"Mr. Melennan very kin:lly drove island with a brother, and left early in mide Comptery me out to the Cometery, and in company the morning for the purpose of looking with Mr. Gregory, spent some time in at some fields on another farm. He showing me over the grounds. Al, hough sley had given me a very fa verable idea of your selection of ground able idea of your selection of ground a large surprised to find the place far ex-

I was surprised to find the place far exceed anything I had anticipated, both in location and natural adaptation to the purpose for which it had been selected.

In modern cometeries there are two things deemed essential, first, that the landscape should be varied, presenting as many different features as possible. Second, and of great importance, that the grounds should be at a sufficient elevation, and of such strate as to afford natural drainage. In regard to the former it is evident that the care of the dead has of late years become a matter dead has of late years become a matter of great consideration to the living, and much interest is felt in procuring a suitable place for the last long home, in ORANGE FUNERAL TRAVELLING -- LUM-

beautifying it and making the surround-Krom Our Own Corresponden mus attractive. Nature h a done much for the River Mr. S. M. Scott, well known in Lindside Cemetery, and it requires but a hitle additional adornment in the way of properly selected trees, shrubs and last week, was intered with Orange flowers, to make it one of the most plea- ceremonies to-day (Wednesday). The sant and beautiful burial places in Can-ada. The ground is sufficiently rolling was highly respected. to prevent a sameness, and is quite elevated, affording many fine views of the fiver and surrounding country. Much care seems to have been taken, in laying out the Cometery, to leave the natural slope of the ground unbroken by mg out the Cometery, to leave the nat-ural slope of the ground unbroken by roads, and so to locate the various avenues and walks as to make each lot ac-Nipissing.
There is no timber running as yet,
the ice still remaining in the back lakes. blo, and render the work of grading easily done, matters of no slight consideration in future improvements, and the convenience of the public. The A good strong wind would break it up. Mr. Mooney is preparing to float hard-wood down Gull Lake to Coboconk by lewn system, which seems the best suited to the grounds, will require an exercise of good taste in the selection and planting of trees and shrubs, and

exhibit to the best advantage all want is the victoria readway, and then revenuents made upon the various birch and other woods for furniture and If you could adopt some means of other purposes. calling the attention of lot owners to the the condition of their lots each spring. and by occasional public improvements render the cometery attractive to visit the seneral appearance of the place will change for the better.

These (Sir John's) promises we again admit were not Cabinet promises, but the seneral appearance of the place will change for the better. orse you will be surprised at the inter-

will exhibit to the best advantage all

One more sention. Induce every we have evidence at hand to show what the promises of a person in that position stone, to get something deflerent from his neighbor 17; saidle, let it be an entirely new design, and thereby prevent the Pacific Scandal, we learn what the a continual repetition of the same old several powers of a Premier and his colleagues are in matters of public policy. It is a Cabinet Minister, the Hon. A. yle of stone and inscription. Respecttiro II Hanns, Sup't.
