ADDRESS AND PRESENTATION TO BEV. A.

time Mr. Alexander Jackson, recently teacher in Woodville, read a flattering and encouraging address, to which the Rev. Mr. McKay replied in suitable terms, thanking them very heartily for their generosity; and expressing the fond hope that this expression of their confidence and esteem afforded the pleasing prospect that his labours would prove useful among them, and would seem to stimulate him to renewed diliprepared for the occasion. This has only been a renewal of past acts of their generosity during his short settlement among them. INTERESTED SPECTATOR.

THE RESERVOIRS OF THE NORTH. The Ontario Government has appointed

Mr. Nathaniel Shaw to the superinten-dence of the Dams and Slides of the back country. The appointment was made on the recommendation of the lumbermen of the district, and there can be no doubt that the appointment is a good one, Mr. Shaw having been in the lumber business for many years and having a thorough acquaintance with the requirements of the trade and the waters of the back country. Mr. up in the back country, be used with even a moderate degree of economy, the will fall to no lower level during the Shaw is now organizing a system that will place the works under proper su-pervision, from the successful operation of which the whole of the important Jewellery Establishment, Doheny Block, Kent Street, for Cheap and Suitable section of the country, extending from Frenton to the unsurveyed lands of the Nipissing District, will receive great and important benefits. -- Bobcargeon

RIVER TRENT AND NEWCASTLE DISTRICT PUBLIC WORKS.

ANNUAL REPORT OF THE SUPERINTEND-The following report of the Superintendent of the Trent Works, Mr. J. D. Belcher, appears in the report of the Minister of Public Works, recently laid before Parliament :-Lindsay.-The lock continues in good repair with the exception of a slight leakage which occurs in the cham-ber. The Ontario Government is erecting a breast wall below the low and between it and the railway landing, to fa-cilitate the passage of steamboats, &c., o and from the lock. It is also widening and dredging Sengog River from Sturgeon Lake. My attention has been drawn by the steat boat owners to the difficulty which exists in bringing their SHINGLE MACHINES, JOINTERS, X CUT AND OTHER SAW PIOS boats up to the landing, in consequence our 2 Horse Powers and Sow attachment to without exception to most substantial saw love and timber that are allowed to obstruct the channel. This I shall respectfully submit to your notice in detail in a future communication.

FENELON FALLS .-- On the Fenelon River there is a question at issue between the steamboat proprietors and navigation of the river, which has been submitted to your notice. Bos Aygeon,—The lock-gates which leaked have been repaired, and are in good working order. The swing-bridge over the canal is undergoing repairs consisting of new flooring and new diagonal braces. The dam has been newly bracketed in order to husband the water on "Sturgeon Lake." The traffic through this lock is considerable and in-

requires repairing. The apron at the foot of the slide is completely torn away, laying bare the rock, which seriously impedes the running of cribs. LITTLE LAKE. - The three piers of

is in good repair, with the exception of the gates, which leak slightly. The wing dam has suffered severely from last spring's freshet, and on which I am preparing a detailed report in accord-ance with instructions. The portion of the dam which was carried down the river has been drawn out and laid ready HASTINGS. -The spring freshet swept away a portion of the canal bank below the lock which consisted merely of loose

stones piled dry, and requires to be re-newed by a retaining wall of crib work. A guard boom has been erected along the north bank of the canal above the seews passing to and from the lock from being blown ashore. A two-stick boom which directed the running of saw logs, &c., into the slide, has been carried away, and requires renewal. The swing bridge acress the canal has been partly floored and adjusted. The traffic through the lock is increasing—13.947 tons of ore having passed through since the season opened up to this date. Here the works erected for the still water navigation terminate, and on which Mr. Jesse Parkin St. Assaults Ed., Keel St. Rev. W. U.Saller V. 11 J. Man., and 1 p. 11 J. Man., and 1 p. 12 St. Assaults St. Assault there has been no improvements of any

being more or less destroyed by the self-our nachines in this county freshet which occurred in the spring of the year 1870, the "Trent Slide Committee? were authorized to build an! restore the necessary slides, dams, and piers, and bo ms. under the folewing conditions, viz

The new slides to be single stick, instead of crib slides. The Committee to expend the balance in hand of toll revemittee to raise by loan the sum neces-sary to complete the works of restoration, and repay the same with interest from the toll revenue. On examination, I found these works to be in the follow-HEELY'S FALLS. - The dam leaks, and

a state of dilapidation, and become use-MIDDLE FALLS.-The works here upper dam has been removed.
CAMPBELLFORD.-The works here consist of cross and wing dams, slide, piers, and booms, all of which are in fair condition. The wing dam requires some

slight repairs.
RANNEY'S FALLS.—The works here have fallen into decay.

Chisholm Rapids.—The works here consist of a canal, lock, dam with slides, booms, and piers. The lock has fallen into decay, and is not used. The dam is in fair repair, except the platform which carries the capstan for lifting the stop logs, which requires renewal. The booms and piers are in fair condition.

A German mob in Cincinnati recently attacked and insulted a band of women crusaders who were praying in front Kardware.
