cotton sheets and newspaper sheets are alike in the respect that a great many people lie in them.

Vermont has a young lady six feet seven inches high, and when a young man succeeds in kissing her they say he is 'gone up."

A malicious person says that cotton the could not young in that a could do nothing against it; and that arose from the fact that I did not know that which I came to know in that year, and I will relate it. There came to me one day on their own soli-Eli Love, of Wayne County, Ohio, climbed a tree to shake out a coon. The dogs heard something drop and went for it, but it was not the coon. It was Eli. The pupils of the Dover, N. H., High

aind regarding the value of a horse by the abun-lance, length and beauty, of his tail, for it's a well-sterted fact that "all's well that ends well." Mount Vernon, Xenia, Muskingum, McConneisville, and Cadiz, Each olds a long farewell to Rum, And yells out. "Ge it ladies." "Well, Bridget, if I engage you, I with this subject—I would ask you to out." "Well, ma'm, I have no objections, production, you do the same when I wish to go out." "You look like death on a pale orse," said a gentleman to an old toper, who was ale and emacated. "I don't know anything about has," said the toper, "but I'm death on pale

brandy!"

Upon a man whose body was found in a river, a ceroner's jury in Ireland returned the verdict that the individual came to his death by a blow on the head, "which was given either before or after drewning."

manner or evi!—as if I had found myself in a hospital full of all forms of disease, and the most hideous forms of death. The revelations of that evidence or after drewning." Some young men in Green Bay presented a preacher with a horse and received his heartfelt thanks. Two days after the presentation the horse was taken away by the farmer from whom it had been stolen.

A New York gentleman, who had tarried late at a wine supper, found his wide waiting for him in a high state of nervousness. Said she. "Here I've been waiting and rocking in the chair till my head spins round like a top?" "Jes so, wife, where I've been," responded he; "it's the atmosphere?"

who rose from his hotel at night to examine the weather; but, instead of looking out on the sky, thrust his head through the glass window of a cupboard. "Bless me." he muttered, "this is very singular weather. The night is as dark as pitch, and smells of cheese."

heristication called to one little fellow who was listen-ing to what she said. She had been teaching her class the elements of English history, and wishing to see if he knew what she had been talking about, she suddenly ashed. "Johnny, who killed King Rufus?" "Why, I didn't know he was dead."

TOTAMP CONFORTING.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoe. This preparation is being extensively used, and exacts from all the highest praise. Nothing of the kind has ever before been half as successful or given such universal satisfaction; it cannot be equalled. We can confidently recommend it, and would advise all who own horses to keep a supply of it on hand—it may be the means of saving your horse's life. Remember the name, and see that the signature of Hurd & Co., is on each package. Northrop & Lyman, Newcestt, Ont., Proprietors for Canada. Sold by all Medicine Dealers.

Turn Italiana Cumpulate Railway

Never take your boots to be mended by a cobbler whom you have offended.

A Michigan schoolma'am points out the sad fact that no schoolma's points out the sad fact that no schoolma's preached a sermon in a billiard saloon last Sunday. He made nineteen points.

A Western critic recently said of a new novel, "Its incidents follow each other like a shovelful of hot coals."

A Vermont debating club is now strugging with the question, "Which eats the most chicken, ministers or owls?"

A malicious person says that cotton sheets and persons report and persons and persons as a siliarie to the havoc which that drink traffic is making among our people. I had long lived among men; I had been mixed up with everything which ought to have taught me; all the means of knowledge were at my hand; but I remained down to that year ignorant of its existence, for that no man can ignore, but ignorant of its extent, ignorant of its subtlety, ignorant of the ravages which it is committing day and night. Until that year, I may say that I was in a state of apathy about it, thinking it was an evil we could not came to me one day, on their own soli-citation, a certain number of genilemen, members of the United Kingdom Alliance, who requested me to listen to their statement. I did se; and having listened to their statement, I sought and read the evidence taken before Mr. Villiers' committee in the year 1854-5 and then for the first time I knew what is the meaning of the drink traffic—what the ravages and havoc were by that traf-

fic throughout the whole country means; and I would only ask all of you would with this subject—I would ask you to obtain either that report, or extracts from that report, and make yourselves master of the facts. I can only say for myself that it opened my eyes, as if I had found myself in a house full of all manner of evil—as if I had found myself in a housial full of all forms of the subject of the suitable employment.—Yours respectfully, C.J.Shiel, Ontario Grovt.

Emigration Com. to Ireland.

one of the most formidable dangers before us in this country; and I have no
doubt that unless a remedy can be applied there are evils before me which "There is one good thing about babies," asid a recent travelles; they never change."
We have girls of the period, men of the world; but the babies are the same self-possessed, teariess, laughing voracious little heathens in all ages and in all countries."

A tutor of a college, lecturing a young man on his irregular conduct, added, with great pathos. "The report of your vices will bring your hather agree hairs with sorrow to the grave," "I beg your pardon, sir," replied the pupil, "my tather wears a wig."

"Hi! where did yez get them trousers?" asked an Irishman of a man who happened to be passing with a pair of remarkably short trousers on, "I got them where they grew," was the indignant reply. "Then, by my conscience," said Paddy, "you've pulled them a year too soon?"

