come, it is needless to say, from Tory as well as Reformer. The first message in fact came from a strong Tory, but a highminded and gentlemanly journalist, and was an expressive "Bully for you." Our crowded columns prevent us giving these matters any attention this week. -We learn that the proposed new

treay of reciprocity, between Canada and the United States, has received the assent of Her Majesty Queen Victoria, of the President and Cabinet of the United States, and of the Government BAVE TROUGE of the Dominion. President Grant has transmitted it to the Senate; if no objection is raised by that body, the President will sign the treaty, and return it for ratification. The proposed treaty is not to go into operation until July, 1875; and will be submitted to the Canadian Parliament at its next regular sitting in February, 1875,