An urchin went into a barber's shop, and request at the barber to cut his hair as short. conceal from you here in Liverpool, what I have said many times in Manchester, that I do not believe that any adequate remedy will ever be found for must come in one of two ways. It must burden of all the crime and misery and poverty created by drink, and of all the demoralization of the neighborhood in which they are obliged to live, and the tainting of the atmosphere which they and their families are phere which they and their families are compelled to breathe. Until there can be in every locality a legal power to dermine whether any public-houses are needed, and, if so, what number are needed, and to watch over them and obtain a speedy closing of those which are disorderly—until those who suffer are legally constituted the power to correct that mischief for themselves—I dont believe any imperial law, any attempt are, in this respect, on a footing of per-at coercion, can do it (applause). I will therefore say in one word, that out of the principles of what is called the Per-missive Bill—and I wish to distinguish than we sre, and to their credit and missive Sill—and I wish to distinguish myself entirely from all political parties, with which I have nothing to do—I take one sirgle idea, viz., the popular vote which everywhere exists, and I believe that is the sole remedy to which we shall come at last (applause). Well there is one more for which we need not wait—one remedy in the hands of

to the which everywhere exists, and I believe that is the sole remedy to which we hell come at last (applause). Well there is one more for which we need not wait—one remedy in the hands of all if us, and that is, that; we shall unite together, as we are uniting to-night, and that for ourselves at least we shall strike against drink, so that if we cannot stop its sale we will stop its consumption so far as we are concerned (applause). And if we did that upsign in did somebody else to do like them, and so make the three thousand six thousand that I suppose are here will strike against drink, so that if we cannot stop its sale we will stop its consumption. So far as we are concerned (applause). And if we, did that upsign in many sections of Canoda. While we enjoy our present rights we can well afford to let others talk of "civil and religious librety," knowing, as well, afford to let others talk of "civil and religious librety," knowing, as well, and that it upsign in many sections of Canoda. Hast fall, when the cold weather set in early and sharp, lumberers were justing a million of the year (applause). I when the cold weather as the samp of the three thousand six thousand that I suppose are here will stimulate purchases on a large scale for prospective resulted mot wait—one fount with the set of that line. From the quebec Chronics. to spend 18 millions in drink is not a wise investment, for when it is drunk it is gone (laughter). Not quite, there are the headaches and the disease, and there are the quarrels and the fights, and the murders and the robberies, and the wrecks of men and women and child-

19 Fden-qua, Dublin, Feb. Sir,—Will you kindly publish the fol-lowing letter which I have lately receiv-ed from the "Father Matthew" of Canada. I am sure it will be interesting to all lovers of true liberty the world over, and especially to intending emigrants.

It is needless to add that no truer friend to the Irish emigrant exists than Father Stafford, as those whom I directed to him last season can testify. Whenever

pleasure the report of your speech at the meeting of the Irish Agricultural Lapleasure the report of your speech at the meeting of the Irish Agricultural Labourer's Union in Cork on the 14th December last, in which you dwelt on the superior advantages of our school system and the civil and religious liberty

The anticipations of a revival in the lumber trade are being confirmed. The quantity getting out is comparatively light, and the general business and financial affairs of the States are so promising that an increased demand the civil and religious liberty may be looked for from that market. Pagan, it is, and must be purely Protestant. Practically the schools in the States are Protestant and Protestant. sing, and the Catholic landowner, and householder, and tax-payer has to support those schools equally with his Protestant neighbour. After having done this, after having contributed equally with his Protestant neighbour to the support of the schools of the richer mawere first taxed to provide clothing for testant neighbours, and then were genhonour be it told and published, they would scorn to impose their schools on us; they have too much respect for true liberty of conscience; and further, they would scorn to take our money to edu-

one-third to one-half, owing to the want of snow and frost.

We understand that as a consequence

millions divided into three portions of six millions each, and let us invest six millions in agriculture. First of all it would give 15s. a week to 80,000men. It would also raise 17 millions of bushels of grain. The second six millions, he says, let us apply to cotton. It would give 13s. a week to 55,000 men or hands; it would produce 245,000,000 yards of calico. Let the third six millions be applied to the building of houses. The effect would be to give 25s. a week to 70,000 workmen, and it would build some 30,000 houses." Well, certainly, to spend 18 millions in drink is not a wise investment, for when it is drunk

From the Globe.

Every one has heard of Sir Robert Peel's remark when his party was at the lowest ebb of its fortunes, to the effect to be fought out in the Registration Courts, and Sir Robert we heat that lumber has gene up fully one dollar the million feet in Chicago. We learn that many of our Canadian friends, who have been as usual going into Michigan, to get out oak and elm square timber, and oak staves, have the indispensable work of careful and some 30,000 houses." Well, certainly, to spend 18 millions in drink is not a wise investment, for when it is drunk

From the Globe.

Every one has heard of Sir Robert Peel's remark when his party was at the lowest ebb of its fortunes, to the effect we have to be fought out in the Registration Courts, and Sir Robert We learn that lumber has gene up fully one of Chicago. We learn that many of our Canadian friends, who have been as usual going into Michigan, to get out oak and elm square timber, and oak staves, have been well of six fortunes, to the effect would be to give 13s. A week to 55,000,000 yards of calico. Let the third six millions be applied to the building of houses. The call of the court of the United States are appreciating the state of affairs, and we hear that lumber that lumber has gene up fully one of the million feet in Chicago. We learn that many of our Canadian friends, who have been as usual going into Michigan, to get out oak and e complete organization, and no one, however weak, may despair of gather-ing strength if its partizans attend to this, while their antagonists, from indowas no advantage in chopping down what it was almost certain could not be Shorts.
